European Integration And Disintegration East And West:

European Integration and Disintegration Robert Bideleux, Richard Taylor, 1996 This book deals with the principle problems and challenges confronting Europe in the aftermath of the Cold War and the collapse of European communism It concentrates on the changing political economic cultural morphology of Europe

The Changing Geopolitics of Eastern Europe Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership

Max Weber, Democracy and Modernization Ralph Schroeder, 2016-07-27 These essays bring Weber's sociology to bear on the current transformation of the political landscape After the collapse of communism many states are faced with the challenges of democratization they need to establish their legitimacy in an uncertain economic climate and within a new geopolitical order The essays in this volume develop Weberian concepts and apply his comparative historical method to deepen our understanding of these problems They cover a wide range of examples from the United States to Western and Eastern Europe and from Russia and Japan to the Islamic states

The Oxford Handbook of Postwar European History Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the 35 chapters of this book As well as diplomatic political institutional economic and social history the *The Oxford Handbook of Postwar European History* contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the thirty five essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by acknowledged experts as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe

Strategic Culture in Russia's Neighborhood Katalin Miklóssy, Hanna Smith, 2019-07-24 This book explains the complex relations and entanglements of Russia and its neighboring countries an area that changed dramatically after the collapse of communism and the end of the Cold War The chapters discuss how the strategic cultures of different countries display

common characteristics rooted in this special geopolitical space that has been subjected to simultaneous changes over a longer time Shared historical experiences provide a common ground to interpret outside threats The spatial context is relevant in this volume because the focus is on a geopolitical in between ness The position in between two ideologically politically or economically divergent entities affects the states security considerations maneuvering space and policy perspectives By cross examining competing Russian and Western influences Miklossy and Smith create a persuasive context of regional political choices The Politics of East European Area Studies Gareth Dale, Katalin Miklossy, Dieter Segert, 2017-09-13 Following the end of the Cold War and European Union enlargement in what sense does Eastern Europe continue to exist as a meaningful geo political concept In addressing this question contributors to this volume Alex Cistelean Robert Bideleux Katalin Mikl ssy and Dieter Segert tease out the implications for an Area Studies approach to the region They examine its contradictory situation within discourses of orientalisation on one hand posited as the underdeveloped pendant to its western neighbours on the other largely Christian by religion and an integral part of a continent that dominated the world They uncover the roots of area studies in the colonial paradigm by which great powers promote the creation of predictive problem solving knowledge that is immediately apprehendable for decision makers helping them to take advantage of a region s resources and strategic position but which tends to homogenise the region s geography and history For critical inquiry they argue the challenge is to delineate transparently the reasons underlying Eastern Europe s construction as an area of study to identify the epistemological interests of motivated organisations such as funding agencies and political bodies and to counter the ongoing orientalism of Western perspectives toward the East This book was originally published as a special issue of the Journal of Contemporary Central and Eastern Europe

Media and Cultural Policy in the European Union, 2015-06-29 The areas of media and cultural policy offer a unique prism through which to understand wider processes of European integration Questions of European identity citizenship and community or polity building clearly resolve themselves as questions of the non emergence of a European communicative space At the same time as a more specific area of policy study the role which has or may be played by the European institutions themselves in the fostering of such a communicative space raises questions as to both the effectiveness and the legitimacy of their interventions This volume in the European Studies series brings fresh interdisciplinary insight into this relatively understudied area making the case for a renewed look at the trajectory of cultural and media policies in the EU Distinctively the collection offers a historical and socio political analysis of major media policies in the European Union allowing for the contextualisation of recent developments turns its attention to areas largely neglected by scholarly publishing such as the press the culture of the newsroom and the role of media in an enlarged Europe and addresses media and cultural policies as an interrelated part of EU construction through questions of identity and political representation Media and Cultural Policy in the European Union will be of interest to scholars and students of Cultural and Media Studies European Studies and European Integration as well

as appealing to broader Social Science audiences concerned with the politics and policy of cultural diversity Germany and European Order Adrian Hyde-Price, 2000 Established in the belief that imperialism as a cultural phenomenon had as significant an effect on the dominant as it did on the subordinate societies the Studies in Imperialism series seeks to develop the new socio cultural approach which has emerged through cross disciplinary work on popular culture media studies art history the study of education and religion sports history and children s literature The cultural emphasis embraces studies of migration and race while the older political and constitutional economic and military concerns are never far away It incorporates comparative work on European and American empire building with the chronological focus primarily though not exclusively on the 19th and 20th centuries when these cultural exchanges were most powerfully at work This work explores the sexual attitudes and activities of those who ran the British Empire The study explains the pervasive importance of sexuality in the Victorian Empire both for individuals and as a general dynamic in the working of the system Among the topics included in the book are prostitution the manners and mores of missionaries and aspects of race in sexual behaviour

Policy Concertation and Social Partnership in Western Europe Stefan Berger, Hugh Compston, 2002-02-01 Policy concertation the determination of public policy by means of agreements struck between governments employers and trade unions continues to thrive in Western Europe despite the impact of liberalizing trends that were expected to lead to its demise This volume brings together a team of 23 experts with the aim to undertake paired historical and political studies of policy concertation in ten West European countries which were then subjected to systematic comparative analysis It shows that overall the incidence of broad policy concertation in Western Europe can be explained by the changing configurations of just three variables **Routledge Encyclopedia of International Political Economy** R. J. Barry Jones, 2002-09-11 This

three volume Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in the study of the international political economy The Reuniting of Europe José I. Torreblanca, 2017-09-20 This title was first published in 2001 In 1989 central and Eastern European countries broke free from the Soviet Union and looked upon the European Community to support their return to Europe Some years later leaders of the European Community meeting in Copenhagen in June 1993 endorsed for the first time the membership aspirations of the recently democratized countries of Central and Eastern Europe This insightful text examines the negotiations debates tensions and contradictions behind the process of approximation between the two halves of Europe both within the EC itself

as well as between the EC and the countries of Central and Eastern Europe The extensive consultation of unpublished internal documents and a theoretically relevant and well written analysis ensures that this book is an indispensable resource for students and researchers of EC EU relations with Central and Eastern Europe **Citizenship East and West** Daniel Warner, Andre Liebich, Jasna Dragovic, 2012-10-12 First Published in 1995 The outcome of the political transition in Eastern Europe depends not only on the politics pursued but on the understanding of politics in the countries involved A key aspect of such understanding is the notion of citizenship an ancient term of striking contemporary relevance not only in Eastern Europe but in the West as well What then are the dynamics of citizenship in Europe s new democracies and how do emerging solutions to the question of citizenship there respond to the concerns that the issue of citizenship has raised and continues to raise elsewhere These questions prompted the project which has led to this volume Conceived in 1991 it focussed on Poland Hungary and what was then Czecho Slovakia as countries already grappling with the issue of post communist citizenship

HISTORICAL FORMATION OF GERMANY'S EUROPEAN IDENTITY Dr. Melek Aylin Özoflu, 2024-06-17 The European integration process aimed to foster a sense of common European identity enhancing the European public s sense of belonging and identification with the European community This goal is vividly reflected in Jean Monnet s 1952 statement We are not bringing together states we are uniting people In this context forming a collective European identity has emerged as a process in the making boosted often by the symbols of solidarity such as common currency motto flag and anthem This book delves into the historical process of European identity formation in Germany presenting a unique case where its post war national identity was constructed hand in hand with the European identity resulting in relatively higher levels of identification compared to other member states While doing this it leverages the core principles of Social Identity Theory SIT

Pushing Back the Boundaries Mike Mannin, 1999 Missionary families were an integral component of the missionary enterprise both as active agents on the global religious stage and as a force within the enterprise that shaped understandings and theories of mission itself Taking the family as a legitimate unit of historical analysis in its own right for the first time Missionary families traces changing familial policies and lived realities throughout the nineteenth century and powerfully argues for the importance of an historical understanding of the missionary enterprise informed by the complex interplay between the intimate the personal and the professional By looking at marriage parenting and childhood along with professionalism vocation and domesticity this first in depth study of missionary families reveals their profound importance to the missionary enterprise and concludes that mission history can no longer be written without attention to the personal emotional and intimate aspects of missionary lives

Prospects for Democratic Consolidation in East-Central Europe Geoffrey Pridham, Attila Ágh, 2001 Picturing home examines the depiction of domestic life in British feature films made and released in the 1940s It explores how pictorial representations of home onscreen in this period re imagined modes of address that had been used during the interwar years to promote ideas about domestic modernity Picturing home provides a close analysis of domestic life as constructed in eight films contextualising them in relation to a broader offscreen culture surrounding the suburban home including magazines advertisements furniture catalogues and displays at the Daily Mail
