Mark Harwood, 2016-05-13 Malta has bucked the trend of its EU Mediterranean neighbours in many ways This smallest of EU states barely dipped into recession during the global financial crisis and remains a stable member of the Eurozone whilst also

having one of the lowest infringement rates and highest transposition of EU law records amongst the 28 member states Providing the first comprehensive study of Malta's complex road to EU membership this book looks at the impact of membership on the country's political structures and processes and explains the principal factors that have conditioned the country's Europeanization experience Reflecting Malta's unique and often contentious road to membership the book explores the historical context and outlines how Maltese processes and policies have changed since membership and whether a causative link exists between these changes and Malta's membership of the EU A wide range of primary and secondary sources facilitate the study complemented by a series of interviews with a broad range of Malta's political and social actors as well as individuals from EU institutions This depth of analysis enables a holistic view of Malta's first decade of EU membership and helps establish the fundamental characteristics of Malta's unique Europeanization experience

Legitimacy and the European Union Thomas Banchoff, Mitchell Smith, 2005-08-12 Since the Maastricht ratification debate of the early 1990s the legitimacy of the European Union has become a subject of controversy With unprecedented force Europeans have begun to question the need for deeper integration Some fear threats to established national identities while others perceive the emergence of a distant but powerful Brussels beyond the reach of democratic control Legitimacy and the European Union breaks with established approaches to the problem of the legitimacy of the European Union by focusing on the recent trend towards reconceptualization of the EU not as a superstate or an organization of states but as a multi level contested polity without precedent The book examines the implications of this reconceptualization for the problem of legitimacy Individual chapters focus on policy areas institutions and identity politics Taken together they reach two main conclusions While Europeans do not strongly identify with the EU they increasingly recognize it as a framework for politics alongside existing national and subnational structures And while the EU lacks central democratic institutions the integration process has spawned significant informal and pluralist forms of representation Rethinking recognition and representation outside the context of the nation state points to important if little understood actual and potential sources of EU legitimacy

practices and meta practices of diplomacy Comparing EU diplomacy to the two theoretically constructed ideal types of Westphalian diplomacy and utopian antidiplomacy Steffen Bay Rasmussen concludes that the EU's international agency constitutes a new form of diplomacy called structural antidiplomacy **Handbook on European Union Public**

Based on extensive archival research and exclusive elite interviews, this volume provides the first comprehensive study of how the EU contributed to the reconfiguration of Northern Ireland from a site of conflict to a site of conflict amelioration and peace building. The book demonstrates that the relationship between Northern Ireland and the EU has been much more significant in the peace process than previously suggested South-American Integration Processes

under the EU Framework Jaime Martín León Li, 2014-04-11 Inhaltsangabe Introduction After the Second World War the political and economical block that today we call European Union started when six countries sought to ensure the peace among them. Belgium, France, Germany, Italy, Luxemburg and the Netherlands put their heavy industries under a common management with the Coal and Steel Treaty so no one could build weapons or develop its war industry without the others knowing it. This experience led to the Treaty of Rome in 1957 and 50 years later the ideas of people, goods and service freedoms continue spreading around and the European Union has become one of the best examples of economical, political and cultural integration and a reference around the world to encourage other regions to group. Therefore, among others, the Latin America Free Trade Association LAFTA appeared in 1960, the Association of Southeast Asian Nations ASEAN in 1967, the North American Free Trade Area NAFTA in 1991 and the Common Market for Eastern and Southern Africa COMESA in 1993. In the case of South America, in spite of their good intentions, the huge asymmetries between LAFTA members caused the apparition of sub-regional blocs: the Andean Community CAN founded in 1969 and now grouping Bolivia, Colombia, Ecuador and Peru and the Southern Common Market MERCOSUR founded in 1991 between Argentina, Brazil, Paraguay and Uruguay. Nowadays, after more than 40 years of integration processes, there are still strong problems inside both sub-regional blocs. CAN Member States have several diplomatic discussions regarding their political models and Peru, Ecuador and Colombia have or are negotiating independent Free Trade Agreements with external blocs including USA and the EU. In the other side, MERCOSUR's main players, Argentina and Brazil, have commercial disputes at the World Trade Organization.

surrounding their own sub regional bodies Nevertheless these two sub regional associations were the basis for the South American Community of Nations CSN on Spanish in 2004 and from that point the present attempt to unify South America the South American Union of Nations UNASUR 2008 with the participation of Argentina Bolivia Brazil Chile Colombia Ecuador Guyana Paraguay Peru Surinam Uruguay and Venezuela The integration levels in political and economical affairs in this latter group are expected to change the way international relations will be conduit in the future of South America This new

European Union Support for Colombia's Peace Process Karlos Pérez de Armiño, 2023-05-29. This open access book provides a comprehensive analysis of the EU's crucial support for the implementation of the Havana Peace Agreement between the Colombian government and the FARC-EP. It explores the use of new approaches and instruments that, despite some limitations and criticisms, could go beyond conventional liberal peace and provide useful lessons. Particular attention is paid to three axes: strengthening civil society, protection of human rights, and a territorial peace perspective as a contribution to the local turn in peace policies. The book first outlines the background of the conflict, the EU's two-decade defense of a negotiated peace, and the complexities of the peace process. Then it analyses the development, cooperation, and political support provided in different areas: the collective reinsertion of ex-guerrillas, women and gender initiatives, the rights of ethnic communities, the sophisticated transitional justice system, as well as activities on reconciliation, victims, and protection of human rights defenders.

Adult Education Policy and the European Union: Theoretical and Methodological Perspectives, 2014-01-01. FREELY AVAILABLE ONLINE AS OPEN ACCESS BOOK. The European Union is now a key player in making lifelong learning and adult education policy; this is the first book to explore a range of theoretical and methodological perspectives researchers can use to investigate its role. Chapters by leading experts and younger scholars from across Europe and beyond cover the evolution of EU policies, the role of policy actors in what is often seen as the black box of EU policy making, and the contribution state theory can make to understanding the EU and its relations with Europe's nations. They consider what theories of governmentality, drawing on the work of Foucault, can contribute. And they demonstrate how particular methodological approaches such as policy trails and the contribution the sociology of law can make. Contributors include both specialists in adult education and scholars exploring how work from other disciplines can contribute to this field.
