Psalms Book 2: An Earth Bible Commentary Arthur Walker-Jones,2019-10-03 Arthur Walker Jones presents an Earth focused reading of the second book of Psalms focusing upon the many nonhuman animals that appear repeatedly within the text In the first commentary to explore the implications of the natural and cultural history of animals for the interpretation of Psalms Walker Jones moves beyond the standard treatment of animals as mere metaphors for human concerns or background to human stories Instead Walker Jones draws upon the interdisciplinary field of animal studies incorporating this into ecocritical analysis and arguing for the similarity between the two approaches including recognizing that the oppression and liberation of humans is interrelated with the oppression and liberation of Earth and all its creatures Walker Jones looks at foxes sheep goats cattle doves snakes lions snails dogs and deer which all appear in Psalms 42 72 taking into account that many of these animals co evolved with humans and created the particular ecological niche of the highlands east of the Mediterranean Perceiving Earth in various ways as refuge as enemy as Rock and as fertile and joyous this volume brings an entirely new ecological perspective to the Psalms

Donkeys in the Biblical World Kenneth C. Way,2011-06-30 In this volume Kenneth Way explores the role of donkeys in the symbolism and ceremonies of the biblical world His study stands alone in providing a comprehensive examination of donkeys in ancient Near Eastern texts the archaeological record and the Hebrew Bible Way demonstrates that donkeys held a distinct status in the beliefs and rituals of the ancient Near East and especially Canaan Israel The focus on ceremony and symbol encompasses social and religious thoughts and practices that are reflected in ancient texts and material culture relating to the donkey Ceremonial considerations include matters of sacrifice treaty ratification consumption death burial scapegoat rituals and foundation deposits symbolic considerations include matters of characterization association function behavior and iconographic depiction However the distinction between ceremony and symbol is not strict In many cases these two categories are symbiotic The need for this study on donkeys is very apparent in the disciplines that study the biblical world There is not a single monograph or article that treats this subject comprehensively Philologists have discussed the meaning of the Amorite phrase to kill a jackass and archaeologists have discussed the phenomenon of equid burials But until now neither philologists nor archaeologists have attempted to pull together all the ceremonial and symbolic data on donkeys from burials ancient Near Eastern texts and the Hebrew Bible Way's study fills this void
