The Coming of the Mongols David O. Morgan, Sarah Stewart, 2017-11-16 The Mongol invasions in the first half of the thirteenth century led to profound and shattering changes to the historical trajectory of Islamic West Asia As this new volume in The Idea of Iran series suggests sudden conquest from the east was preceded by events closer to home which laid the groundwork for the later Mongol success In the mid twelfth century the Seljuq empire rapidly unravelled its vast provinces fragmenting into a patchwork of mostly short lived principalities and kingdoms In time new powers emerged such as the pagan Qara Khitai in Central Asia the Khwarazmshahs in Khwarazm Khorosan and much of central Iran and the Ghurids to the southeast Yet all were blown away by the Mongols who faced no resistance from a sufficiently muscular imperial competitor and whose influx was viewed by contemporaries as cataclysmic Distinguished scholars including David O Morgan and the late C E Bosworth here discuss the dynasties that preceded the invasion and aspects of their literature poetry and science as well as the conquerors themselves and their rule in Iran from 1219 to 1256

Medieval Cruelty Daniel Baraz, 2019-06-30 The Middle Ages are often thought of as an era during which cruelty was a major aspect of life a view that stems from the anti Catholic polemics of the Reformation Daniel Baraz makes the striking discovery that the concept of cruelty which had been an important issue in late antiquity received little attention in the medieval period before the thirteenth century From that point on interest in cruelty increased until it reached a peak late in the sixteenth century Medieval Cruelty's extraordinary scope ranges from the writings of Seneca to those of Montaigne and draws from sources that include the views of Western Christians Eastern Christians and Muslims Baraz examines the development of the concept of cruelty in legal texts philosophical treatises and other works that attempt to discuss the nature of cruelty He then considers histories martyrdom accounts and literary works in which cruelty is represented rather than discussed directly In the wake of the intellectual transformations of the twelfth and thirteenth centuries an increasing focus on the intentions motivating an individual's acts rekindled the discussion of cruelty Baraz shows how ethical thought and practice about cruelty which initially focused on external forces became a tool to differentiate internal groups and justify violence against them This process is evident in attacks on the Jews in the peasant rebellions of the later Middle Ages and in the Wars of Religion
