Genocide In Sri Lanka:

The Tamil Genocide by Sri Lanka Francis Boyle, 2010-04-20 Sri Lanka's government declared victory in May 2009 in one of the world's most intractable wars after a series of battles in which it killed the leader of the Tamil Tigers who had been fighting to create a separate homeland for the country's ethnic Tamil minority. The United Nations said the conflict had killed between 80 000 and 100 000 people in Sri Lanka since full scale civil war broke out in 1983. A US State Department report offered a grisly catalogue of alleged abuses including the killing of captives or combatants seeking surrender, the abduction and in some cases murder of Tamil civilians and dismal humanitarian conditions in camps for displaced persons. Human Rights Watch said the U S report should dispel any doubts that serious abuses were committed during the final months of the 26 year civil war. The report gains added significance since during these five months the Sri Lankan Government denied independent observers including the media and human rights organizations access to the war zone and conducted a war without witnesses. This book traces the ongoing engagement of international lawyer Francis A Boyle during the last years of the conflict. Boyle was among the very few addressing the international legal implications of the Sri Lankan Government's grave and systematic violations of Tamil human rights while the conflict was taking place. This is the first book to develop an authoritative case for genocide against the Government of Sri Lanka under international law.

Boyle, 2016-03-01 Sri Lanka's government declared victory in May 2009 in one of the world's most intractable wars after a series of battles in which it killed the leader of the Tamil Tigers who had been fighting to create a separate homeland for the country's ethnic Tamil minority. The report gains added significance since during these five months the Sri Lankan Government denied independent observers including the media and human rights organizations access to the war zone and conducted a war without witnesses. This second edition traces the ongoing engagement in the Sri Lankan conflict of Professor Francis A Boyle, an eminent American expert in international law, from the conflict's last years to the present pursuit of UN recognition of the Tamil genocide and call for reparations. It is the first book to develop an authoritative case for genocide against the Government of Sri Lanka under international law. Such charges by an expert like Boyle should not be taken lightly. In 1993 Boyle took the remarkably similar case of Bosnia and Herzegovina to the International Court of Justice, setting a historical precedent by winning not one but two Orders from the Court against the rump Yugoslavia. Professor Boyle was among the very few to address the international legal implications of the Sri Lankan Government's grave and systematic violations of

Tamil human rights while the conflict was actually taking place and to excoriate the UN and those significant states and actors in the global community whose failure to prevent it Boyle charges amounted to complicity in genocide A seminal lecture in the book outlines the legal basis for the Tamils to exercise their right under international law to proclaim a Unilateral Declaration of Independence and establish a Tamil state

joining the struggles to champion ways of living that value humanity and justice over power *Customary International Humanitarian Law* Jean-Marie Henckaerts, Louise Doswald-Beck, 2005 In 1996 the International Committee of the Red Cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area This book is the result of that study a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non international armed conflicts Given that important treaties in this area have not yet been universally ratified this is a publication of major importance carried out at the express request of the international community In so doing this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts **Loss and Hope** Peter Admirand, 2014-05-22 What are the spiritual consequences of abuse and trauma Where is God How and why does such senseless suffering occur What is the relationship between loss and hope What are the benefits of examining loss and hope from an interreligious focus These are some of the questions addressed in this volume written by leading international scholars and which also includes contributions by those who have suffered survivors of genocide and state terror Case studies of loss and hope from around the world are discussed including from the United States Ireland Sri Lanka India Iran Iraq Argentina China and Chile Religions examined include Buddhism Islam Christianity Judaism and Hinduism Three interconnected lenses are used to explore new perspectives on loss and hope survivors and victims testimony interfaith studies and ethical approaches The book highlights the need for responses to atrocity that transcend differences within gender class religion race and ethnicity The authors stress the need for partnership and dialogue from an interfaith perspective and while neither hiding nor unduly minimizing the extent of losses in the world attempt to establish an ethics of hope in the face of destabilizing losses in the realms of human rights and post conflict resolution *Loss and Hope* is the first book to bring together this high level and diversity of scholars living and working all over the world from different faith cultural and ethnic backgrounds examining the universal themes of loss and hope **Redefining Genocide** Doctor Damien Short, 2016-06-15 In this highly controversial and original work Damien Short systematically rethinks how genocide is and should be defined Rather than focusing solely on a narrow conception of genocide as direct mass killing through close empirical analysis of a number of under discussed case studies including Palestine Sri Lanka Australia and Alberta Canada the book reveals the key role played by settler colonialism capitalism finite resources and the ecological crisis in driving genocidal social death on a global scale Criminology and War Sandra Walklate, Ross McGarry, 2015-03-24 It is widely observed that the study of war has been paid limited attention within criminology This is intellectually curious given that acts of war have occurred persistently throughout history and perpetuate criminal acts victimisation and human rights violations on a scale unprecedented with domestic levels of crime However there are authoritative voices within criminology who have been studying war from the borders of the discipline This book contains a selection of criminological authors who have been

authoritatively engaged in studying criminology and war Following an introduction that places war within criminology the collection is arranged across three themed sections including Theorising War Law and Crime Linking War and Criminal Justice and War Sexual Violence and Visual Trauma Each chapter takes substantive topics within criminology and victimology i e corporate crime history imprisonment criminal justice sexual violence trauma security and crime control to name but a few and invites the reader to engage in critical discussions relating to wars both past and present The chapters within this collection are theoretically rich empirically diverse and come together to create the first authoritative published collection of original essays specifically dedicated to criminology and war Students and researchers alike interested in war critical criminology and victimology will find this an accessible study companion that centres the disparate criminological attention to war into one comprehensive collection
