Language Complexity as an Evolving Variable Geoffrey Sampson, David Gil, Peter Trudgill, 2009-02-26 This book presents a challenge to the widely held assumption that human languages are both similar and constant in their degree of complexity For a hundred years or more the universal equality of languages has been a tenet of faith among most anthropologists and linguists It has been frequently advanced as a corrective to the idea that some languages are at a later stage of evolution than others It also appears to be an inevitable outcome of one of the central axioms of generative linguistic theory that the mental architecture of language is fixed and is thus identical in all languages and that whereas genes evolve languages do not *Language Complexity as an Evolving Variable* reopens the debate Geoffrey Sampson's introductory chapter re-examines and clarifies the notion and theoretical importance of complexity in language linguistics cognitive science and evolution Eighteen distinguished scholars from all over the world then look at evidence gleaned from their own research in order to reconsider whether languages do or do not exhibit the same degrees and kinds of complexity They examine data from a wide range of times and places They consider the links between linguistic structure and social complexity and relate their findings to the causes and processes of language change Their arguments are frequently controversial and provocative their conclusions add up to an important challenge to conventional ideas about the nature of language The authors write readably and accessibly with no recourse to unnecessary jargon This fascinating book will appeal to all those interested in the interrelations between human nature culture and language

Second Language Learning Michael Sharwood Smith, Christopher N. Candlin, 2014-09-19 A survey and analysis of second language theory discusses the development of ideas in this expanding area of language studies It looks at the implications of these ideas and directions for future research Contains study questions and activities as well as practical guidelines on the use of available research resources

Competing Structures in the Bilingual Mind Elif Bamyacı, 2015-12-28 This volume combines psycholinguistic experiments with typological investigations in order to provide a comprehensive exploration of the linguistic structure of verb number agreement in bilingual speakers with a particular focus on the Turkish language It takes as its

starting point the question of which linguistic structures pose difficulties for bilingual speakers and then proceeds to evaluate the question by using the interface phenomenon of optional verb number agreement In doing so this volume investigates how the bilingual mind handles grammatical structures that demand high processing resources working towards a processing based linguistic framework for the bilingual mind Beginning with a thorough survey of the current research of the interface phenomenon in the bilingual mind the volume then proceeds to present two separate studies on each linguistic interface type namely semantics syntax interface and syntax pragmatics interface thus filling a number of gaps in the bilingualism research with regards to the interface phenomenon The results and conclusions of these studies are then integrated with current knowledge and research from the field within a theoretical and processing based framework in order to explore new psycholinguistic insights for the bilingual mind specifically the conclusion that the grammar of bilingual speakers is shaped according to cross linguistic tendencies Ultimately it provides a unified account and a comprehensive conclusion regarding the non native like patterns in grammar of bilingual speakers Serving as a fascinating and timely resource *Competing Structures in the Bilingual Mind An Investigation of Optional Verb Number Agreement* will appeal to bilingualism researchers clinical linguists cognitive scientists experimental linguists and any linguist specializing in Turkic or Altaic languages **Research Methods in Language Variation and Change** Manfred Krug, Julia Schlüter, 2013-10-24
