Science and Technology in Contemporary China

Varaprasad S. Dolla, 2015-01-15 The Science and Technology policy changes in post Mao China cannot be complete without a historical narrative and analysis of Science and Technology in its pre policy prior to 1850 and policy since 1850 when the Qing rulers began to promote Science and Technology periods This book is an imperative to revisit and interrogate the nature and scope of Chinese Science and Technology policy and progress The text is divided into three parts The first part considers both the macro and micro issues pertaining to Science and Technology policy in general and also of the policy in particular The second part highlights the historical narrative of Chinese Science and Technology policy as it has a key role in the evolution

of contemporary Science and Technology architecture The third part discusses three focal components of the Chinese Science and Technology system each representing state society and international systems the organizational structure representing the state the research system representing society and technology acquisition representing the international system with serious implications for China

The Great American Mission David Ekbladh, 2011-08-28 The Great American Mission traces how America's global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism's ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U.S. led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization's mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America's ideological motivations and humanitarian responsibilities abroad

American Diplomacy Paul Sharp, Geoffrey Wiseman, 2012-01-20 These essays examine questions arising from the Obama administration's efforts to revive American diplomacy and its response to the ways in which diplomacy itself is being transformed The essays examine these questions from a variety of theoretical and practical perspectives provided by scholars and diplomats from around the world and within the United States A common focus of the collection is on how diplomacy's contribution to the effectiveness of foreign policy has been undervalued in the United States by governments the foreign policy community and academics Together the essays seek to raise awareness of American diplomacy conducted at all levels of government and society They consider its future prospects in the context of America's economic difficulties and the anticipated further erosion of its international position And they ask how American diplomacy may be strengthened in the interests of international peace and security whether under a second term Obama administration or the leadership of a new president

Boundary Spanners of Humanity R. S. Zaharna, 2022 Written by a leading scholar of public diplomacy Boundary Spanners of Humanity introduces a pan human vision of communication that can revolutionize how we collaborate to solve global problems Never before has humanity enjoyed better technological capabilities for interconnection than today Ironically rather than benefiting from the global pool of human resources and intellectual wealth to solve shared problems

nations are experiencing public discord and global divisions *Boundary Spanners of Humanity* tackles the challenge of how to enhance global collaboration by introducing three pan human logics of human communication and public diplomacy that can transform how we view diversity in an interconnected world R S Zaharna begins by asking why the very tools needed for global collaboration communication and public diplomacy are undermining our efforts to work together Her research reveals how contemporary communication is based on a nineteenth century mindset of separateness that divided people into mutually exclusive cultural and national categories That mindset reinforces human divisions and erodes global collaboration In a radical break from conventional models Zaharna introduces a vision of humanity centered public diplomacy featuring three complementary logics of communication Zaharna s innovative approach stems from decade long interdisciplinary research that spans from ancient cosmologies to emerging neurobiology She draws on a rich array of global examples from ancient and indigenous precolonial diplomacies to spontaneous online communication during the Covid 19 pandemic to provide insights into overlooked aspects of emotion empathy spirituality and synchrony in how nations and people communicate in the global arena Ambitiously conceived this book will bring a new global understanding of how to conduct public diplomacy for the world s boundary spanners those who would find commonality among our many divisions and collaborate on humanity s shared global problems *Critical Legal Studies* Richard W Bauman,2021-11-28 Contemporary legal thought has been powerfully influenced by Critical Legal Studies a school of legal scholars whose work has sustained a continuing radical critique of established legal doctrines In this essential reference work Richard Bauman presents the most thorough up to date guide available for this essential literature In addition to providing the basic bibliographic information Bauman offers a set of effective introductions to contextualize and explain the work being surveyed He has created a fundamental handbook not only for the law but also for politics and radical thought **The Virtual Weapon and International Order** Lucas Kello,2017-01-01 An urgently needed examination of the current cyber revolution that draws on case studies to develop conceptual frameworks for understanding its effects on international order The cyber revolution is the revolution of our time The rapid expansion of cyberspace in society brings both promise and peril It promotes new modes of political cooperation but it also disrupts interstate dealings and empowers subversive actors who may instigate diplomatic and military crises Despite significant experience with cyber incidents the conceptual apparatus to analyze understand and address their effects on international order remains primitive Here Lucas Kello adapts and applies international relations theory to create new ways of thinking about cyber strategy Kello draws on a broad range of case studies including the Stuxnet operation against Iran the cyberattacks against Sony Pictures and the disruption of the 2016 U S presidential election to make sense of the contemporary technological revolution Synthesizing data from government documents forensic reports of major events and interviews with senior decision makers this important work establishes new theoretical benchmarks to help security experts revise strategy and policy for the unprecedented challenges of our era *King Zeno*

Nathaniel Rich, 2018-01-09 New Orleans 1918 an ax murderer draws together a cop a Mafia matriarch and a jazz musician in this crime novel by the author of Odds Against Tomorrow New Orleans 1918 A new American music is born prostitution is outlawed and the police retake the streets with maximum violence In the Ninth Ward laborers break ground on a gigantic canal that will split the city a work of staggering human ingenuity intended to restore New Orleans's faded mercantile glory As the war ends and a prosperous new age dawns everything is thrown into chaos by a series of ax murderers which scramble the fates of three people from different corners of town Detective William Bastrop is an army veteran haunted by an act of wartime cowardice and recklessly bent on redemption Isadore Zeno is a jazz cornetist with a dangerous side hustle Beatrice Vizzini is the widow of a crime boss who yearns to take the family business straight But in New Orleans a city built on swamp nothing stays buried long A New York Times Book Review Editors Choice and a Paris Review Staff Pick A January Pick by Salon Town and Country Southern Living and LA Magazine Praise for King Zeno King Zeno is a great detective novel a fitting tribute to the Crescent City The Paris Review Rich brings multiple themes together in this roiling genre blender set in New Orleans in 1918 It's a rich gumbo of ingredients and Rich stirs them effectively combining a lyrical impressionistic style with a sure handed grasp of the historical moment A heady mix of literary thriller and high end historical fiction Booklist King Zeno excels at immersing the reader in the narrative Publishers Weekly

Cyberwar, Netwar and the Revolution in Military Affairs E. Halpin, P. Trevorrow, D. Webb, S. Wright, 2006-04-26 The end of the Cold War the Revolution in Military Affairs 9 11 and the War on Terror have radically altered the nature of conflict and security in the Twenty first Century This book considers how developments in technology effect the prosecution of war and what the changing nature of warfare means for human rights and civil society

Globalization and the Gulf John W. Fox, Nada Mourtada-Sabbah, Mohammed Al Mutawa, 2006-09-27 For centuries the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business Events of the past few years both good and bad have directed the world's attention to the Arabian Peninsula where a rich cultural tradition is rapidly incorporating the latest innovations from around the world This is the process of globalization New economies create enormous potential but it will require great care for the people of the region to steer through a period of profound change Political and economic interests intent on maintaining the flow of petroleum products on one hand and people in the Gulf region who assess their won interests from quite a different perspective on the other exert pressures from conflicting directions Reconciling these interests in a time of rapid globalization poses enormous challenges This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas new technologies and new economies Brought together by the American University of Sharjah and the Sociological Association of the UAE the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture offering views on how these trends interact within the global system

The Political Economy of Climate Finance: Lessons from

International Development Corrine Cash, Larry A. Swatuk, 2022-10-05 This project breaks disciplinary silos by bringing those who work in climate finance and policy together with development scholars and practitioners to share lessons understanding and research with an overall goal of making a contribution to the climate change field so that those at the community level benefit from the multitude of programmes designed for climate impacts For some 70 years International Development specialists have been developing programs and delivering funds to those who most need assistance There is a wealth of knowledge to be uncovered by examining the international development industry for those who are now tasked with delivering climate finance The academic policy and practitioner communities have spent decades researching examining and analyzing both development policies and finance independent of each This volume will seek to bring that research together

Wedded Wife Rachael Lennon, 2023-05-23 *Wedded Wife* is a feminist study of the institution of marriage and its history around the globe

East Asia's Strategic Advantage in the Middle East Shirzad Azad, 2021-05-07 The modern trajectory of Middle Eastern East Asian interactions has garnered very little scholarly attention and scrutiny The two way connection between both regions have witnessed a litany of activities and developments over the past several decades but such dynamics are yet to be investigated sufficiently in tandem with their overall impacts on the world's safety and well being Aiming to fill part of this acute research gap *East Asia's Strategic Advantage in the Middle East* concentrates primarily on different aspects of East Asia's modern relationship with the Middle East by turning the spotlight on strategic advantages of East Asian countries in critical areas in the region Over the past several years there have been a slew of talks and debates about the formation of strategic ties between the East Asian states and their counterparts across the Middle East region However East Asia's advantage of strategic nature has been there for decades shaping the contours of an increasingly multifaceted chain of interactions involving the two sides The more other stakeholders Western powers in particular made serious attempts to secure their precious assets in the Middle East the larger East Asia's strategic advantage in the region grew
