Kathryn Armistead,Brad D. Strawn,Ronald W. Wright,2009-12-14 Science and religion are living organic and creative traditions Both see humans as profoundly interconnected and in some way responsible for our environs This worldview is especially true for social science and Wesleyan religious tradition While the dance between science and religion will always be complex it can also be enjoyable and mutually satisfying However when couples dance only one at a time can lead and both have to acknowledge the importance of the other This book is written with the conviction that theology and science can have a beneficial relationship if only both recognize their mutual value to the lives of persons The Methodist tradition links the welfare of the body with care for the soul Historically ministry involved tending to physical and psychological needs of the Methodist band members but also to non churched poor and imprisoned Thus Methodists built places of worship schools orphanages and hospitals For John Wesley the founder of Methodism practical divinity always involved attention to whole persons including their living conditions and basic physical needs He sought to improve life for all Therefore throughout his life Wesley was interested in theology but also scientific discovery as paths toward a better future He believed that both were of value to help people move toward perfection He even attended lectures and offered medical treatment in the first Methodist meeting hall in Bristol England As a scientific practitioner Wesley wrote the best selling book Primitive Physic or An Easy and Natural Method of Curing Most Diseases using the cutting edge science of his day Packed next to the Bible this
