National Board of Review. Cecil B. DeMille was the most successful filmmaker in early Hollywood history. Cecil B. DeMille's Hollywood is a detailed and definitive chronicle of the screen work that changed the course of film history and a fascinating look at how movies were actually made in Hollywood's Golden Age. Drawing extensively on DeMille's personal archives and other primary sources, Robert S. Birchard offers a revealing portrait of DeMille, the filmmaker that goes behind studio gates and beyond DeMille's legendary persona. In his forty-five year career, DeMille's box office record was unsurpassed and his swaggering style established the public image for movie directors. DeMille had a profound impact on the way movies tell stories and brought greater attention to the elements of decor, lighting, and cinematography. Best remembered today for screen spectacles such as *The Ten Commandments* and *Samson and Delilah*, DeMille also created Westerns, realistic chamber dramas, and a series of daring and highly influential social comedies. He set the standard for Hollywood filmmakers and demanded absolute devotion to his creative vision from his writers, artists, actors, and technicians. In 1968, Miguel "Mickey" Melendez was a college student developing pride in his unique cultural identity as Cuban and Puerto Rican while growing increasingly aware of the lack of quality health care, education, and housing, not to mention respect, his people endured for the sake of the American Dream. He was not alone. Bringing together other like-minded Latino student activists like Juan Gonzalez, Felipe Luciano, David Perez, and Pablo Yoruba, Guzman Melendez helped to form the central committee of what would become the New York branch of the Young Lords. Over the course of the next three years, the Young Lords were a force to be reckoned

Revolution Marie Josephine Diamond,2013-06-29 Taking its starting point from women s contributions to the French revolution this important anthology goes far beyond any particular historical European or American context and expands its scope in space and time to an all inclusive global theme namely the contributions of radical women towards an ever changing world and its revolutionary transformations everywhere The superbly edited essays by diverse contributors from various continents and disciplines explore a wide platform of women s revolutionary involvements and elucidate the broad range of contributions by women scholars scientists and activists to movements of social transformation as well as to a reexamination of established methods of cultural analysis from enlightened liberalism to Marxism The contributions of women scholars and activists from Africa Asia and Latin America are particularly significant in that they transcend and expand European North American feminism as relevant primarily to its own socio cultural context and focus on women acting in terms of their own non Western traditions and cultures that is on non Western models based on indigenous strategies of social transformation This rich anthology shuns any postulation of a single global model for revolution Yet despite the emergence of a problematic relationship between Western or Western educated theorists and the causes of the oppressed women s diverse social cultural and historical experiences and strategies are united in this edition as in their common causes as emphasized by the following statement in the introduction the female body has become a privileged site for social analysis in the context of international capitalism as well as in the critique of traditional socialism Sabine Jell Bahlsen Ogbuide Films Women and Revolution covers an enormous socio historical space four continents Europe Africa Asia and Latin America and quite a few countries within them This huge field of human experience is looked at from the focal point which runs explicitly and implicitly through all nineteen chapters the active if not revolutionary role women have played individually and collectively in various determining social situations a role regularly suppressed by the coercive power of institutionalized domination The impetus for this endeavor was the commemoration of the bicentennial of the French Revolution an occasion to take an in depth look at its less obvious agendas through a focus on the activity of women and on Olympe de Gouges in particular But as Olympe de Gouges

became acquainted with Mr Guillotine the considerable role of women became suppressed not only actually but as a kind of damnatio memoriae which the old Romans had already invented As this work shows there have been multiple forms and contents through which women have taken history into their own hands and have participated in emancipatory struggles throughout the world They are at their best in their use of the resources of local village traditions of dense social contexts of mutual aid and in turning such grassroots resources into radical democratic struggles for the future A fascinating and timely book Wolf Dieter Narr Freie Universit t Berlin The vital role played by women in struggles for social transformation has scarcely been appreciated and with the sense of defeat that hangs over the revolutionary project stands to be further forgotten That is why the publication of *Women and Revolution* is both welcome and necessary on intellectual and scholarly grounds but also because these are stories which have to be told if we are to resume the march toward a better world Joel Kovel Bard College **Daily Report, Foreign Radio Broadcasts** United States.
