Haynes-Apperson and America's First Practical Automobile W. C. Madden, 2003 While Elwood Haynes and the Apperson brothers are not as well known as Henry Ford Ransom Olds and other famous automobile manufacturers their contributions to the automotive industry are just as significant They were responsible for one of the first functioning automobiles if not the first in the United States After building their automobile in 1894 the three men formed the Haynes Apperson Automobile Company in Kokomo Indiana one of the first car manufacturing companies in the country Three years after incorporation a dispute over money caused the partnership to split up and Edgar and Elmer Apperson formed their own company Both companies lasted until the mid 1920s This book is a history of these automotive pioneers and their companies the Haynes Apperson Automobile Company the Haynes Automobile Company and the Apperson Brothers Automobile Company It is richly illustrated with photographs of the factories automobiles personalities and advertisements *Women at the Wheel*

C. Madden, Patrick J. Stewart, 2004-01-01 In 1947 the University of California and Yale University baseball teams took the field in Kalamazoo Michigan to play the first 1ever NCAA Division I College World Series It was a two day three game series with an attendance of fewer than 4 000 Today it is a weeklong series held in Omaha Nebraska with eight teams tens of thousands of fans and millions more watching on television This book covers each College World Series from 1947 through the 2003 series For Division I the authors devote a chapter to each decade and then richly cover each game of each series They also provide information on standout players careers in baseball and other professions The NCAA Division II and III team championships are also covered comprehensively if briefly and an appendix features short profiles of great college coaches *The All-American Girls Professional Baseball League Record Book* W.C. Madden, 2015-08-13 For a dozen years during the 1940s and 1950s more

than 600 women played professional baseball in the All American Girls Professional Baseball League Some of these women compiled some eye popping statistics unequaled by their male counterparts Sophie Kurys swiped 200 bases in one season Joanne Winter hurled 63 consecutive scoreless innings pitcher Jean Faut sported a .910 winning percentage one season Few know that Joanne Weaver was the last professional baseball player to hit 400 in a season 429 in 1954 This reference book contains the hitting fielding and pitching records of all women who played in the AAGPBL during its 12 year history The book also contains all of the team and individual playoff records of the league compiled for the first time Included herein are rosters of the all star teams as well as a listing of all pitching and batting champions A brief history of the league is recounted Complementing the statistics are photos of the league championship teams and key players The Rotary Jail W.C. Madden, 2017-06-14 The rotary jail was a very unusual architectural design In response to a need for better control over prisoners 18 of the revolving escape proof structures were erected in the United States from 1882 through 1889 There were problems There were mechanical difficulties due to the extreme weight of the components Unwary prisoners lost digits or limbs when carousels were rotated without warning one lost his life Because inmates could only be let out of their cells one at a time some rotary jails were closed as fire hazards This book describes in detail their construction operation and eventual demise as well as some of the colorful inmates that were held in them **The Automobile and American Life, 2d ed.** John Heitmann, 2018-08-14 Now revised and updated this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time It details cars inception as a mechanical curiosity and later a plaything for the wealthy racing and the promotion of the industry Henry Ford and the advent of mass production market competition during the 1920s the development of roads and accompanying highway culture the effects of the Great Depression and World War II the automotive Golden Age of the 1950s oil crises and the turbulent 1970s the decline and then resurgence of the Big Three and how American car culture has been represented in film music and literature Updated notes and a select bibliography serve as valuable resources to those interested in automotive history **Cars , Lost Car Companies of Detroit** Alan Naldrett, 2016-01-25 Among more than two hundred auto companies that tried their luck in the Motor City just three remain Ford General Motors and Chrysler But many of those lost to history have colorful stories worth telling For instance J J Cole forgot to put brakes in his new auto so on the first test run he had to drive it in circles until it ran out of gas Brothers John and Horace Dodge often trashed saloons during wild evenings but used their great personal wealth to pay for the damage the next day if they could remember where they had been David D Buick went from being the founder of his own leading auto company to working the information desk at the Detroit Board of Trade Author Alan Naldrett explores these and more tales of automakers who ultimately failed but shaped the industry and designs putting wheels on the road today Choice , 2003 *Illustrated Dictionary of Automobile Body Styles, 2d ed.* Lennart W. Haajanen, 2017-06-09 Cars today fit a fairly small number of body types sedan coupe station wagon SUV hatchback and a few others The meanings of

these familiar terms have changed over the decades as automotive design has evolved Along the way a greater number of earlier body types have fallen out of use and become historical curiosities Who today can identify a charabanc a dos a dos or even a phaeton This expanded second edition defines all distinct body types since the early days of the automobile many of which were derived from horse drawn vehicles Entries many including clear line drawings describe popular types and variations from different countries and time periods as well as terms for body components Subtypes and subtle distinctions are explained and common misuses of terms and designations are clarified
