Head Injury:

Head Injury 2Ed P Reilly, R Bullock, 2005-04-29 Traumatic brain injury is one of the most difficult and challenging management problems facing clinicians Research is increasingly clarifying the underlying physiological mechanisms involved in neuronal damage offering the chance of better methods of diagnosis and treatment This second edition of Head Injury contains detailed coverage of basic me **Handbook of Head Trauma** Charles J. Long, Leslie K. Ross, 2013-06-29 Providing a thorough collection of information regarding clinical aspects of head injury from acute care to recovery this treatise interrelates a variety of neural specialties and broadens the rehabilitation process to include the family Head Injury Janet M. Williams, Thomas Kay, 1991 This resource for professionals working with persons who have suffered head injuries provides an overview of the impact of head injury on the family system and guidelines for using the tools and resources necessary to provide intervention and support The emphasis throughout is on family centered rather than patient centered rehabilitation Annotation copyrighted by Book News Inc Portland OR Head Injury D. M. A. Gronwall, Philip Wrightson, Peter Waddell, 1998 Each day throughout the world hundreds of people suffer head injuries These injuries can dramatically and tragically alter the victim s ability to cope with life In many countries after care of the victim once the injury is no longer life threatening is often inadequate and all too often families are left to manage as best as they can This book is written for families who find themselves in this situation The effects of injury are explained in non technical terms with practical ways of overcoming these effects where possible The book describes the injuries the stages that the patient will go through and the procedures and techniques that will be used to chart progress The book also examines the ways that head trauma can affect families and friends For the person who will eventually recover sufficiently to do so there are suggestions on managing the return to work or school most effectively For those who will never reach this level there is a section that describes the long term adjustments that these people and their caregivers need to make The final section outlines the requirements of a head injury rehabilitation system and gives some suggestions about the steps that individuals can take to ensure that this sort of service is provided in their area This new edition has been fully updated to reflect the recent advances in medical science and also new trends in health care and rehabilitation *A Survey of Current Head Injury Research* National Advisory Neurological Diseases and Stroke Council.
