God with Us Thomas Barton Philpot III, 2008-03-29 GOD WITH US is a commentary on the New Testament which communicates in an informal and sometimes humorous way some of the information and experiences the author has accumulated over a period of more than thirty years Written in an easy to understand manner it requires no knowledge of Greek and Hebrew to read thus making it an excellent addition to the library of not only pastors but Sunday School teachers and other lay persons as well

Fit to be a Pastor G. Lloyd Rediger, 1999-11-01 In this important and urgent message to pastors G Lloyd Rediger emphasizes the necessity of integrating fitness of body mind and spirit in order to attain fulfillment of personhood and calling Not immune from the debilitating unfitness that is endemic in America pastors must be fit if they are to facilitate God s purposes in the world Rediger stresses that clergy need to reinvent a healthy pastoral role based on this holistic approach

Divine Healing: The Formative Years: 1830-1890 James Robinson, 2011-04-13 Divine healing is commonly practiced today throughout Christendom and plays a significant part in the advance of Christianity in Latin America Africa and Asia Such wide acceptance of the doctrine within Protestantism did not come without hesitation or controversy The prevailing view saw suffering as a divine chastening designed for growth in personal holiness and something to be faced with submission and endurance It was not until the nineteenth century that this understanding began to be seriously questioned This book details those individuals and movements that proved radical enough in their theology and practice to play a part in overturning mainstream opinion on suffering James Robinson opens up a treasury of largely unknown or forgotten material that extends our understanding of Victorian Christianity and the precursors to the Pentecostal revival that helped shape Christianity in the twentieth century

The American Journal of Clinical Medicine ,1917 **Spirit and Healing in Africa** Deborah van den Bosch-Heij,2012-01-01 There is a great need for healing in Africa This need is in itself no different elsewhere in the world but it is greatly determined by the involvement of religious communities and traditions Faith communities and religious institutions play a major role in assisting African believers to find health healing and completeness in everyday life *Invading the Realm of Demons, Disease, and Death* Carl E. Roemer,2024-01-29 This study of the miracles attributed to Jesus in the Gospels begins with a survey of the sciences because in our present cultural context materialism is the dominant approach to and understanding of our world of history and of our very selves If the materialist s understanding is true then there is no such thing as miracles because every event must occur as the result of some previous material events Contemporary biblical scholarship mostly approaches the miracle stories from a materialist point of view It questions their historicity because they violate what has now become the entrenched modus operandi in our culture and society operating with the idea that the universe is a closed nexus of cause and effect The miracles are understood then as products of the community and not historical reports although according to this line of scholarship they may be based on some vague recollection of Jesus s activity that somehow had healing effects Modern science however as one scientist has put it in climbing the mountain of knowledge has reached its peak and found a theologian at the top The sciences in other words have led to the implication that our universe has a creator and that the universe and the human genome have been designed
