Mary Mitchell,2014-12-01 The connection between our thoughts beliefs with our health life experiences has been recently heralded as an important discovery by scientists Yet in the 1920s Dr Ernest Holmes extensively studied what others had already written about this synthesized his understanding in *The Science of Mind* text He described it as a correlation of laws of science opinions of philosophy and revelations of religion *The Practitioner Handbook* is a how to book for those who want to learn spiritual mind healing a highly effective technique for physical and mental healing It is based on the understanding that we are surrounded by a Universal Mind which reacts to our thought and always according to Law Earlier editions of *The Practitioner Handbook* have offered invaluable insights into the mystical and practical aspects of being a Practitioner of high consciousness in today s world This edition offers even more to its readers and will in its own right become a treasured resource to every person who seeks to deepen and empower their application of Spiritual Mind Treatment **The Sidereal Messenger** ,1890 God's Guarantee to Heal You A. A. Allen,2021-11-04T13:53:00Z Positive scriptural proof that you too can work miracles heal the sick cure diseases cast out devils You too can lay hands upon the sick and see them recover You too can have power and authority over the Devil Inspired of the Holy Spirit through a direct revelation from God Thoroughly scriptural and doctrinally sound A New Theory of Cure Tracy D Kolenchuk,2021-09-08 Our current theory of cure isn t working When did it stop Today we can t cure most diseases When cured few can be proven cured Even the common cold the flu and measles I ve had them all cured Over 99 percent of cases are cured while medical theory there is no cure for The same is true for many other diseases We need a theory of cure that encompasses every curable medical condition or disease This book is the first step on that path Cure is defined by cause Every curable medical condition has a present cause that when addressed results in a cure Of course many diseases are compound and complex having multiple causes often causing other diseases themselves There is plenty of complexity To study cure we simplify first and then build our understanding from a solid foundation There are exactly two basic types of illness causes resulting in exactly two types of cures An element of illness has a single cause The cause of an illness might be found in diet body mind spirit community or environment of the afflicted The illness element is cured when the cause has been successfully addressed Once an illness is cured that cure is permanent No cure is permanent If the cause occurs again a new illness might occur This logic applies to every cure Cures are forward movements in life We can only go forward in life not backwards No cure is perfect Perfect cures are a myth Real cures are real Both healing and curing

function by addressing the basic causes of illness Healing cures are unconscious intentional actions that successfully address the cause of an illness No healing cure is perfect even when the results are better than before Curing consists of intentional personal community and medical actions that address the cause of an illness Caring is attention by self and community to address the signs and symptoms of disease to aid and facilitate healthy tolerance of the signs and symptoms of disease and to aid and facilitate cures
