Kuyvenhoven, 2009-05-23 There can be little doubt that pedagogical practices have increasingly become focused on reading and writing in childhood education In the Presence of Each Other is a brilliant ethnography that examines the educational benefits of the use of oral storytelling in the classroom and the ways in which non print literacy enhances children s overall language and communication capacities Presenting a strong argument based on compelling evidence for the incorporation of oral practices in the classroom Johanna Kuyvenhoven follows a group of children

in grades four and five as they forge an inclusive learning environment that respects linguistic social and ethnic diversity by sharing stories out loud She traces the positive effects that oral storytelling has on children s vocabularies writing skills as well as for problem solving abilities and empathetic responses that are essential to learning across the disciplines In the Presence of Each Other is a ground breaking work not only for educators but also for anyone interested in the practice of storytelling

Lifescapes Jeremy Burchardt,2023-05-11 Why does landscape matter to us We rarely articulate the often highly individual ways it can do so Drawing on eight remarkable unpublished diaries Jeremy Burchardt demonstrates that responses to landscape in modern Britain were powerfully affected by personal circumstances especially those experienced in childhood and youth Four major patterns are identified Adherers valued landscape for its continuity Withdrawers for the refuge it provides from perceived threats Restorers for its sustaining of core value systems and Explorers for its opportunities for self discovery and development Lifescapes sets out a new approach to landscape history based on comparative biography and deep contextualization which has far reaching implications It foregrounds family structures and relationships and the psychological dynamics they generate These it is argued were usually a more decisive presence in landscape encounters than wider cultural patterns and forces Seen in this way landscape can be understood as a mirror reflecting our innermost selves and the psychosocial influences shaping our development This is a compelling and original study of the relationship between individual lives and landscapes
