Elusive Development:

Elusive Development Marshall Wolfe, 1996 This deeply thoughtful book explores some of the very difficult questions thrown up by the development process Marshall Wolfe reviews what has been said and done in the name of development over four decades He sees development as a Sisyphean task of trying to impose value oriented rationality on realities that remain permanently recalcitrant to such reality precisely because its key actors be they the state social groups development agencies individual experts or the market cannot be assumed to be either benevolent or consistently rational He examines competing views of what development can mean the quest for a unified approach the crisis of the state and the roles of other actors in the development process the practical difficulties in prioritizing poverty the impact of more recent agendas like environmental concerns and the likelihood in future of development witnessing frequent and traumatic changes as contradictory stimuli from the world s centres and peripheries interact For students in need of an overview activists wanting a context for their practical work and specialists wishing to reflect on their own roles this book is invaluable *Challenging Global Development* Henning Melber, Uma Kothari, Laura Camfield, Kees Biekart, 2023-10-17 This open access book presents contributions to decolonize development studies It seeks to promote and sustain new forms of solidarity and conviviality that work towards achieving social justice Recognising global poverty and inequalities as historic injustices the book addresses how these can be challenged through teaching research and engagement in policy and practice and the sorts of political barriers these might encounter From a variety of perspectives and contexts these chapters examine how decoloniality and solidarity can be developed offering in depth historical theoretical epistemological and empirical analyses **Palestine and the Palestinians in the 21st Century** Rochelle Davis, Mimi Kirk, 2013-10-07 Specialists on Palestinian politics history economics and society examine the continuities that bind the twentieth and twenty first centuries Recent developments in Palestinian political economic and social life have resulted in greater insecurity and diminishing confidence in Israel s willingness to abide by political agreements or the Palestinian leadership s ability to forge consensus This volume examines the legacies of the past century conditions of life in the present and the possibilities and constraints on prospects for peace and self determination in the future These historically grounded essays by leading scholars engage the issues that continue to shape Palestinian society such as economic development access to resources religious transformation and political movements The multidisciplinary essays in this volume portray a nation contemplating the possibility of stalemate hemmed in and searching for outlets to express its self determination Davis and Kirk divide the book thematically into three sections focusing broadly on colonialism and its effects politics and law in the Palestinian territories and the future of the Palestinian state and its place in the international system Publishers Weekly *Development in the Third World: From Policy Failure to Policy Reform* Kempe Ronald Hope, Sr., 2016-09-16 This book is a study of Third World economic development and the factors which have made development so elusive It discusses the policy reform necessary to spur development as well as the

relationship between development theory and policy The author argues that the key to successful development policy is through reduced state intervention and that to the extent state intervention is necessary it should be through rather than against the market mechanism **Yusif Sayigh** Rosemary Sayigh,2015-03-01 An acclaimed economist and lifelong Palestinian nationalist Yusif Sayigh 1916 2004 came of age at a time of immense political change in the Middle East Born in al Bassa near Acre in northern Palestine he was witness to the events that led to the loss of Palestine and his memoir therefore constitutes a vivid social history of the region as well as a revealing firsthand account of the Palestinian national movement almost from its earliest inception Family and everyday life co villagers landscapes pleasures outings schooling and political figures recreate the vanished world of Sayigh s formative years in the Levant An activist in Palestine he was taken prisoner of war by the Israelis in 1948 Later as an economist he wrote extensively on Arab oil economic development and manpower teaching for many years at the American University of Beirut and taking early retirement in 1974 to work as a consultant for a number of pan Arab and international organizations A single chapter on Palestinian politics provides insights into his later activist work and experiences of working as a consultant with the Palestine Liberation Organization to produce an economic plan for an eventual Palestinian state This fascinating memoir by a pioneer and major figure of the Palestinian national movement is a welcome addition to the growing literature on Palestinian life during the first half of the twentieth century as well as an account of some of the most pressing political and economic issues to have faced the Arab world for the better part of the twentieth century *Development Theory* Jan Nederveen Pieterse,2010 Written by one of the leading authorities in the field the Second Edition of this successful book Situates students in the expanding field of development theory Provides an unrivalled guide to the strengths and weaknesses of competing theoretical approaches Explains key concepts Examines the shifts in theory Offers an agenda for the future In this book the author brings a huge range of experience and knowledge about the relationship between the economically advanced and the emerging developing nations

Elusive Development Yusif A. Sayigh,2002-03-11 The oil boom prompted a massive inflow of capital into the Arab region But whilst the investment this facilitated clearly had benefits for the region the developmental achievements of the boom decade are demonstrably unable to match the magnitude of the resources directed to development and the reasonable expectations invested in it Professor Yusif Sayigh draws a powerful and painful lesson from this experience applicable to other areas you cannot buy development it must be soundly oriented and sought with resolve by society s leaderships and a people enjoying a large measure of freedom and political participation *Evaluating Development Effectiveness* George Keith Pitman,Osvaldo NÃ©stor Feinstein,Gregory K. Ingram, Practitioners give insights on building and satisfying demand for evaluation in developing countries and on the use of evaluation findings to improve decision making on development policies and programs This volume offers useful insights into methods for evaluating the effectiveness of development and assessing the performance of development aid and aid agencies BOOK JACKET **Zimbabwe@40** Lloyd Sachikonye,David

Kaulemu,2021-05-17 Zimbabwe 40 is a celebration of the country s four decades of independence and statehood Forty years is a relatively short period in a nation s life but it is a formative period what lessons can be learnt from the successes and failures challenges and opportunities of the last 40 years What should be avoided in the next 40 Lloyd Sachikonye and David Kaulemu have assembled a distinguished team of scholars to address these questions and the book focuses on issues that characterise the country s development trajectory the linkage between values and institutions defects in its democracy the curse of mineral and agricultural endowment the impact of migration and the social exclusion of women and young people The book is written from a depth of commitment to a just peaceful and prosperous Zimbabwe and represents a work in progress reflecting the continuing research evaluation and dialogue that each of the authors is engaged in and signalling the nature and direction of future such work As the editors conclude None of the chapters are pessimistic nor are they negative about the country They are realistic about the gravity of the historical moment the nation faces and the high moral political and economic mountains we must climb before we can see the Promised Land Yet they are full of hope they are convinced that we have not come to the end of history The Routledge International Handbook of Critical Philanthropy and Humanitarianism Katharyne Mitchell,Polly Pallister-Wilkins,2023-03-01 This handbook builds a shared understanding of the troubling politics of philanthropy and the disturbing history and practices of humanitarianism While historical work on philanthropy has long suggested a link between imperial rule and humanitarian aid these insights have only recently been brought to bear on contemporary forms of giving In this book contributors link the long history of colonial philanthropy to current foundations and their programs in education health migrant care and other social initiatives They argue that both philanthropy and humanitarianism often function to consolidate market rule consolidating and expanding liberal market rationalities of neoliberal entrepreneurialism to a widening population and set of institutions Philanthropy and humanitarianism share a history growing together out of modernist socio economic relations and modes of imperial rule However the histories and contemporary politics of the two have not been brought together with such breadth or under such a critical lens before Discussing philanthropy and humanitarianism together combining both historical scope and contemporary iterations highlights continuities and convergences making the volume a unique introduction and critical overview of critical work in these sister fields Freedom from poverty as a human right: economic perspectives Andreassen, Bard A.,Marks, Stephen P.,Sengupta, Arjun,2010-06-04 *An Ethnography of Football and Masculinities in Jamaica* William Tantam,2020-05-15 What can football among young men in Jamaica tell us about class wealth age and concepts of masculinity William Tantam presents an ethnographic study of the impact of football on men s lives in contemporary Jamaica He illuminates how the football field relates to social and economic inequalities and whether playing football in a mixed group has the effect of levelling the playing field between the more and less economically wealthy Tantam presents insights into the life histories and football biographies of individuals the relationship between wealth education and

class and explores how socioeconomic inequalities are embodied and enacted With rich ethnographic detail he analyses how the experience of watching international football matches and the English Premier League locates groups of spectators in relation to wider movements of capital The book features case studies of individuals who play football in Jamaica and penetrates an under examined area in academic discussion of sport and masculinity This will be a valuable addition to students of anthropology sociology football studies cultural studies and gender studies

An Anthropological Critique of Development Mark Hobart, 2002-05-03 Questioning the utopian image of western knowledge as a uniquely successful achievement in its application to economic and social development this provocative volume the latest in the EIDOS series argues that it is unacceptable to dismiss problems encountered by development projects as the inadequate implementation of knowledge Rather it suggests that failures stem from the constitution of knowledge and its object By focussing on the ways in which agency in development is attributed to experts thereby turning previously active participants into passive subjects or ignorant objects the contributors claim that the hidden agenda to the aims of educating and improving the lives of those in the undeveloped world falls little short of perpetuating ignorance
