Haydn Two Contemporary Portraits:

Haydn: Two Contemporary Portraits Georg August Griesinger, 1968 Haydn Georg A. Griesinger, 1994-07-01

Haydn V. Gotwals, 1968 *Haydn: Two Contemporary Portraits* Georg August Griesinger, 1968 **Joseph Haydn :**

Two Contemporary Portraits Georg August Griesinger, 1968 *Haydn* , 1968 Haydn Georg August Griesinger, 1968

The Symphonic Repertoire, Volume II A. Peter Brown, 2024-03-29 Central to the repertoire of Western art music since the 18th century the symphony has come to be regarded as one of the ultimate compositional challenges Surprisingly heretofore there has been no truly extensive broad based treatment of the genre and the best of the existing studies are now several decades old In this five volume series A Peter Brown explores the symphony from its 18th century beginnings to the end of the 20th century Synthesizing the enormous scholarly literature Brown presents up to date overviews of the status of research discusses any important former or remaining problems of attribution illuminates the style of specific works and their contexts and samples early writings on their reception The Symphonic Repertoire provides an unmatched compendium of knowledge for the student teacher performer and sophisticated amateur The series is being launched with two volumes on the Viennese symphony Volume II The First Golden Age of the Viennese Symphony Haydn Mozart Beethoven and Schubert Volume II considers some of the best known and most universally admired symphonies by Haydn Mozart Beethoven and Schubert who created what A Peter Brown designates as the first golden age of the Viennese symphony during the late 18th and first three decades of the 19th century The last two dozen symphonies by Haydn half dozen by Mozart and three by Schubert together with Beethoven s nine symphonies became established in the repertoire and provided a standard against which every other symphony would be measured Most significantly they imparted a prestige to the genre that was only occasionally rivaled by other cyclic compositions More than 170 symphonies from this repertoire are described and analyzed in The First Golden Age of the Viennese Symphony the first volume of the series to appear **Haydn** David Wyn Jones, 2017-07-05 This volume brings together a selection of the most stimulating and influential writing on Haydn and his music in the English language Written by a range of established and younger scholars it probes a variety of aesthetic biographical compositional performance and reception issues A specially written introduction summarizes the significance of each essay directs the reader to appropriate complementary material and seeks the common ground between the essays to assist with consistent referencing the individual essays retain their original pagination This representative compendium of Haydn research provides the opportunity to explore the intellectual diversity of recent scholarship and is an indispensable publication for students of Haydn whether new or old amateur or professional **Haydn and the Classical Variation** Elaine Rochelle Sisman, 1993 Sisman aims to demonstrate that it was Haydn s prophetic innovations that truly created the Classical variation Her analysis reflects both the musical thinking of the Classical period and contemporary critical interests The book offers a revaluation of t The Life of Haydn David Wyn Jones, 2009-04-16 Presenting a fresh perspective on the

life and work of Joseph Haydn this biography probes the darker side of Haydn's personality his commercial opportunism and double dealing his penny pinching and his troubled marriage *Beethoven and the Grosse Fuge* Robert S. Kahn,2010-06-01 The Grosse Fuge composed by Ludwig van Beethoven in his late period has an involved and complicated history Written for a string quartet but published as an independent work the piece raises interesting questions about whether music without words can have meaning and invokes speculation about the composer and his frame of mind when he wrote it Kahn looks closely at the musical aesthetic philosophical and historical problems the work raises considering its history structure and development meaning and response among critics and contemporaries Kahn also studies Beethoven's difficulties with publishers and sponsors his everyday life and his character in light of recent advances in the pharmacology of depressive illness The book places both Beethoven and the Grosse Fuge in their historic and social contexts arguing that Beethoven intended the Fuge as the finale of his String Quartet Opus 130 and created a substitute finale for the quartet at his publisher's urging not because he was unhappy with the work Beethoven is examined as a freelance musician a vocation whose members were frequently excluded from society and the protection of its laws including respect for copyright Viewed in this light Beethoven's famous quirks and resentments become understandable even rational Kahn also devotes a chapter to the phenomenon of synesthesia a sense of motion through three dimensional volumes of space examining how some works of Western music can evoke synesthesia in listeners He also speculates that Beethoven's creative dry spell in his late 40s was caused by an extended bout with clinical depression Written for a general audience and including a bibliography and index this fascinating study will interest scholars and fans of classical music and Beethoven **Political Beethoven** Nicholas Mathew,2013 Political Beethoven explores Beethoven's music as an active participant in political life from the Napoleonic Wars to the present day *Haydn and Mozart in the Long Nineteenth Century* Simon P. Keefe,2023-03-02 The first extended study of the combined reception of Haydn and Mozart in the long nineteenth century this book generates new holistic understandings of their musical cultural and historical significance in the Germanic French and Anglophone worlds It places a wide range of written sources under the microscope including serious and popular biographies scholarship musical and non musical criticism and a diverse body of fiction and evaluates the impact of anniversary commemorations Haydn and Mozart in the Long Nineteenth Century determines how reputations images and narratives for the two composers converge diverge develop at different speeds and influence one another Countering received wisdom about Haydn's reputational decline and reassessing Mozart reception through consideration of a broad spectrum of publications we hear Haydn and Mozart speaking to the long nineteenth century in more nuanced powerful and persuasive voices than previously recognized **Engaging Haydn** Mary Kathleen Hunter,Richard Will,2012-07-12 Haydn is enjoying renewed appreciation this book explores fresh approaches to his music and the cultural forces affecting it *Haydn and His World* Elaine R. Sisman,2012-01-16 Joseph Haydn's symphonies and string quartets are staples of the concert repertory yet many aspects of

this founding genius of the Viennese Classical style are only beginning to be explored From local Kapellmeister to international icon Haydn achieved success by developing a musical language aimed at both the connoisseurs and amateurs of the emerging musical public In this volume the first collection of essays in English devoted to this composer a group of leading musicologists examines Haydn s works in relation to the aesthetic and cultural crosscurrents of his time Haydn and His World opens with an examination of the contexts of the composer s late oratorios James Webster connects the Creation with the sublime the eighteenth century term for artistic experience of overwhelming power and Leon Botstein explores the reception of Haydn s Seasons in terms of the changing views of programmatic music in the nineteenth century Essays on Haydn s instrumental music include Mary Hunter on London chamber music as models of private and public performance fortepianist Tom Beghin on rhetorical aspects of the Piano Sonata in D Major XVI 42 Mark Evan Bonds on the real meaning behind contemporary comparisons of symphonies to the Pindaric ode and Elaine R Sisman on Haydn s Shakespeare Haydn as Shakespeare and originality Finally Rebecca Green draws on primary sources to place one of Haydn s Goldoni operas at the center of the Eszterházy operatic culture of the 1770s The book also includes two extensive late eighteenth century discussions translated into English for the first time of music and musicians in Haydn s milieu as well as a fascinating reconstruction of the contents of Haydn s library which shows him fully conversant with the intellectual and artistic trends of the era

Haydn Studies W. Dean Sutcliffe, 1998-10-22 The advances in Haydn scholarship would have been unthinkable to earlier generations who honoured the composer more in word than in deed Haydn Studies deals with many aspects of a composer who is perennially fresh concentrating principally on matters of reception style and aesthetics and presenting many interesting readings of the composer s work Haydn has never played a major role in accounts of cultural history and has never achieved the emblematic status accorded to composers such as Beethoven Debussy and Stravinsky in spite of his radical creative agenda this volume broadens the base of our understanding of the composer

Hypermetric

Manipulations in Haydn and Mozart Danuta Mirka, 2021-06-08 Hypermetric Manipulations in Haydn and Mozart offers a systematic classification of hypermetrical irregularities in relation to phrase structure It also offers a comprehensive account of the ways in which phrase structure and hypermeter were described by eighteenth century music theorists conceived by eighteenth century composers and perceived by eighteenth century listeners

The Unknown Schubert Lorraine Byrne Bodley, 2017-07-05 Franz Schubert 1797 1828 is now rightly recognized as one of the greatest and most original composers of the nineteenth century His keen understanding of poetry and his uncanny ability to translate his profound understanding of human nature into remarkably balanced compositions marks him out from other contemporaries in the field of song Schubert was one of the first major composers to devote so much time to song and his awareness that this genre was not rated highly in the musical hierarchy did not deter him throughout a short but resolute and hard working career from producing songs that invariably arrest attention and frequently strike a deeply poetic note Schubert did not emerge as a

composer until after his death but during his short lifetime his genius flowered prolifically and diversely His reputation was first established among the aristocracy who took the art music of Vienna into their homes which became places of refuge from the musical mediocrity of popular performance More than any other composer Schubert steadily graced Viennese musical life with his songs piano music and chamber compositions Throughout his career he experimented constantly with technique and in his final years began experiments with form The resultant fascinating works were never performed in his lifetime and only in recent years have the nature of his experiments found scholarly favor In *The Unknown Schubert* contributors explore Schubert's radical modernity from a number of perspectives by examining both popular and neglected works Chapters by renowned scholars describe the historical context of his work its relation to the dominant artistic discourses of the early nineteenth century and Schubert's role in the paradigmatic shift to a new perception of song This valuable book seeks to bring Franz Schubert to life exploring his early years as a composer of opera his later years of ill health when he composed in the shadow of death and his efforts to reflect i

MUSIC AND THE MIND Anthony Storr, 2015-05-19 Why does music have such a powerful effect on our minds and bodies It is the most mysterious and most tangible of all forms of art Yet Anthony Storr believes music today is a deeply significant experience for a greater number of people than ever before In this book he explores why this should be so Drawing on a wide variety of opinions Storr argues that the patterns of music make sense of our inner experience giving both structure and coherence to our feelings and emotions It is because music possesses this capacity to restore our sense of personal wholeness in a culture which requires us to separate rational thought from feelings that many people find it so life enhancing that it justifies existence

Uncover the mysteries within Explore with is enigmatic creation, **Haydn Two Contemporary Portraits** . This downloadable ebook, shrouded in suspense, is available in a PDF format (*). Dive into a world of uncertainty and anticipation. Download now to unravel the secrets hidden within the pages.
