Head To Hand:

Hand and Head Peter Springer, 2002-05 Springer sees in it not a harsh condemnation of militarism but a marked ambivalence in the artist's attitude toward war This new reading of the painting grows out of Springer's assessment of its imagery in relation to patronage gender relations and national identity and particularly to propaganda and satire Using Kirchner's letters and other documentation much of it only recently available Springer reconstructs the years of Kirchner's military service *Head, Hand, Heart* David Goodhart, 2021-09-28 A good society needs a balance between aptitudes relating to head cognitive hand manual craft and heart caring emotional In recent decades in Western societies they have got out of kilter One form of human aptitude cognitive ability has become the gold standard of human esteem The cognitive class now shapes society and largely in its own interests in the knowledge economy the over expansion of higher education and in the very idea of a successful life To put it bluntly smart people have become too powerful David Goodhart who in his last book described the divide between the worldviews of the Anywheres and Somewheres now reveals the story of a cognitive takeover that has gathered pace in the past forty years
