Healers Abroad F. Mullan, 2005 *Healers Abroad* Institute of Medicine, COMMITTEE ON THE OPTIONS FOR OVERSEAS PLACEMENT OF U.S. HEALTH PROFESSIONALS., Board on Global Health, 2005-06-27 *Healers Abroad* Americans Responding to the Human Resource Crisis in HIV AIDS calls for the federal government to create and fund the United States Global Health Service GHS to mobilize the nation's best health care professionals and other highly skilled experts to help combat HIV AIDS in hard hit African Caribbean and Southeast Asian countries The dearth of qualified health care workers in many low-income nations is often the biggest roadblock to mounting effective responses to public health needs The proposal's goal is to build the capacity of targeted countries to fight the HIV AIDS pandemic over the long run The GHS would be comprised of six multifaceted components Full time salaried professionals would make up the organization's pivotal service corps working side by side with other colleagues already on the ground to provide medical care and drug therapy to affected populations while offering local counterparts training and assistance in clinical technical and managerial areas *Healers Abroad* Institute of Medicine, Board on Global Health, Committee on the Options for Overseas Placement of U.S. Health Professionals, 2005-07-27 *Healers Abroad* Americans Responding to the Human Resource Crisis in HIV AIDS calls for the federal government to create and fund the United States Global Health Service GHS to mobilize the nation's best health care professionals and other highly skilled experts to help combat HIV AIDS in hard hit African Caribbean and Southeast Asian countries The dearth of qualified health care workers in many low-income nations is often the biggest roadblock to mounting effective responses to public health needs The proposal's goal is to build the capacity of targeted countries to fight the HIV AIDS pandemic over the long run The GHS would be comprised of six multifaceted components Full time salaried professionals would make up the organization's pivotal service corps working side by side with other colleagues already on the ground to provide medical care and drug therapy to affected populations while offering local counterparts training and assistance in clinical technical and managerial areas **Preparing for the Future of HIV/AIDS in Africa** Institute of Medicine, Board on Global Health, Committee on Envisioning a Strategy to Prepare for the Long-Term Burden of HIV/AIDS: African Needs and U.S. Interests, 2011-04-28 HIV AIDS is a catastrophe globally but nowhere more so than in sub-Saharan Africa which in 2008 accounted for 67 percent of cases worldwide and 91 percent of new infections The Institute of Medicine recommends that the United States and African nations move toward a strategy of shared responsibility such that these nations are empowered to take ownership of their HIV AIDS problem and work to solve it The U.S. Commitment to Global Health Institute of Medicine, Board on Global Health, Committee on the U.S. Commitment to Global Health, 2009-09-10 Health is a highly valued visible and concrete investment that has the power to both save lives and enhance the credibility of the United States in the eyes of the world While the United States has made a major commitment to global health there remains a wide gap between existing knowledge and tools that could improve health if applied

universally and the utilization of these known tools across the globe The U S Commitment to Global Health concludes that the U S government and U S based foundations universities nongovernmental organizations and commercial entities have an opportunity to improve global health The book includes recommendations that these U S institutions increase the utilization of existing interventions to achieve significant health gains generate and share knowledge to address prevalent health problems in disadvantaged countries invest in people institutions and capacity building with global partners increase the quantity and quality of U S financial commitments to global health and engage in respectful partnerships to improve global health In doing so the U S can play a major role in saving lives and improving the quality of life for millions around the world

The Social Ecology of Infectious Diseases Kenneth H. Mayer,H.F. Pizer,2011-04-28 Social Ecology of Infectious Diseases explores how human activities enable microbes to disseminate and evolve thereby creating favorable conditions for the diverse manifestations of communicable diseases Today infectious and parasitic diseases cause about one third of deaths and are the second leading cause of morbidity and mortality The speed that changes in human behavior can produce epidemics is well illustrated by AIDS but this is only one of numerous microbial threats whose severity and spread are determined by human behaviors In this book forty experts in the fields of infectious diseases the life sciences and public health explore how demography geography migration travel environmental change natural disaster sexual behavior drug use food production and distribution medical technology training and preparedness as well as governance human conflict and social dislocation influence current and likely future epidemics Provides essential understanding of current and future epidemics Presents a crossover perspective for disciplines in the medical and social sciences and public policy including public health infectious diseases population science epidemiology microbiology food safety defense preparedness and humanitarian relief Creates a new perspective on ecology based on the interaction of microbes and human activities

George W. Bush's Foreign Policies Donette Murray,David Brown,Martin A. Smith,2017-08-23 This book offers a fresh assessment of George W Bush s foreign policies It is not designed to offer an evaluation of the totality of George W Bush s foreign policy Instead the analysis will focus on the key aspects of his foreign and security policy record in each case considering the interplay between principle and pragmatism The underpinning contention here is that policy formulation and implementation across Bush s two terms can more usefully be analysed in terms of shades of grey rather than the black and white hues in which it has often been painted Thus in some key policy areas it will be seen that the overall record was more pragmatic and successful than his many critics have been prepared to give him credit for The president and his advisers were sometimes prepared to alter and amend their policy direction on occasion significantly Context and personalities interpersonal and interagency both played a role here Where these came together most visibly for instance in connection with dual impasses over Iraq and Iran exigencies on the ground sometimes found expression in personnel changes In turn the changing fortunes of Bush s first term principals presaged policy changes in his second What emerges from a more detached

study of key aspects of the Bush administration during a complicated and challenging period in the United States post Cold War history marked by the dramatic emergence of international Islamist terrorism as the dominant international security threat is a more complex picture than any generalization can ever hope to sustain regardless of how often it is repeated This book will be of much interest to students of US foreign policy international politics and security studies *Africa's Health Challenges* Andrew F. Cooper, John J. Kirton, Franklyn Lisk, Hany Besada, 2016-04-01 This volume addresses the ideational and policy oriented challenges of Africa's health governance due to voluntary and involuntary cross border migration of people and diseases in a growing mobile Africa The collected set of specialized contributions in this volume examines how national and regional policy innovation can address the competing conception of sovereignty in dealing with Africa's emerging healthcare problems in a fast paced interconnect world **Transnational Competence** Peter H. Koehn, James N. Rosenau, 2015-11-17 In this timely new contribution Koehn and Rosenau develop their transnational competence framework and demonstrate the promise of its application across six critical professions teacher education engineering business management social work sustainable development encompassing agricultural sciences public administration and natural resources management and medicine health Transnational Competence offers higher education leaders around the world useful ideas for enhancing and transforming professional programs so that graduating practitioners will be prepared with the skills needed to manage horizon rising challenges that connect populations ecosystems and fields of study Aimed principally at higher education leaders and graduating professionals throughout the world Transnational Competence focuses on the skills that tomorrow's practitioners will need to deal with what the authors term horizon rising transboundary challenges

Managing Ethnic Diversity After 9/11 Ariane Chebel d'Appollonia, Simon Reich, 2010 America's approach to terrorism has focused on traditional national security methods under the assumption that terrorism's roots are foreign and the solution to greater security lies in conventional practices Europe offers a different model with its response to internal terrorism relying on police procedures *Managing Ethnic Diversity after 9/11* compares these two strategies and considers that both may have engendered greater radicalization and a greater chance of home grown terrorism Essays address how transatlantic countries including the United Kingdom the United States France Germany Spain Italy and the Netherlands have integrated ethnic minorities especially Arabs and Muslims since 9/11 Discussing the securitization of integration contributors argue that the neglect of civil integration has challenged the rights of these minorities and has made greater security more remote

United States Congressional Serial Set, Serial No. 15072, Senate Documents Nos. 3-5 United States. 79th Congress, 2nd session, *The White House and the World* Nancy Birdsall, 2008 *The White House and the World* shows how modest changes in U S policies could greatly improve the lives of poor people in developing countries thus fostering greater stability security and prosperity globally and at home Center for Global Development experts offer fresh perspectives and practical advice on trade policy migration foreign aid climate change and more In an introductory essay CGD President

Nancy Birdsall explains why and how the next U S president must lead in the creation of a better safer world

Transnational Mobility and Global Health Peter H. Koehn, 2018-09-05 Transnational Mobility and Global Health spotlights the powerful and dynamic intersections of human movement inequality and health The book explores the interacting political economic social cultural and climatic drivers of health and migration proposing innovative ways to enhance global health and care provision in an era of transnational mobility As health security continues to rise up the agenda in international politics the book also analyses the political determinants of health and migration Within the framework of key drivers of unequal mobilities this book treats interconnected health and migration themes not covered elsewhere under one cover health tourism conflict induced and other vulnerable population movements humanitarian crises human rights the health development linkage migrant health care and health competency education The book also considers global health vulnerabilities in the wake of climate change and the biomedical ethical and governance challenges of emerging and reemerging infectious diseases Finally the book suggests ways of evaluating mobility influenced health outcomes and equity impacts and explores how the global circulation of health expertise could help to rectify care provider shortages The challenges to global health considered in this book are only likely to become more intense as the 21st Century surge in transnational migration continues Readers will gain interdisciplinary appreciation for the relevance of

health for migration and of migration for global health Researchers students practitioners and policy makers interested in individual and population health sustainable development and migration studies will find this book a useful and inspiring guide to contemporary global challenges

The Richard and Hinda Rosenthal Lecture 2007 Institute of Medicine, 2008-04-17 In 1988 a new outreach program was launched at the Institute of Medicine Through the generosity of the Richard and Hinda Rosenthal Foundation a lecture series was established to bring to greater attention some of the critical health policy issues facing our nation today Each year one or more experts present their views and insights on a major health topic and the Institute of Medicine later publishes these lectures for the benefit of a wider audience The Rosenthal Lectures have attracted an enthusiastic following among health policy researchers and decision makers in Washington D C and across the country The lectures typically engender a lively and productive dialogue In this volume we are proud to present the remarks of the 2007 Rosenthal Lecturers Drs Kevin Grumbach Fitzhugh Mullan and Marla E Salmon who spoke on Transforming Today's Health Workforce to Meet Tomorrow's Demands

HEALTH SERVICES IN AFRICA Chinua Akukwe, 2008-04-25 The challenges to better health services in Africa are well known Africa lags behind all regions of the world including other developing regions on all indicators of better health A recent report from the World Health Organisation for instance shows that while Africa has 20% of the world's sick people it has only 4% of its healthcare workers many of them vulnerable to the high mortality rate associated with malaria and notably the AIDS epidemic The state of investment in healthcare infrastructure is also grossly inadequate as is the efficiency of healthcare delivery But does this need to be so What factors are responsible for this unacceptable state of affairs Contributors to the volume examine the evolution of healthcare services in Africa the ongoing national regional and continental efforts to improve the delivery of healthcare in the continent and the direct and indirect obstacles militating against the maturation of the services and their efficient delivery The contributors all distinguished experts in the field who hold either challenging responsibilities in health in Africa or have worked in multiple components of the healthcare delivery system in the continent also provide powerful personal insights and lessons learned in their current or previous work in the health sector in Africa Some of the themes covered include clinical care and centers of excellence healthcare finance and resource mobilization primary health care systems and community health preventive care and risk reduction in health the role of reference laboratories clinical research and partnerships the role of epidemiology statistics monitoring and evaluation in health services the role of the African Diaspora and the role of politics in the organization of healthcare and the training of medical and other health professionals From their analyses and experience the authors articulate proven strategies and solutions based on consensus expert opinions on how to improve the quality of health services and health outcomes in the continent
