Healing Our World Mary J. Ruwart,1993-01-01 Taking Control of Your Life Dr. Dean Van Leuven,2011-03-10 There is no available information at this time **Healing Our World in an Age of Aggression** Mary J. Ruwart,2003 Om hvordan man kan skabe et trygt samfund i den moderne verden i dag Anarchism/Minarchism Roderick T. Long,2016-04-08 It is well known that the radical libertarian philosopher Robert Nozick sharply distinguished his vision of the free society from egalitarian liberals such as John Rawls Less remarked upon is the distinction he drew between the free society governed by a strictly limited government commonly referred to as minarchism and the society without any government at all anarchism In this volume the editors Long an anarchist and Machan a minarchist have brought together a selection of specially commissioned essays from key theorists actively involved in this debate Each tackles the question of whether or not a government forms a legitimate part of a free society or whether anarchy minarchy is merely a distinction without a difference

enormous change and migration toward cultural individualism My argument is intended for everyone but I provide my own detailed perspectives on many issues The parallel between draft deferments during the Vietnam era and the gays in the military battle today How close the gay community as we know it came to total catastrophe during the early days of AIDS crisis What the family values debate is really all about Volunteerism and social obligations and how both military service and parenting fit into these What discrimination is really all about How the Don't Tell mentality interferes with political and social debate in many areas Why equal rights for gays is important for everybody A science of personal growth and why libertarianism is good for personal growth

Freedom's Progress? Gerard Casey, 2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in *Freedom's Progress* who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert *Freedom's Progress* also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

The Publishers Weekly, 2002 **Building A State of Responsible Democracy** Algimantas Valentinas Indriūnas, 2016-02-24 The states that have gained their independence or have been established in the post war period are usually called democracies but lately there has been more and more criticism directed towards democracy A specifically pessimistic tune particularly stands out stating that democracy can only function properly given a society with strong moral convictions Looking at these negative opinions in more detail reveals the real reasons for this phenomenon We arrive at the conclusion that the functioning of democracy could be improved

Yezzi Ph.D,2019-03-29 This is my life and what the hell happened to it Do you feel that your life is out of control and that one more loss is too much to handle Do you obsessively try to control your world into a safe and loving place Do you obsessively worry about your tomorrows and all the what ifs Do have issues with trust or emotional intimacy with others Do you carry anger toward other people places and things that may be a part of your past Do you feel that you are fighting just to survive Do you long for true love and belongingness Do you feel emotionally that you are not safe Do you doubt yourself and your abilities to live life your way Do you worry that if people found out who you truly are they will reject you Do you feel that you need to earn others respect Do you constantly feel shame and guilt just because you exist Are you consistently trying to prove that you are worthy Do you consistently isolate when times get hard Do you focus on fitting in rather than sharing who you are Do you compulsively drink do drugs exercise eat starve etc to kill the pain of anxiety Do you struggle with initiating new projects or perhaps keeping a job This then is the legacy of childhood trauma It represents the obstacles we all face as we take our journey into healing You can overcome We all can **Water Capitalism** Walter E. Nelson,2015-10-30 Water covers some 75% of the earth's surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e.g. whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water **My Body and Other**

Problems of Market Liberalism: Volume 15, Social Philosophy and Policy, Part 2 Ellen Frankel Paul,Fred D. Miller (Jr.),Jeffrey Paul,1998-10-13 These essays assess market liberal or libertarian political theory They provide insights into the limits of government develop market oriented solutions to pressing social problems and explore some defects in traditional libertarian theory and practice Some of the essays deal with crucial theoretical issues asking whether the promotion of citizens welfare can serve as the justification for the establishment of government or inquiring into the constraints on individual behavior that exist in a liberal social order Some essays explore market liberal or libertarian positions on specific public policy issues such as affirmative action ownership of the airwaves the provision of healthcare or the regulation of food and drugs Other essays look at property rights the morality of profit making or the provision of public goods Still others address libertarianism as a political movement suggesting ways in which libertarians can reach out to those who do not share their views
