would affect a particular bio physiological makeup of one particular person That is why in Japanese Korean and in other countries in South Asia the cooks were given the duty to heal an ailing person with the food they gave him Spices not only add that bit of extra piquancy to our food but they also provide an equilibrium between the energy given to the body from the normal food intake eaten at every meal and the body's natural bio physiological makeup In ancient times spices were so valuable that any country which produce a large number of spices was considered to be the richest and most desirable of all lands to conquer The Roman soldiers were given their daily salary in salt salarus which they used in making their meal with Garum anchovy or fish paste onions and garlic I remember an adventure story where a group of adventurers went out to seek the buried treasure of an Elizabethan sea dog found the treasure chests after a large number of trials and tribulations and the villains snapping at their heels and open them up eagerly Only to find no jewels or pieces of eight but a large number of spices Those spices would have made them multimillionaires in Elizabethan England but in today's world they are available on each and every departmental store shelf and in great abundance We are fortunate in that way that we do not have to dole out tiny little portions of spices in order to add zest and spice to our food while waiting for a ship load to come in with their exotic and expensive cargo These spices came from the island of Zanzibar and other countries of Africa India and other tropical countries where they grew in abundance and were shipped globally since ancient times **The Vinegar**

Anniversary Book Emily Thacker, 2006-06 Vinegar Better than Prescription Drugs Thousands of years ago ancient healers trusted apple cider vinegar and modern research shows vinegar truly is a wonder cure In fact apple cider vinegar's biggest fans believe this golden liquid can help solve the most troublesome of human afflictions Since even the earliest of times a daily vinegar cocktail was used to help control appetite to lose weight and continue good health From the Bible to Cleopatra to the fierce Samurai warriors of Japan vinegar has been documented as a powerful tonic to ensure strength power and long life Today's research studies and scientific reports continue to praise the healing powers of vinegar to maintain good health and well being Even grandma knew that her old remedies worked even if she wasn't able to explain why And scientific research confirms this For instance grandma said putting diluted vinegar in the ears would ward off infections The American Academy of Otolaryngology's doctors who specialize in treating infections like swimmer's ear now recommend using a vinegar mixture as a preventative The Yale New Haven hospital uses vinegar as a hospital disinfectant When after surgery eye infections became a problem their Department of Bacteriology solved it with vinegar Food poisoning Some doctors suggest that regular vinegar use can prevent it You'll get easy recipes that mix vinegar with other common household items to help calm an upset stomach ease leg cramps soothe sprained muscles control appetite to lose weight relieve coughs banish nausea arthritis pain make hiccups disappear cool a sunburn boost memory reduce sore throat pain relieve itchy skin lower blood pressure cholesterol eliminate bladder infections chase away a cold treat burns reduce infection aid digestion improve memory soothe sore feet treat blemishes age spots remove corns calluses replace many household cleaners **The Doctors**
