*About Canada: Health and Illness, 3rd Edition* Dennis Raphael, 2024-05-02T00:00:00Z Living a long healthy life is one obvious goal of pretty much all of us We are told over and over to change our lifestyles and accept that if we become ill we have likely brought it on ourselves Yet hundreds of studies over the past four decades tell the real story the living and working conditions we experience every day play a determining role in our health How income and wealth housing education and adequate food are distributed whether or not we are employed and the working conditions we experience not medical treatments nor so called wellness lifestyles determine whether we stay healthy or become ill These living and working conditions reflect the social inequalities that are associated with social class gender race and other social locations in Canadian society The third edition of *Health and Illness* shows how inequitable distribution of the social determinants of health are determined by public policy decisions Dennis Raphael updates information that connects health and illness to the worsening levels of inequality in Canada the rich are getting richer and the rest of us are getting sick This edition also includes a chapter on the social determinants of who got sick and died from COVID 19 The experiences during the COVID 19 pandemic make the clear case that we need to restructure work and living conditions through public policy that more equitably distributes economic resources It is only through such actions that we will be able to promote the health of Canadians and prevent illness in an effective manner
