Choosing China's Leaders Chien-wen Kou,Xiaowei Zang,2013-10-08 Political elites are a key topic in contemporary China studies and have been investigated in relation to factional politics generation politics technocracy and crucially institutionalization The institutionalization of elite replacement began in China in the 1980s and quickly accelerated after the early 1990s as mechanisms emerged to regulate political elites entry and exit including age limits term limits and step by step promotion By examining the various processes of elite selection this book explores the role played by institutionalization in elite recruitment promotion and turnover in China While existing studies have developed our understanding of Chinese elite politics two key puzzles regarding institutionalisation remain Although institutionalisation is recognised as an important trend in Chinese politics there is as yet no theoretical framework to explain the forces that have brought about and sustained this Further it is unclear how the process of institutionalisation has impacted on factional politics and how factions would continue to operate within the parameters of formal politics Drawing on a wide range of studies this book looks at Politburo members senior People's Liberation Army officers provincial leaders heads of major central state owned enterprises and Youth League affiliates to provide a comprehensive understanding of elite recruitment and mobility in contemporary China This book will be of great interests to students and scholars of Chinese politics and government Chinese studies and Asian politics more broadly

Democracy in China Jianjun Zhang, 2008-02-25 Pt 1 Development patterns and the evolution of property rights pt 2 Class structure and elite relations pt 3 Political consequences **Rural Policy Implementation in Contemporary China** Anna Ahlers, 2014-01-10 At the turn of the millennium the disparities between rural and urban livelihoods underdevelopment and administrative shortcomings in the Chinese countryside were increasingly seen as posing a manifest threat to social harmony and economic and political stability At that time the term three rural problems sannong wenti was coined which defined the main issues of rural life that needed to be targeted by government action agriculture nongye villages nongcun and farmers nongmin In turn with the launch of the 11th Five Year Plan in 2006 a pledge was made to shift the focus of developmental efforts to the long neglected countryside which is still home to half of the Chinese population This book presents an analysis of adaptive local policy implementation in China in the context of the Building of a New Socialist Countryside BNSC policy framework Based on intensive field work in four counties in Fujian Jiangxi Shaanxi and Zhejiang Provinces between 2008 and 2011 it offers detailed analyses of the form and impact of county governments strategic agency at certain stages and within certain fields of the implementation process for example the design of local BNSC programs the steering of project funding implementation and evaluation the establishment of model villages and the management of public participation Further this study illustrates that BNSC is far more than the empty slogan described by many observers when it was launched in 2005 2006 Instead it has already brought about considerable shifts in terms of the process and outcomes of rural policy implementation Altogether the results of this research challenge existing paradigms by showing how against the background

of contemporary approaches to rural development and recent reforms initiated by the central state local bureaucracies strategic agency can actually push forward effective albeit not necessarily optimal policy implementation to some extent which serves the interests of central authorities local implementors and rural residents By tying into the larger debates on China's state capacity and authoritarian adaptability this book enriches our understanding of the inner workings of the Chinese political system As such it will prove invaluable to students and scholars of Chinese politics public policy and development studies more generally

Rise of the Red Engineers Joel Andreas, 2009-03-10 *Rise of the Red Engineers* explains the tumultuous origins of the class of technocratic officials who rule China today In a fascinating account author Joel Andreas chronicles how two mutually hostile groups the poorly educated peasant revolutionaries who seized power in 1949 and China's old educated elite coalesced to form a new dominant class After dispossessing the country's propertied classes Mao and the Communist Party took radical measures to eliminate class distinctions based on education aggravating antagonisms between the new political and old cultural elites Ultimately however Mao's attacks on both groups during the Cultural Revolution spurred inter elite unity paving the way after his death for the consolidation of a new class that combined their political and cultural resources This story is told through a case study of Tsinghua University which as China's premier school of technology was at the epicenter of these conflicts and became the party's preferred training ground for technocrats including many of China's current leaders

The China Model Daniel A. Bell, 2016-09-06 How China's political model could prove to be a viable alternative to Western democracy Westerners tend to divide the political world into good democracies and bad authoritarian regimes But the Chinese political model does not fit neatly in either category Over the past three decades China has evolved a political system that can best be described as political meritocracy The China Model seeks to understand the ideals and the reality of this unique political system How do the ideals of political meritocracy set the standard for evaluating political progress and regress in China How can China avoid the disadvantages of political meritocracy And how can political meritocracy best be combined with democracy Daniel Bell answers these questions and more Opening with a critique of one person one vote as a way of choosing top leaders Bell argues that Chinese style political meritocracy can help to remedy the key flaws of electoral democracy He discusses the advantages and pitfalls of political meritocracy distinguishes between different ways of combining meritocracy and democracy and argues that China has evolved a model of democratic meritocracy that is morally desirable and politically stable Bell summarizes and evaluates the China model meritocracy at the top experimentation in the middle and democracy at the bottom and its implications for the rest of the world A timely and original book that will stir up interest and debate The China Model looks at a political system that not only has had a long history in China but could prove to be the most important political development of the twenty first century

China's Thought

Management Anne-Marie Brady, 2012-02-06 China's Thought Management argues that by re-emphasizing and modernizing propaganda and thought work since 1989 the CCP has managed to overcome a succession of local and national level crises the Tiananmen Square protests of 1989 the impact of the collapse Socialism in the Eastern bloc SARS ethnic clashes in Tibet and Xinjiang to name but a few emerging re-strengthened and as dominant in Chinese society as ever The contributors to this book address such crucial issues as the new emphasis on economic propaganda the continued importance of the PLA propaganda system in China's overall propaganda work and political stability how the CCP uses Confucianism in its foreign and domestic propaganda and new approaches to mass persuasion such as campaigns of mass distraction Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment Challenging readers to reconceptualise mainstream understandings of the CCP's hold on power and the means the CCP government adopts to maintain its authority to rule this book will be invaluable reading for anyone interested in the Chinese media and Chinese politics

Small Town China Beatriz Carrillo Garcia, 2011-04-19 While much has been written about rural migrant workers' experiences in the big cities population movements into China's vast network of towns and small cities has been largely neglected This book presents a detailed case study of rural migrant workers' experiences in a small town in a north China county The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town's socio-economic system Inclusion and exclusion are assessed through an examination of rural workers' immersion into the urban labour market their access to welfare benefits and to social services such as housing education and health The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers It stresses the fact that the particular socio-economic structure of towns where the state-owned share of the economy has been smaller and where consequently social and private forces have been more active allowed for a more open inclusion of rural workers Though shortcomings are still observed the book suggests that China's transformation may not necessarily result in dysfunctional and socially polarized urban environments This book will be of interest to students and scholars of China's rural migrant workers bottom up urbanization and small town development social policy and more broadly on contemporary social change in China
