Everson, 2004-09-22 This book is about empirically tested knowledge and principles that inform the design of instructional and evaluation systems and the use and promise of media and technology within such systems Historically psychology has informed the design of instructional and evaluation systems in different ways A behavioral perspective emphasizes the role of the environment in determining behavior a factor external to the learner A cognitive perspective focuses on the role of cognitive processing and constraints in determining learning factors that are internal to the learner This volume presents the affordances approach which

addresses how the environment and the affordances within it interact with cognitive processes to determine learning Insights into this interaction are presented It is the book's contention that the affordance approach represents an advancement over the behavioral and cognitive perspectives it is an evolution within the cognitive approach not an alternative to it The Design of Instruction and Evaluation Affordances of Using Media and Technology is intended for education practitioners responsible for the implementation of media and technology in classrooms for researchers and faculty and for use as a text in courses on media and technology use in educational settings instructional design and psychology of learning Billboard, 2000-08-26

How children are taught to control their feelings and how they resist this emotional management through cultural production Today even young kids talk to each other across social media by referencing memes songs and movements constructing a common vernacular that resists parental educational and media imperatives to name their feelings and thus control their bodies Over the past two decades children's television programming has provided a therapeutic site for the processing of emotions such as anger but in doing so has enforced normative structures of feeling that Jane Juffer argues weaken the intensity and range of children's affective experiences Don't Use Your Words seeks to challenge those norms highlighting the ways that kids express their feelings through cultural productions including drawings fan art memes YouTube videos dance moves and conversations while gaming online Focusing on kids between ages five and nine Don't Use Your Words situates these productions in specific contexts including immigration policy referenced in drawings by Central American children just released from detention centers and electoral politics as contested in kids artwork expressing their anger at Trump's victory Taking issue with the mainstream tendency to speak on behalf of children Juffer argues that kids have the agency to answer for themselves what does it feel like to be a kid **Elmo's World**, 2008 Join Sesame Street's curious red monster as he explores singing and drawing *The Complete Sourcebook on Children's Software* Children's Software Review, 2001-03

Stacy's Coffee Dominic Monson, 2017-08-02 By November 2012 the syndicated comic strip Stacy's Coffee was hitting its stride as a success in newspapers around the country with a potentially bright future Its growing popularity was evidenced by positive feedback from readers as well as unanticipated reflective discussion in the online community But few people knew that its creator cartoonist Mark London was a tortured man who had little to laugh about in his own life Both he and his estranged wife were suffering from unimaginable loss and their failure to grieve properly had resulted in a collapsing marriage a return to both former and new self-destructive habits and an intense blame upon themselves and each other Behind the enamored strip was a man who was fighting his own demons and in a way he was also lost in the nostalgic
