Embodied Spirituality In A Sacred World:

Embodied Spirituality in a Sacred World Michael Washburn, 2012-02-01 Anyone seeking a deeper understanding of human spirituality will find something of value in Michael Washburn's new book. Drawing on a rich variety of psychoanalytic, Jungian and existential phenomenological sources and on both Western and Asian spiritual texts, *Embodied Spirituality in a Sacred World* provides a theoretical foundation for the idea that human development follows a spiral path. Washburn shows that ego development early in life requires us to turn our backs on original sources of our existence and therefore that spiritual development later in life requires us to spiral back to these sources on the way to whole psyche integration. He elucidates the underlying causes and pivotal events that set development on its spiral course and traces six major dimensions of experience as they unfold along the spiral path: the unconscious, the energy system, the ego system, the perceived other, the experiential body and the life world. In providing a theoretical foundation for the idea of the spiral path, Washburn defends the idea against its critics and helps explain why the idea has been compelling to so many people in diverse traditions.

A Plea for Embodied Spirituality Fraser Watts, 2022-07-07 The body is crucial to religious life but there has been little practical attention given to how to make a helpful reality of this fact. Strong forms of philosophical dualism have been widely abandoned by post-war theologians in favour of a more integrated view of human nature but guidance on the role of the body in Christian spirituality remains fragmentary. Focusing particularly on drawing out practical implications for religious life and ministry, this book surveys the many ways in which the body plays an important role in religious and spiritual life, drawing on scientific research, theology and philosophy.

The Oxford Handbook of Dance and Wellbeing Vassiliki Karkou, Sue Oliver, Sophia Lycouris, 2017 In recent years a growth in dance and wellbeing scholarship has resulted in new ways of thinking that place the body, movement and dance in a central place with renewed significance for wellbeing. The *Oxford Handbook of Dance and Wellbeing* examines dance and related movement practices from the perspectives of neuroscience and health, community and education, and psychology and sociology to contribute towards an understanding of wellbeing, offer new insights into existing practices and create a space where sufficient exchange is enabled. The handbook's research components include quantitative, qualitative and arts-based research covering diverse discourses, methodologies and perspectives that add to the development of a complete picture of the topic. Throughout the handbook's wide-ranging chapters, the objective observations, felt experiences and artistic explorations of practitioners interact with and are printed alongside academic chapters to establish an egalitarian and impactful exchange of ideas.

Transrational Peace Research and Elicitive Facilitation Norbert Koppensteiner, 2020-06-22 This book sheds new light on transrational approaches to peace research and highlights elicitive approaches to facilitation. Rather than encouraging researchers, teachers and practitioners to control and suppress their own positionality, the book argues that they can see themselves as a potential resource that can be creatively tapped for their work. Using dance as a central metaphor, it seeks to reposition research and facilitation as a

truly experiential process where the entirety of human experiences and epistemologies can be brought into interplay opening up new sources of knowledge Providing a cutting edge theoretical framework and based on his practical experience the author demonstrates that facilitation and research are not just cognitive but can also become embodied emotional intuitive relational and spiritual By proposing a systematic methodological framework for research and facilitation the book offers practical guidance for peace practitioners facilitators and researchers interested in working through all dimensions of their being and engaging with conflict transformation in a holistic way **Shadow, Self, Spirit - Revised Edition** Michael Daniels, 2021-09-28 New and enlarged edition Transpersonal Psychology concerns the study of those states and processes in which people experience a deeper sense of who they are or a greater sense of connectedness with others with nature or the spiritual dimension Pioneered by respected researchers such as Jung Maslow and Tart it has nonetheless struggled to find recognition among mainstream scientists Now that is starting to change Dr Michael Daniels teaches the subject as part of a broadly based psychology curriculum and this new and enlarged edition of his book brings together the fruits of his studies over recent years It will be of special value to students and its accessible style will appeal also to all who are interested in the spiritual dimension of human experience The book includes a detailed 38 page glossary of terms and detailed indexes

Intensive Mothering: The Cultural Contradictions of Modern Motherhood Linda Rose Ennis, 2014-12-01 To celebrate the twentieth anniversary of Sharon Hays landmark book *The Cultural Contradictions of Motherhood* this collection will revisit Hays concept of intensive mothering as a continuing yet controversial representation of modern motherhood In Hays original work she spoke of intensive mothering as primarily being conducted by mothers centered on children's needs with methods informed by experts which are labourintensive and costly simply because children are entitled to this maternal investment While respecting the important need for connection between mother and baby that is prevalent in the teachings of Attachment Theory this collection raises into question whether an over investment of mothers in their children's lives is as effective a mode of parenting as being conveyed by representations of modern motherhood In a world where independence is encouraged why are we still engaging in intensive motherhood **Participation and the Mystery** Jorge N.
