Fantasy and Feeling in Education Richard Matthew Jones, 1970-01-01 **FANTASY AND FEELING IN EDUCATION.**
BY RICHARD MATTHEW JONES. Richard Matthew Jones, 1968 **Fantasy and Feeling in Education** Richard Matthew Jones, 1968 *Fantasy and Feeling in Education, By Richard M. Jones* Richard Matthew Jones, 1970 **Fantasy and Feeling in Education** Richard M. Jones, 1972 **Fantasy and Feeling in Education**, 1968 **Fantasy and feeling in education by Richard M Jones** Richard M. Jones, 1972 *Schools and Screens* Victoria Cain, 2024-02-06 Why screens in schools from film screenings to instructional television to personal computers did not bring about the educational revolution promised by reformers Long before Chromebook giveaways and remote learning screen media technologies were enthusiastically promoted by American education reformers Again and again as schools deployed film screenings television programs and computer games screen based learning was touted as a cure for all educational ills But the transformation promised by advocates for screens in schools never happened In this book Victoria Cain chronicles important episodes in the history of educational technology as reformers technocrats public television producers and computer scientists tried to harness the power of screen based media to shape successive generations of students Cain describes how beginning in the 1930s champions of educational technology saw screens in schools as essential tools for training citizens and presented films to that end Among the films screened for educational purposes was the notoriously racist *Birth of a Nation* In the 1950s and 1960s both technocrats and leftist educators turned to screens to prepare young Americans for Cold War citizenship and from the 1970s through the 1990s as commercial television and personal computers arrived in classrooms screens in schools represented an increasingly privatized vision of schooling and civic engagement Cain argues that the story of screens in schools is not simply about efforts to develop the right technological tools rather it reflects ongoing tensions over citizenship racial politics private funding and distrust of teachers Ultimately she shows that the technologies that reformers had envisioned as improving education and training students in civic participation in fact deepened educational inequities

Scripted Fantasy in the Classroom Eric Hall, Alison Leech, 2005-09-26 Many teachers have tried simple relaxation techniques in their classrooms and been surprised by their success This step by step guide to the technique of scripted fantasy shows how the forces of the imagination can be harnessed to improve the social skills and classroom performance of students of all ages and all abilities It provides sample scripts to get the teacher started and gives advice on classroom management and on processing the fantasy experience without compromising students privacy **Fantasy Behaviors of Clinic-referred Children in Play Encounters with College Undergraduates** Larry Marc Gershowitz, 1974

Traversing the Fantasy Sandra Meiri, Odeya Kohen-Raz, 2020-02-06 *Traversing the Fantasy* The Dialectic of Desire Fantasy proposes a new and comprehensive model of spectatorship at the heart of which it draws an analogy between the ethics of Lacanian psychoanalysis and the ethics of narrative film It demonstrates how spectators engage with narrative film

undergoing unconscious processes that generate a shift in the adherence to fantasies that impede assuming responsibility for one's fate and well-being. The authors discuss the affinities that the ontology and aesthetics of narrative film share with subjective unconscious processes offering new insights into the popular appeal of narrative film through three film corpora analyzed at length: body character breach films, dreaming character films, and gender crossing films. With a range of case studies from the old Rebecca Vertigo Some Like it Hot to the new Being John Malkovich A Fantastic Woman Sandra Meiri and Odeya Kohen Raz build on psychoanalytic ideas about the cinema and take them in a completely new direction that promises to be the basis for further developments in the field.

The Force of Fantasy Ernest G. Bormann, 2001 In this book first published in 1985 Ernest G. Bormann explores mass persuasion in America from 1620 to 1860 examining closely four rhetorical communities: the revivals of 1739-1740, the hot gospel of the postrevolutionary period, the evangelical revival and reform of the 1830s, and the Free Soil and Republican parties. Each community varies greatly but Bormann asserts that each succeeding community shares a rhetorical vision of restoring the American Dream that is essentially a modification of the previous visions. Thus they form a family of rhetorical visions that constitutes a rhetorical tradition of importance in nineteenth-century American popular culture.

The Fantasy Economy Neil Kraus, 2023-10-06 This book offers a new perspective on wage stagnation, growing inequality, and the current education reform agenda. The author argues that education must be understood as a necessary public service providing critical benefits, many of which are not strictly economic yet are essential for democratic society.

Fantasy and Reality in History Peter Loewenberg, 1995-10-19 In *Fantasy and Reality in History* Peter Loewenberg brings what the discipline of psychoanalysis has learned about human conduct and the irrational to bear on the analysis and writing of history. The result is a remarkable series of studies on individual and social anxiety, racism, and nationalism and crisis management. First examining early twentieth-century Z. S. Richards and the first practitioners of psychoanalysis, Freud, C. G. Jung, Karl Abraham, and others to establish the discipline's understanding of the unconscious and how it functions, Loewenberg then explores the tensions in the lives and politics of modern political leaders. The great British Liberal Prime Minister Walther Rathenau and the Russian fascist demagogue Vladimir Zhirinovskiy are among those studied. In each of these interconnected essays *Fantasy and Reality in History* makes readily evident the advantages and unique insights that psychoanalytical techniques can provide in the examination of history. Loewenberg's blend of clinical and historico-political methods not only produces new exciting research but demonstrates how it is done.

Arthur Machen: 30+ Horror Classics, Supernatural Mysteries & Fantasy Books Arthur Machen, 2023-12-30 Arthur Machen 30 Horror Classics Supernatural Mysteries Fantasy Books is a comprehensive anthology that delves into the intricacies of the supernatural and

the macabre within Machen's illustrious oeuvre. Renowned for his rich evocative prose, Machen masterfully weaves a tapestry of eerie landscapes, enigmatic rituals, and the unseen forces that permeate the mundane world. His works often reflect the fin de siècle preoccupations with spirituality, mysticism, and the potential horrors lurking within everyday life, positioning him as a pivotal figure in the development of 20th-century horror literature.

Arthur Machen (1863–1947), a Welsh author and mystic, drew inspiration from his own experiences in rural Wales, where folklore and ancient traditions shaped his worldview. His early engagement with both classical literature and esoteric writings imbued his narratives with philosophical depth, reflecting the tension between the natural and the supernatural.

Adversity in his personal life and the loss of faith experienced during the industrial age also influenced his writing, rendering his horror not merely sensational but a profound exploration of the human psyche. This collection is essential for readers and scholars alike, as it not only showcases Machen's rich imagination but also illuminates the evolution of horror as a genre.

Whether a dedicated aficionado of supernatural tales or a newcomer to Machen's works, this anthology offers an unparalleled journey into the shadowy corners of existence that will leave readers pondering the thin veil between reality and the unknown.
