**Sung Chul Yang**

## **Fascism In The Contemporary World Ideology Evolution Resurgence:**

**Fascism In The Contemporary World** Anthony J Joes,2019-06-04 Central to this book is the assertion that fascist regimes similar in ideology and style to Mussolini s in Italy have arisen and will continue to arise in the underdeveloped world The author views fascism as a definite response authoritarian corporatist nationalism to certain problems common to late developing nations not as an aberration that ca

**Fascism in the Contemporary World** Anthony James Joes,1978

*Researching the Far Right* Stephen D. Ashe,Joel Busher,Graham Macklin,Aaron Winter,2020-11-09 Researching the Far Right brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with an interest in understanding the many manifestations of the far right and cognate movements today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an ethically politically personally practically and professionally challenging nature

*The Origins of Fascist Ideology 1918-1925* Emilio Gentile,2013-10-18 This is the first detailed and definitive study of the development and initial success of fascism as it originated in Italy right after the First World War

**Fascism** Michael S. Neiberg,2017-11-30 This volume presents the best writings on the origins development success and failure of fascism outside Germany By treating the problem in a global context these essays together add tremendous complexity to our understanding of one of history s most destructive political movements The collection covers theories origins and definitions of fascism fascism in power fascism in opposition and fascism in a global and comparative setting

**Fascism: The nature of fascism** Roger Griffin,Matthew Feldman,2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the

extraordinary divergence of interpretations of fascism      *Japan in the Fascist Era* E. Reynolds, 2004-07-15 In contrast to Euro centric works on comparative fascism that set Japan apart from Germany and Italy this book emphasizes parallels between Japan and its Axis Allies Romantic nationalist ideologies attracted a strong following in all three nations as they emerged as modern states in the late 1800s In both Germany and Japan these were from the beginning strongly racial in nature Spurred by grievances against the status quo powers all three took up aggressive policies in the 1930s producing a short lived fascist era Japan s prominent role demands a broader perspective and consideration of fascism as more than a purely European phenomenon      *The "New Man" in Radical Right Ideology and Practice, 1919-45* Jorge Dagnino, Matthew Feldman, Paul Stocker, 2018-01-25 Bringing together an expert group of established and emerging scholars this book analyses the pervasive myth of the new man in various fascist movements and far right regimes between 1919 and 1945 Through a series of ground breaking case studies focusing on countries in Europe but with additional chapters on Argentina Brazil and Japan *The New Man in Radical Right Ideology and Practice 1919 45* argues that what many national forms of far right politics understood at the time as a so called anthropological revolution is essential to understanding this ideology s bio political often revolutionary dynamics It explores how these movements promoted the creation of a new ideal human what this ideal looked like and what this things tell us about fascism s emergence in the 20th century The years after World War One saw the rise of regimes and movements professing totalitarian aims In the case of revolutionary radical right movements these totalising goals extended to changing the very nature of humanity through modern science propaganda and conquest At its most extreme one of the key aims of fascism the most extreme manifestation of radical right politics between the wars was to create a new man Naturally this manifested itself in different ways in varying national contexts and this volume explores these manifestations in order to better comprehend early 20th century fascism both within national boundaries and in a broader transnational context      **France in the Era of Fascism** Brian Jenkins, 2007 This volume brings together the leading critics of the immunity thesis to fascism in France in the 1930s Robert Paxton Zeev Sternhell and Robert Soucy who have refined and updated their positions in these essays      *Fascism* Federico Marcon, 2025-06-06 A wide ranging history of the term fascism what it has meant and what it means today The rise and popular support for authoritarianism around the world and within traditional democracies have spurred debates over the meaning of the term fascist and when and whether it is appropriate to use it The landmark study *Fascism The History of a Word* takes this debate further by tackling its most fundamental questions How did the terms fascism and fascist come to be in the first place How and in what circumstances have they been used How can they be understood today And what are the advantages or disadvantages of using fascism to make sense of interwar authoritarianism as well as contemporary politics Exploring the writings and deeds of political leaders activists artists authors and philosophers Federico Marcon traces the history of the term s use and usefulness in relation to Mussolini s political regime antifascist resistance and the quest of postwar historians to develop a definition of a

fascist minimum This investigation of the semiotics of fascism also aims to inquire about people's voluntary renunciation of the modern emancipatory ideals of freedom equality and solidarity      **Sun Yatsen's Doctrine In The Modern World**

Chu-yuan Cheng,Hung-Chao Tai,Harold Z Schiffrin,Yu-Long Ling,2019-07-11 This volume focuses on Sun Yat sen's social political and economic ideas as seen in his major work The Three Principles of the People which discusses nationalism democracy and people's welfare examining his doctrines as well as his ideas with other contemporary ideologies

**Rethinking Japan: Social sciences, ideology & thought** Adriana Boscaro,Franco Gatti,Massimo Raveri,1990 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company      **The Unholy Trinity** Bhabani Shankar Nayak,2025-04-07 This book offers critical commentary and passionate analysis on the implications of Hindutva capitalism and imperialism for the everyday lives of working people and the planet The emergence of the alliance between Hindutva politics and corporate capitalism during the latter half of the twentieth century significantly shaped society state and governments aligning it with the demands of global capitalism and its imperialist hegemony The collaboration and contestation between Hindutva capitalism imperialism and other reactionary forces shape the nature of the state government culture politics and society in India and beyond The book provides an auto ethnographic and alternative analysis based on reflections on the realities of everyday lives and experiences of the past and present of this unholy trinity and its global implications      The North And South Korean Political Systems Sung Chul Yang,2019-09-12 A comparative look at North and

South Korea's political and economic institutions and processes and an examination of their evolution since 1945 Problems such as leadership succession democratization nuclear weapons education and reunification are explored      *Waves of Rancor* Robert L. Hilliard,Michael C. Keith,2016-07-01 The airwaves in America are being used by armed militias conspiracy theorists survivalists the religious right white supremacists neo Nazis and other radical groups to reach millions with their messages of hate and fear Waves of Rancor examines the origin nature and impact of right wing electronic media including radio television cable the internet and even music CDs      **The Impasse Of European Communism** Carl Boggs,2019-07-11

The major Communist parties in Western Europe claim a commitment to a democratic road to socialism Often this is a genuine evolution of traditional Marxist Leninist ideology based on the assumption that political and economic power can be obtained through gradual change rather than revolution and through the utilization of democratic processes How well is this strategy working Not very well concludes the author of this book Carl Boggs bases his analysis on a theoretical assessment of the historical and strategic development of Eurocommunism of those parties and movements notably in France Italy and Spain that seek a transition to socialism based on the democratization of existing political and economic structures the so called parliamentary road to socialism After examining the logic and premises of this conception he moves to a critique of the major Eurocommunist theoreticians e g Togliatti Berlinguer Ingrao Napolitano Carrillo Marchais Elleinstein Poulantzas and Claudin He concludes that their ideas fail to resolve the historic Marxist conflict between democratization and rationalization

understood here in terms of the drive toward statism bureaucratization and further refinement of the social division of labor under capitalism In fact says Dr Boggs Eurocommunism will probably represent a sort of historical resolution of legitimation and production crises within Mediterranean capitalism that extends rather than overturns hierarchical social and authority relations the capitalist state and the social division of labor Such a resolution might broadly parallel the function of social democracy in Northern Europe in a previous phase of capitalist development     Labor and Imperial Democracy in Prewar Japan Andrew Gordon,1991 An important study on modern Japanese social history that persuasively articulates quantitative data with well chosen qualitative texts to tell the story of imperial democracy in Japan The work shows real intelligence and great originality and will make its mark on the practice of writing Japanese history Harry D Harootunian University of Chicago     Global Human Rights Ved P. Nanda,2019-04-05 Written in response to the increasingly conscious effort to develop human rights on a universal scale this seminal volume focuses on three distinct areas of human rights public policy criteria for comparative assessment and NGO nongovernmental organization strategies The contributors amplify and clarify what has been done in the sphere of hum     Africa Air University (U.S.). Library,1980     **Rethinking Japan Vol 2** Adriana Boscaro,Franco Gatti,Massimo Raveri,2018-12-07 These papers explore the debate over new directions in Japanese studies
