Fascism Prefascism In Europe 1890 1945:

Fascism and Pre-fascism in Europe, 1890-1945 Philip Rees, 1984 **Fascism and Pre-fascism in Europe, 1890-1945** Philip Rees, 1984 **A History of Fascism, 1914-1945** Stanley G. Payne, 1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti The Nation A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly **The Nature of Fascism** Roger Griffin, 2013-10-11 The Nature of Fascism draws on the history of ideas as well as on political social and psychological theory to produce a synthesis of ideas and approaches that will be invaluable for students Roger Griffin locates the driving force of fascism in a distinctive form of utopian myth that of the regenerated national community destined to rise up from the ashes of a decadent society He lays bare the structural affinity that relates fascism not only to Nazism but to the many failed fascist movements that surfaced in inter war Europe and elsewhere and traces the unabated proliferation of virulent but thus far successfully marginalized fascist activism since 1945

The Social Basis of European Fascist Movements Detlef Mühlberger, 2015-10-16 Between 1919 and 1945 most countries in Europe spawned some form of fascism Some have become considerably more notorious than others this book first published in 1987 sets out to analyse the social forces that went into the making of the fascist parties of the major European countries and to show the similarities and differences in their constitution as well as to suggest reasons for their different degrees of penetration and success Few books have surveyed the whole field the team of contributors engaged in the present enterprise offer a systematic and thorough survey of the social characteristics of European fascist movements a subject of central importance to social and political history *Fascism and Theatre* Günter Berghaus, 1996-05-01 Since the 1920s an endless flow of studies has analyzed the political systems of fascism theseizure of power the nature of the regimes the atrocities committed and finally the wars waged against other countries However much less attention has been paid to the strategies of persuasion employed by the regimes to win over the masses for their cause Among these fascist propaganda has traditionally been seen as the key means of influencing public opinion Only recently has the fascination with Fascism become a topic of enquiry that has also formed the guiding interest of this volume it offers for the first time a comparative analysis of the forms and functions of theater in countries governed by fascist or para fascist regimes By examining a wide spectrum of theatrical manifestations in a number of States with a varying degree of fascistization these studies establish some of the similarities and differences between the theatrical cultures of several cultures in the interwar period *The Routledge*

Companion to Fascism and the Far Right Peter Davies, Derek Lynch, 2005-08-16 The Routledge Companion to Fascism and the Far Right is an engaging and accessible guide to the origins of fascism the main facets of the ideology and the reality of fascist government around the world In a clear and simple manner this book illustrates the main features of the subject using chronologies maps glossaries and biographies of key individuals As well as the key examples of Hitler's Germany and Mussolini's Italy this book also draws on extreme right wing movements in Latin America Eastern Europe and the Far East In a series of original essays the authors explain the complex topics including the roots of fascism fascist ideology fascism in government and opposition nation and race in fascism fascism and society fascism and economics fascism and diplomacy

Genocide and Fascism Aristotle Kallis, 2008-09-25 This book investigates how fascism as an ideology and political praxis reconfigured the ideological political and moral landscape of interwar Europe generating an atmosphere of extreme license that facilitated the leap into eliminationist violence It demonstrates how fascist ideology linked the prospect of violent cleansing to utopias of national racial regeneration thus encouraging and legitimizing targeted hatred against particular others It also shows how the diffusion and internationalization of fascism in the 1930s produced a sense of a revolutionary new beginning and created a transnational fascist new order in which Nazi Germany came to occupy a potent position of authority The book analyzes how the eliminationist initiative and precedent of Nazi Germany became a second license that empowered fascist regimes across Europe to embark on their own eliminationist projects with diminished accountability Finally it examines how this license enhanced by the actions of fascists and the collapse of order caused by World War Two released individuals and communities from the burden of legal and moral accountability turning them into accomplices in the most wide brutal and devastating genocidal campaign that the continent had ever experienced World Fascism

Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale World Fascism A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal **Routledge Library Editions: Racism and**

Fascism Various, 2021-06-23 This set gathers together a collection of out of print titles all classics in their field Reissued for the first time in some years they offer an insightful reference resource to a variety of topics From Professor Colin Holmes's groundbreaking studies of racism in British society to Professor Kitchen's analysis of the rise of fascism in pre war Austria these books shed much light on society's recent dark past

Fascism Walter Laqueur, 1997-12-11 Mussolini's march on Rome Hitler's speeches before waves of goose stepping storm troopers the horrors of the Holocaust burning crosses and neo Nazi skinhead hooligans Few words are as evocative and even fewer ideologies as pernicious as fascism And yet the world continues to witness the success of political parties in countries such as Italy France Austria Russia and elsewhere resembling in various ways historical fascism Why despite its past are people still attracted to fascism Will it ever again be a major political force in the world Where in the world is it most likely to erupt next In *Fascism Past Present and Future* renowned historian Walter Laqueur illuminates the fascist phenomenon from the emergence of Hitler and Mussolini to Vladimir Zhirinovskiy and his cohorts to fascism's not so distant future Laqueur describes how fascism's early achievements the rise of Germany and Italy as leading powers in Europe a reputation for being concerned about the fate of common people the creation of more leisure for workers won many converts But what successes early fascist parties can claim Laqueur points out are certainly overwhelmed by its disasters Hitler may have built the Autobahnen but he also launched the war that destroyed them Nevertheless despite the Axis defeat fascism was not forgotten Laqueur tellingly uncovers contemporary adaptations of fascist tactics and strategies in the French ultra nationalist Le Pen the rise of skinheads and right wing extremism and Holocaust denial He shows how single issues such as immigrants and more remarkably the environment have proven fruitful rallying points for neo fascist protest movements But he also reveals that European fascism has failed to attract broad and sustained support Indeed while skinhead bands like the Klansman and magazines such as *Zyklon B* grab headlines fascism bereft of military force and war is at most fascism on the defense promising to save Europe from an invasion of foreigners without offering a concrete future Laqueur warns however that an increase in clerical fascism such as the confluence of fascism and radical Islamic fundamentalism may come to dominate in parts of the Middle East and North Africa The reason has little to do with religion Underneath the Holy Rage is frustration and old fashioned class struggle Fascism was always a movement of protest and discontent and there is in the contemporary world a great reservoir of protest Among the likely candidates Laqueur singles out certain parts of Eastern Europe and the Third World In carefully plotting fascism's past present and future Walter Laqueur offers a riveting if sometimes disturbing account of one of the twentieth century's most baneful political ideas in a book that is both a masterly survey of the roots the ideas and the practices of fascism and an assessment of its prospects in the contemporary world

[Fascist Visions](#) Matthew Affron, Mark Antliff, 2022-02-08 Bringing together studies by art historians historians and political scientists *Fascist Visions* explores the themes and paradigms that pervaded protofascist and fascist aesthetic discourse cultural policy and artistic production in

France and Italy Whether traditionalist or innovative in idiom art functioned as the expression of fascism's ideological polarities nihilism and idealism modernism and antimodernism revolution and reaction This volume charts the unfolding of fascist aesthetics from its genesis in nationalist and antimaterialist ideologies before World War I to its full development during the interwar period and World War II It also highlights the shared motivations of advocates of fascist aesthetics including artists art critics political activists and government officials outside of Germany The eight essays in this book investigate the intersection of fascist ideology and aesthetics through a wide range of historical examples Topics include theories of cultural regeneration in Italy from the Risorgimento to fascism the impact of fascism upon the work of such artists and art critics as Ardengo Soffici Mario Sironi Valentine de Saint Point and Waldemar George the theories of modernist urbanism developed by Georges Valois's Faisceau and official sponsorship of painting and the decorative arts in Mussolini's Italy and in Vichy France The contributors to this volume include Walter Adamson Matthew Affron Mark Antliff Emily Braun Michèle Cone Emilio Gentile Nancy Locke and Marla Stone

Hitler, Stalin, and Mussolini Bruce F. Pauley, 2014-07-02

The fourth edition of *Hitler Stalin and Mussolini Totalitarianism in the Twentieth Century* presents an innovative comparison of the origins development and demise of the three forms of totalitarianism that emerged in twentieth century Europe Represents the only book that systematically compares all three infamous dictators of the twentieth century Provides the latest scholarship on the wartime goals of Hitler and Stalin as well as new information on the disintegration of the Soviet empire Compares the early lives of Hitler Stalin and Mussolini their ideologies rise to and consolidation of power and the organization and workings of their dictatorships Features topics organized by themes rather than strictly chronologically Includes a wealth of visual material to support the text as well as a thorough Bibliographical Essay compiled by the author

Futurism and Politics Gunter Berghaus, 1996-04-15 Futurism was the state of the Fascist regime this is the view one encounters in most books written on Futurist art and literature Whilst there can be no doubt about Futurist involvement with the founding of the fascist movement little is known about the internal relationship between Futurists and Fascists in the years 1918-22 nor about the reasons for the Futurists' departure from the Fascist movement in 1920 or about Futurist opposition to and even armed struggle against the Fascist regime after 1924 Whilst the public documents testifying to Futurist support of Mussolini are well known little has been written about Futurist anti-fascism camouflaged as official adherence to the regime This study based primarily on unknown or unpublished documents discovered in state archives and private collections presents a new and far more complex picture of the relationship of the two movements than has previously been shown by critics and historians

Bibliography of European Economic and Social History Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700-1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry

agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily **Companion to Historiography** Michael Bentley,2006-02-27 The Companion to Historiography is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives Contributed by a distinguished panel of academics each essay conveys in direct jargon free language a genuinely international wide angled view of the ideas traditions and institutions that lie behind the contemporary urgency of world history **Procesul lui Corneliu Zelea Codreanu** Gheorghe Buzatu,Kurt Treptow,2022-08-01 Procesul lui Corneliu Zelea Codreanu liderul Mi carii Legionare a marcat un moment critic din istoria Romaniei in perioada interbelica A distrust ultimele vestigii ale democratiei i a stat la baza dictaturii lui Carol al II lea Procesul lui Corneliu Zelea Codreanu prezinta stenogramele procesului insotite de un studiu introductiv scris de doi specialisti in istoria Romaniei Gheorghe Buzatu i Kurt W Treptow De asemenea volumul contine o serie de apendici inclusiv scrisori si file de jurnal scrise de Codreanu in inchisoare *Encyclopedia of Government and Politics* M. E. Hawkesworth,Maurice Kogan,2004 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers **Occult Imperium** Christian Giudice,2022 Christian Giudice s *Occult Imperium* explores Italian national forms of occultism chiefly analyzing Arturo Reghini 1878 1946 his copious writings and Roman Traditionalism Using Reghini s articles books and letters as a guide Giudice explores the interaction between Occultism Traditionalism and different facets of modernity in early twentieth century Italy The book takes into consideration many factors particular to the Italian peninsula the ties with avant garde movements such as the Florentine Scapigliatura and Futurism the occult vogues typical to Italy the rise to power of Benito Mussolini and Fascism and lastly the power of the Holy See over different expressions of spirituality **The Birth of Fascist Ideology** Zeev Sternhell,Mario Sznajder,Maia Ashéri,1994 When *The Birth of Fascist Ideology* was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell s controversial interpretations In Sternhell s view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he

maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity
