Fast Eddie:

CRACK99 David Locke Hall,2015-10-01 The utterly gripping story of the most outrageous case of cyber piracy prosecuted by the U S Department of Justice A former U S Navy intelligence officer David Locke Hall was a federal prosecutor when a bizarre sounding website CRACK99 came to his attention It looked like Craigslist on acid but what it sold was anything but amateurish thousands of high tech software products used largely by the military and for mere pennies on the dollar Want to purchase satellite tracking software No problem Aerospace and aviation simulations No problem Communications systems designs No problem Software for Marine One the presidential helicopter No problem With delivery times and customer service to rival the world s most successful e tailers anybody anywhere including rogue regimes terrorists and countries forbidden from doing business with the United States had access to these goods for any purpose whatsoever But who was behind CRACK99 and where were they The Justice Department discouraged potentially costly risky cases like this preferring the low hanging fruit that scored points from politicians and the public But Hall and his colleagues were determined to find the culprit They bought CRACK99 s products for delivery in the United States buying more and more to appeal to the budding entrepreneur in the man they identified as Xiang Li After winning his confidence they lured him to Saipan a U S commonwealth territory where Hall s own father had stormed the beaches with the marines during World War II There they set up an audacious sting that culminated in Xiang Li s capture and imprisonment The value of the goods offered by CRACK99 A cool 100 million An eye opening look at cybercrime and its chilling consequences for national security CRACK99 reads like a caper that resonates with every amazing detail **A Real Goon's Bible** Derrick Johnson,2009-02-09 To all those who stand tall through it all This one for yall In life there s a start and finish to everything but what counts the most are the things one does while going through it such as having morals and principles that detour even the thought of indulging in activities that put your beliefs at question I m a firm believer in the Game God and the rules and codes of the jungle we call the streets and when one violates the Laws of the Game there will be various forms of consequences and repercussions Times have changed true indeed but what hasn t changed is the definition and understanding of what defines a man a stand up man at that There once was a time when men carried their own weight no matter what threats or tactics law enforcement used on them but due to all the real thoroughbred soldiers and their lengthy prison bits the younger generation haven t been receiving the guidance and discipline us true soldiers had to endure So in turn many are bred to be something all real men despise rats and snitches With all this being said the Game hasn t changed it s the individual who s playing that has changed along with the help from the government who is guiding and molding them to their specifications to be less than the strong men they re meant to be They re not only the worst of the worst they re lost So to all the real G s who refuse to bend or fold my hats off to you because believe it when I tell you we re the last of a dying breed The Color of Money Walter Tevis,2014-09-29 A legendary pool hustler tries to make a comeback in the novel that inspired the Martin Scorsese
