Muhammad's Grave Leor Halevi, 2011 In this probing study of death rites Leor Halevi plays prescriptive texts against material culture advancing a new way of interpreting the origins of Islam He shows how religious scholars produced codes of funerary law to create new social patterns in the cities of Arabia Mesopotamia and the eastern Mediterranean They distinguished Islamic from Christian Jewish and Zoroastrian rites and they changed the way men and women interacted publicly and privately Each chapter explores a different layer of human interaction following the movement of the corpse from the deathbed to the grave Highlighting economic and political factors as well as key religious and sexual divisions Halevi forges a fascinating link between the development of funerary rites and the efforts of an emerging religion to carve its own distinct identity *Muhammad's Grave* is a groundbreaking history of the rise of Islam and the roots of contemporary Muslim attitudes toward the body and society

Death, Dissection and the Destitute Ruth

Richardson,2000 In the early nineteenth century body snatching was rife because the only corpses available for medical study were those of hanged murderers With the Anatomy Act of 1832 however the bodies of those who died destitute in workhouses were appropriated for dissection At a time when such a procedure was regarded with fear and revulsion the Anatomy Act effectively rendered dissection a punishment for poverty Providing both historical and contemporary insights Death Dissection and the Destitute opens rich new prospects in history and history of science The new afterword draws important parallels between social and medical history and contemporary concerns regarding organs for transplant and human tissue for research

Unborn Bodies Margaret D. Kamitsuka,2023-10-17 The afterlife continues to influence Christian faith and is a concern during fragile moments of reproductive loss However a doctrine of resurrection that speaks to death in the womb has yet to be considered Ignoring fetal death began early in Christian history The church has struggled for settled meaning regarding issues of personhood in the womb and whether unbaptized infants are saved Believers today deserve to know the basis for a Christian hope of heaven They deserve a nontoxic eschatology that sustains an embodied sense of self which is fractured by the experience of reproductive loss They deserve to know whether assenting to the resurrection of the body including unborn bodies requires them to sacrifice their reproductive self determination The dominant Christian narrative of postmortem survival hinges on the concept of an immaterial soul that continues after death However the soul s apparently contented communing with God during its interim existence makes a final bodily resurrection superfluous A soul based approach to postmortem survival may save souls but it does not resurrect bodies If one can secure the plausibility of the resurrection of unborn bodies whose personhood is in doubt then one dispenses with ensouled personhood as a requirement of resurrection Christian materialist thought provides a metaphysical alternative to soul based resurrection A materialist approach to resurrection echoes the apostle Paul s powerful seed metaphor in 1 Corinthians 15 Medieval Christianity embraced metaphors of sprouting grain and budding plants Returning to these images carries promise for rethinking resurrection in ways not dependent on an immaterial soul Modern minds are more inclined to think of persons not as souls in bodies but as bodies that emerge into being evolutionarily and gestationally Philosophical theories of emergence are capturing the attention of Christian thinkers This book s budding emergence approach to the resurrection aims to speak concretely to the reality of death including the death of unborn beings

a series of bold experiments in eighteenth century British realist and Gothic fiction transform the dead body from an instructive icon into a thrill device For centuries vivid images of the corpse were used to deliver a spiritual or political message today they appear regularly in Gothic and horror stories as a source of macabre pleasure Yael Shapira's book tracks this change as it unfolds in eighteenth century fiction from the early novels of Aphra Behn and Daniel Defoe through the groundbreaking mid century works of Samuel Richardson Henry Fielding and Horace Walpole to the Gothic fictions of Ann Radcliffe Matthew Lewis Charlotte Dacre and Minerva Press authors Isabella Kelly and Mrs Carver In tracing this long historical arc Shapira illuminates a hidden side of the history of the novel the dead body she shows helps the fledgling literary form confront its own controversial ability to entertain Her close scrutiny of fictional corpses across the long eighteenth century reveals how the dead body functions as a test of the novel's intentions a chance for novelists to declare their allegiances in the battle between the didactic and the merely pleasurable Bodies in Motion and at Rest Thomas Lynch, 2001 Presents eighteen reflective essays on life and death in the twentieth century by writer and funeral director Thomas Lynch of Michigan Gay Shame David M. Halperin, Valerie Traub, 2009 Ever since the 1969 Stonewall Riots gay pride has been the rallying cry of the gay rights movement and the political force behind the emergence of the field of lesbian and gay studies But has something been lost forgotten or buried beneath the drive to transform homosexuality from a perversion to a proud social identity Have the political requirements of gay pride repressed discussion of the more uncomfortable or undignified aspects of homosexuality Gay Shame seeks to lift this unofficial ban on the investigation of homosexuality and shame by presenting critical work from the most vibrant frontier in contemporary queer studies An esteemed list of contributors tackles a range of issues questions of emotion disreputable sexual histories dissident gender identities and embarrassing figures and moments in gay history as they explore the possibility of reclaiming shame as a new even productive way to examine lesbian and gay culture Accompanied by a DVD collection of films performances and archival imagery Gay Shame constitutes nothing less than a major redefinition and revitalization of the field **Book Review Index**, 2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index *The Routledge Handbook of the History of the Middle East Mandates* Cyrus Schayegh, Andrew Arsan, 2015-06-05 The Routledge Handbook of the History of the Middle East Mandates provides an overview of the social political economic and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of government The political social economic and cultural experiences of the people living in and connected to the

Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history Corpse Care Cody J. Sanders, Mikeal C. Parsons, 2023-01-03 Corpse Care relates the history of death care in the U S to craft robust constructive practical ethics for tending the dead It specifically relates corpse care to economic environmental and pastoral concerns Death and the treatment of the dead body loom large in our collective cultural consciousness The authors explore the materiality and meaning of the dead body and the living s relationship to it All the biggest questions facing the planetary human community relate in one way or another to the corpse Surprisingly Christian communities are largely missing in the discussion of the dead having abdicated the historic role in care for the dead to the funeral industry Christianity has stopped its reflection about the body once that body no longer bears life Corpse Care stakes a claim that the fact of embodiment this incarnational truth this process of our bodily becoming is a practical ethical and theological necessity **Birth and Death in British Culture** Anette Pankratz, Claus-Ulrich Viol, Ariane de Waal, 2012-04-25 Why discuss birth and death when they lie outside discourse And why look at them together when they are so much unlike each other one the moment of fresh beginnings joys and the relative certainties of existence the other the moment of life s end grief and the relative uncertainties of non existence Because it turns out that both events while virtually unrepresentable have spawned a host of representations narratives rites and attempts at making sense of them and because they may have more similarities than appears at first sight The 13 interdisciplinary articles collected in this volume prove that looking at the two phenomena in tandem throws into sharp relief the distinct patterns and functions of each while also highlighting some of the fundamental historical developments cultural functions and socio political issues shared by both The contributions take stock of the discourses of birth and death prevalent in British and Western culture probing into the way the two phenomena have been subjected to strategies of medialisation commodification and bio politics
