Fancies And Gateaux:

Fancies & Gateaux Lesley Herbert,Douglas Goldsmith,1993 This book aims to reveal the trade secrets for achieving at home the results normally found in a high class patisserie fondants meringues vacherins fruit tartlets marshmallow genoese and frangipan fancies 0000000: 0000 000,2013-01-12 Miss Ho **Flour Confectionery Manufacture** C. A.

Street,1991-01-15 As the manufacture of flour confectionery has developed from a craft reliant on the skills of its workers to a mechanised industry it has become necessary to understand the principles underlying the processes involved This book provides up to date information on the nature of raw materials the types of equipment available and the changes which occur during processing An objective approach to the description of products is outlined and recipes are given as possible starting points Factors affecting the decisions of managers and technologists during development work and methods of controlling processing operations are also discussed The subject is approached from a problem solving viewpoint and there is a useful guide to the troubleshooting of many problems commonly encountered in the industry The book is written for food scientists and technologists in the flour confectionery manufacturing industry It will also be an essential source of reference for the industry s ingredient suppliers and equipment manufacturers and for those working or studying in academic and research institutions **The Technology of Cake Making** A.J. Bent,E.B. Bennion,G.S.T. Bamford,2013-03-09 The popularity of the

1973 fifth edition of The Technology of Cake Making has continued in many of the English speaking countries throughout the world This sixth edition has been comprehensively revised and brought up to date with new chapters on Cream butter and milkfat products Lactose Yeast aeration Emulsions and emulsifiers Water activity and Reduced sugar Eggs and egg products Baking fats and lower fat goods The chapters on Sugars Chemical aeration Nuts in confectionery Chocolate Pastries Nutritional value and Packaging have been completely rewritten The increased need for the continuous development of new products does not of necessity mean that new technology has to be constantly introduced Many of the good old favourites may continue to be produced for many years and they form suitable bench marks for new product development The sixth edition introduces the use of relative density to replace specific volume as a measure of the amount of aeration in a cake batter the use of relative density is in line with international agreement Specific volume is kept as a measurement of baked product volume since the industry is comfortable with the concept that subject to an upper limit an increase in specific volume coincides with improvement in cake quality **Modern Cake Decoration** L.J.
