The Far Call Gordon R. Dickson, 2013-11-26 Jens Wylie would never leave Earth but his heart was with the brave men and women of the first Mars Expedition enchanted by the siren song of the stars As U S Undersecretary of Space he thought he could share some small part of that bold adventure But as the mission progressed Jens saw the sure signs of imminent disaster a mission failure that could bring Earth s Space program to a halt He knew that he must risk his future and maybe even his life to keep humanity on the road to the stars the only question was whether he had the courage to do it **The**

imagination *Spotting the Devil Spotting the Devil from Far and Near* Rev. Bagan Tewa, 2009-04-20 Spotting The Devil Spotting The Devil From Far and Near Avoiding The Trap Of Negative Behavior In Order To Fulfill The Purpose Of Ones Life The word devil in this book is not used in the traditional sense The word devil conjures up a powerful image of everything that is negative and destructive and it is in this sense that the word is used We are surrounded by it In many ways we are consumed by it yet man is afraid to utter the word as if by saying the word devil man is somehow admitting that he is accepting of this taboo and is in aggreance with the devil force This book says that we must and can learn to identify all these negatives as they come at us in order to avoid the dire consequences that come about as a result of our contact with these devils in our society This book seeks to examine the world in which we live with an analytical approach to why we as the human race make the choices in life that we do It starts with a simple story about an incident that happens in the authors childhood with the intention of explaining why the author sees things the way he does and coming to the realization that this was a defining moment in his life even though he did not know it at the time This book looks at fear the fear that is an obstacle to most of us and this fear is something we take for granted Most of us think that this fear is normal and that there is no way around it Not true as the author explains He goes into the reasons why we must conquer these fears and where most of these fears originate The author goes on to explain friendship and how we are so easily lulled into different behavior how easy it is for us to get caught up in the moment and how easily it is to get carried away usually to our detriment In using stories from his life experience he takes the reader on a journey and in every step of that journey he unfolds a secret There is so much that we take for granted and yet so much of this behavior can be prevented if we could only recognize what is coming at us just like the driver who knows he is about to collide with another car because he sees it coming towards him from the opposite direction The author looks at popular culture from the inside out and shows us how we are surrounded by so much negativity yet we dont know it because we do not look at society from this angle We can have a greater appreciation for the images that are fed to us if we see them for what they are and we can watch and enjoy without becoming consumed by fantasy if we understand the motives behind what is being fed to us In these times it is crucial that we learn from the mistakes of the past and we challenge ourselves to be more disciplined and to develop our sense of foresight because we all have the gift We are born with it but as we grow we allow societys ills to get the better of us and we just follow rather than lead ourselves into a better life where we can find the fulfillment that we all seek This book looks at first the microcosm and then the macrocosm taking a peek at wars and what is the lesson of these wars The author also looks at religion and mans attitude towards it Why do we get caught up in imagery and names and not listen to what is truth and what makes sense We follow even when two plus two does not make four we follow blindly and again are led downstream Finally the author looks at colors that have been in cultures for thousands of years and unravels the associations that many have come to attach to certain colors This book is an eye opener written in a simple language that would only serve to enlighten and unravel some of

the mysteries that make life so complex The key is right in front of us We feel it therefore we know it and we are in denial more than we are not Do we get dressed everyday for the creator or do we get dressed for ourselves It is true that man cannot serve two masters but one can always find th

This Far Kathleen O'Toole,2019-10-15 This collection offers a rich harvest taken from one season in the poet s creative life Like movements in a musical composition these poems share leitmotifs grief and the desire to honor those saints who have passed on the sacramental power of nature and how works of art illuminate and console as they do They point to the tension between the practice of monastic silence and the urge to bear witness interrogating faith in the light of crises facing the earth and our human community At the same time the poet celebrates encounters that offer blessings of hope inviting us to join her in a pilgrimage that leads us with her this far and gestures to what lies beyond

The Fur Hunters of the Far West Alexander Ross,1956 Alexander Ross offers a completely authentic account of the earliest attempts by men of European background to come to grips with the climate geography and inhabitants of the Northwest at a time when resourcefulness and daring were prime virtues It offers moreover an on the scenes interpretation of the conflict between American and British interests their rivalry for the vast wealth in Northwest furs the conflict between free trade and corporate enterprise in the wilderness and the conflict with the North West Company itself Ross himself a Scotsman by birth at one time a trader for John Jacob Astor and the Americans emerges as one of the heroic figures of both American and British frontier history He recounts with frankness excellent perspective and a fine sense of humor the human adventures of which he was a part

How Far Does Love Go Joseph Sanpietro, 2009-09-08 You have heard that when someone wants to break up they say the grass is greener on the other side meaning it must be better But I say the grass might be greener on the other side Maybe even in your mind it will be better But grass is only grass Some are greener Some has the color of even yellow in it And some looks like it is even blue But just remember this to all of you out there who think it will be better no matter what the color of the grass it is still grass and will always taste like grass As I looked back on my last marriage I tried to do all I could to get it to work But when you know you did all the right things for your mate and your children and all they can think of are themselves well you know they are not going to do the right thing You know it is time just to let them go and do the best you can to move on If you hold on to something bad as I tried to do it will hurt you and the ones you love My children hate their mom now and I can't stand thinking of all the wrong she did to all of us But I will not let her turn us into a mold that will cover us in hate My children are happy with me and for now that's all they need No matter what I have gone through in my marriages a lot has been taken from me but one thing they could not take is the joy I have kept in my heart for Jesus
