Fascist Dictatorships:

Reactionary Nationalists, Fascists and Dictatorships in the Twentieth Century Ismael Saz, Zira Box, Toni Morant, Julián Sanz, 2019-07-23 This book provides a comparative study of fascisms and reactionary nationalisms. It presents these as transnational political cultures and examines the dictatorships and regimes in which these cultures played significant roles. The book is organised into three main sections focusing on nationalists, fascists and dictatorships in turn. The chapters range across French, Italian, Spanish, Portuguese and German experiences and include a broader overview of the political cultures in Central and Eastern Europe as well as Latin America. The chapters consider the identities, organizations and evolution of the various cultures and specific political movements alongside the intersections between these movements and how they adapted to changing contexts. By doing so, the book offers a global view of fascisms and reactionary nationalisms and promotes debate around these political cultures.

European Dictatorships 1918-1945 Stephen J. Lee, 2016-02-12 *European Dictatorships 1918-1945* surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe's states to dictatorships between the first and the second world wars. From the notorious dictatorships of Mussolini, Hitler and Stalin to less well known states and leaders, Stephen J. Lee scrutinizes the experiences of Russia, Germany, Italy, Spain, Portugal and Central and Eastern European states. This fourth edition has been fully revised and updated throughout. New material for this edition includes the most recent research on individual dictatorships, a new chapter on the experiences of Europe's democracies at the hands of Germany, Italy and Russia, an expanded chapter on Spain, a new section on dictatorships beyond Europe exploring the European and indigenous roots of dictatorships in Latin America, Asia and Africa. Extensively illustrated with images, maps, tables and a comparative timeline and supported by a companion website providing further resources for study, www.routledge.com/cw/lee/EuropeanDictatorships19181945 is a clear, detailed and highly accessible analysis of the tumultuous events of early twentieth century Europe.

The Palgrave Handbook of Mass Dictatorship Paul Corner, Jie-Hyun Lim, 2016-09-22 This book offers a fresh and original approach to the study of one of the dominant features of the twentieth century. Adopting a truly global approach to the realities of modern dictatorship, this handbook examines the multiple ways in which dictatorship functions both for the rulers and for the ruled and draws on the expertise of more than twenty-five distinguished contributors coming from European, American and Asian universities. While confronting the immense complexities of repression and popular response under dictatorship, the volume also poses a series of wide-ranging questions about the political organization of present-day mass society.

Fascism: The 'fascist epoch' Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919. However, for the first time since Italian fascism appeared, there is now a significant degree of consensus amongst scholars about how to approach the generic term, namely as a revolutionary form of ultra-nationalism. Seen from this perspective, all forms of fascism have three common features:

anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

Sites of the Dictators Xosé M. Núñez Seixas, 2021-06-13 This book explores the changing evolution of memory debates on places intimately linked to the lives and deaths of different fascist para fascist and communist dictators in a truly transnational and comparative way During the second decade of the twenty first century a number of parallel debates arose in Italy Spain Portugal Albania Austria and other European countries regarding the public management by democratic regimes of those sites of memory that were directly linked to the personal biographies of their former dictators The ways in which each democracy deals with the dead bodies mausoleums and birthplaces of the dictators vary considerably although common questions occur such as whether oblivion or re signification is better the risk of a posthumous cult of personality being established and the extent to which the shadow of the authoritarian past endures in these sites of memory Using the concept of sites of the dictators the author explains why it is so difficult to deal with some sites of memory linked to dead autocrats as those places contribute directly or indirectly to humanizing them making their remembrance more acceptable for the present and future generations and discusses the potential of the Europeanization of these dark memories of the past Exploring the imperatives of memory politics and how these are reconciled with local actors interested in exploiting the
