*Impressionism* John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any

current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes     *Titanic* Simon Adams,2000 Detailed descriptions of the Titanic including its accommodations and a retelling of its sinking in the North Atlantic in April 1912     *Jungle* Theresa Greenaway,2000-06-14 This book describes life in the tropical rain forest from the exotic birds in the tree tops to the millions of insects on the forest floor     *North American Indian* David Murdoch,2000-03 Here is an original and exciting new guide to the fascinating civilizations of North American Indians Superb full color photographs offer a unique and revealing eyewitness view of this rich culture See a necklace made of bear claws a model of a Blackfeet teepee a false face made from cornhusks how fish were trapped in a basket and a Cheyenne feathered war bonnet Learn about the kachina ceremony why love dolls were important how turtle shells made music what s stored inside a parfleche and how pemmican was made Discover the meanings of carvings on a Haida totem pole what s inside an Iroquois longhouse what medicine men carried in their medical kits how a bowdrill works and much much more     **Earth** Susanna Van Rose,2000-07-05 The natural forces that shape our planet from plate tectonics to volcanoes are examined through textual explanations and 3 D models
