principle of non refoulement provisions for international monitoring and also the concept of preventative visits to all places of detention as contained in the Optional Protocol to the CAT It also covers issues including the distinction between torture and cruel inhuman or degrading treatment and the principle of non admissibility of evidence extracted under torture Full article by article commentary on the Convention also provides historical context and thorough analysis of case law and practice from international and regional courts and monitoring bodies Relevant case law from domestic courts are also discussed Despite the broad ratification and the universal recognition of the prohibition of torture and other forms of ill treatment we witness a global crisis affecting the majority of countries worldwide In recent years the protection of human rights is experiencing a particularly serious crisis also affecting the phenomenon of torture in which official narratives and public belief often trivialise and even endorse such practices in the name of security and the fight against terrorism ignoring the suffering and damages it causes On the other hand the positive experiences in some States illustrate that torture can be eradicated if the provisions of CAT and OPCAT are taken seriously and are being fully implemented This is an open access title available under the terms of a CC BY NC 4 0 International licence It is offered as a free PDF download from OUP and selected open access locations

Encyclopedia of Cryptozoology Michael Newton, 2016-10-05. On every continent and in every nation, animals unrecognized by modern science are reported on a daily basis. People passionately pursue these creatures; the name given to their field of study is cryptozoology. Coined in the 1950s, the term literally means the science of hidden animals. When the International Society of Cryptozoology (ISC) was formed in 1982, the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur, either now or in the past, as well as the unknown persistence of presumed extinct animals to the present time or to the recent past. What makes an animal of interest to cryptozoology is that it is unexpected. This reference work presents a flesh-and-blood view of cryptozoology. Here, 2,744 entries are listed, the majority of which each describe one specific creature or type of creature. Other entries cover 742 places where unnamed cryptids are said to appear, profiles of 77 groups and 112 individuals who have contributed to the field, descriptions of objects and events important to the subject, and essays on cryptotourism and hoaxes, for example. Appendices offer a timeline of zoological discoveries, annotated lists of movies and television series with cryptozoological themes, a list of crypto-fiction titles, and a list of Internet websites devoted to cryptozoology.

The New Encyclopedia of Southern Culture M. Thomas Inge, Charles Reagan Wilson, 2014-02-01. Offering a comprehensive view of the South's literary landscape past and present, this volume of *The New Encyclopedia of Southern Culture* celebrates the region's ever-flourishing literary culture and recognizes the ongoing evolution of the southern literary canon. As new writers draw upon and reshape previous traditions, southern literature has broadened and deepened its connections, not just to the American literary mainstream but also to world literatures, a development thoughtfully explored in the essays here. Greatly expanding the content of the literature section in the original *Encyclopedia*, this volume includes 31 thematic essays addressing major genres of literature, theoretical categories such as regionalism, the southern gothic, and agrarianism, and themes in southern writing such as food, religion, and sexuality. Most striking is the fivefold increase in the number of biographical entries, which introduce southern novelists, playwrights, poets, and critics. Special attention is given to contemporary writers and other individuals who have not been widely covered in previous scholarship.
