Oram, 2014-05-21. Academic collection practices in recent years have extended to the private libraries of notable individual

authors As a consequence book historians have become more interested in the study of provenance of the contents of these libraries while literary scholars have devoted more attention to authorial annotations At the same time the Internet has encouraged both scholarly and hobbyist reconstructions of private libraries see for example the Legacy Libraries on Librarything com Although there are many bibliographies and reconstructions of the libraries of authors this is the first general consideration of these libraries and serves as an introduction to best practices for academic libraries in their acquisition cataloging and issues of access This collection begins with principal editor Richard Oram s historical overview of writers libraries and institutional collecting focusing primarily on English language authors The co editor Joseph Nicholson has provided a definitive review of best cataloging and arrangement practices that facilitate scholarly access The bookseller Kevin Mac Donnell discusses the marketing of these collections and obstacles to placing intact author libraries in institutions Also included are case studies by Amanda Golden and David Faulds relating to the personal libraries of the poets Anne Sexton and Ted Hughes indicating how these collections have the potential to enhance archival research Fiction writers Iain Sinclair Russell Banks Jim Crace poet Ted Kooser and biographer Ron Powers describe their sometimes passionate relationship with books and their own personal libraries The concluding chapter a location guide to over 500 individual libraries will be invaluable to scholars and librarians who want to know where writers libraries are currently located what happened to them if they are known to have been sold or dispersed and what has been written about them

*The Power of Genre* Adena Rosmarin,1985 The Power of Genre was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The Power of Genre is a radical and systematic rethinking of the relationship between literary genre and critical explanation Adene Rosmarin shows how traditional theories of genre whether called historical intrinsic or theoretical are necessarily undone by their attempts to define genre representationally Rather Rosmarin argues the opening premise of critical argument is always critical purpose or as E H Gombrich has said function and the genre or form follows the reform The goal is a relational model that works Rosemarin analyzes existing theories of genre those of Hirsch Crane Frye Todorov Jauss and Rader are given particular attention before proposing her own These analyses uncover the illogic that plagues even sophisticated attempts to treat genre as a preexistent entity Rosmarin shows how defining genre pragmatically as explicitly chosen or devised to serve explicitly critical purposes solves this problem a pragmatic theory of genre builds analysis of its metaphors and motives into its program thereby eliminating theory s traditional need to deny the invented and rhetorical nature of its schemes A pragmatic theory however must be tested not only by its internal cohesion but also by its power to enable practice and Rosmarin chooses the dramatic monologue an

infamously problematic genre and its recent relative the mask lyric as testing grounds Both genres variously exemplified by poems of Browning Thennyson Eliot and Pound are ex post facto critical constructs that when defined as such make closely reasoned sense not only of particular poems but also of their perplexed interpretive histories Moreover both genres dwell on the historicity textuality and redemptive imperfection of the speaking self This generic obsession ties the poems to their reception and finally to the openended processes of hermeneutic question and answer stressed in Rosmarin s framing theory
