II Corinthians and Galatians James Hastings, 1913 **The Expositor's Bible: Index** Samuel Ayres, 2021-12-02 **The Expositor's Bible: Ephesians and The Epistle to the Galatians** George Gillanders Findlay, 2020-09-28 In passing from the Galatian to the Ephesian epistle we are conscious of entering a different atmosphere We leave the region of controversy for that of meditation From the battle field we step into the hush and stillness of the temple Verses 3 14 of this chapter constitute the most sustained and perfect act of praise that is found in the apostle's letters It is as though a door were suddenly opened in heaven it shuts behind us and earthly tumult dies away The contrast between these two writings following each other in the established order of the epistles is singular and in some ways extreme They are respectively the most combative and peaceful the most impassioned and unimpassioned the most concrete and abstract the most human and divine amongst the great apostle's writings Yet there is a fundamental resemblance and identity of character The two letters are not the expression of different minds but of different phases of the

same mind In the Paul of Galatians the Paul of Ephesians is latent the contemplative thinker the devout mystic behind the ardent missionary and the masterly debater Those critics who recognize the genuine apostle only in the four previous epistles and reject whatever does not conform strictly to their type do not perceive how much is needed to make up a man like the apostle Paul Without the inwardness the brooding faculty the power of abstract and metaphysical thinking displayed in the epistles of this group he could never have wrought out the system of doctrine contained in those earlier writings nor grasped the principles which he there applies with such vigour and effect That so many serious and able scholars doubt or even deny St Paul s authorship of this epistle on internal grounds and because of the contrast to which we have referred is one of those phenomena which in future histories of religious thought will be quoted as the curiosities of a hypercritical age Let us observe some of the Pauline qualities that are stamped upon the face of this document There is in the first place the apostle s intellectual note what has been well called his passion for the absolute St Paul s was one of those minds so discomposing to superficial and merely practical thinkers which cannot be content with half way conclusions For every principle he seeks its ultimate basis every line of thought he pushes to its furthest limits His gospel if he is to rest in it must supply a principle of unity that will bind together all the elements of his mental world Hence in contesting the Jewish claim to religious superiority on the ground of circumcision and the Abrahamic covenant St Paul developed in the epistle to the Galatians a religious philosophy of history he arrived at a view of the function of the law in the education of mankind which disposed not only of the question at issue but of all such questions He established for ever the principle of salvation by faith and of spiritual sonship to God What that former argument effects for the history of revelation is done here for the gospel in its relations to society and universal life The principle of Christ s headship is carried to its largest results The centre of the Church becomes the centre of the universe God s plan of the ages is disclosed ranging through eternity and embracing every form of being and gathering into one all things in the Christ In Galatians and Romans the thought of salvation by Christ breaks through Jewish limits and spreads itself over the field of history in Colossians and Ephesians the idea of life in Christ overleaps the barriers of time and human existence and brings things in heaven and things in earth and things beneath the earth under its sway

Paul, Apostle of Weakness David Alan Black, 2012-09-20 In this practical book every occurrence of *astheneia* and its cognates in the Pauline Epistles is examined both in its immediate context and in its relation to Pauline thought as a whole The analysis begins first by examining both secular and Septuagintal Greek usages of *astheneia* as well as its usage in the non Pauline New Testament writings It then proceeds secondly by defining Paul s *astheneia* *termini* from letter to letter and context to context All the passages in the Pauline literature where the words appear undergo a detailed exegetical examination The Pauline weakness motif is then summarized with the conclusion that the concept of weakness is foundational to Paul s anthropology Christology and ethics
