External Relations Of The European Community The International Response To 199:

Developments in EU External Relations Law Marise Cremona, 2008 External relations is currently among the most dynamic areas of EU law This volume gathers leading analysts to assess core recent developments in the field taking stock of the current law and potential developments in major policy areas Together these essays present a clear picture of the complex development of EU external relations and of the struggle for coherence in the increasingly active visible and self conscious role played by the EU as a participant in the international legal order **BOOK JACKET** **Constitutional**

Principles of EU External Relations Geert De Baere, 2008-09-25 The volume explores the marked differences between the complex and rapidly changing legal organization of EU external relations and the EU's internal constitutional order The European Union is unique as a polity organized along federal lines but with fully fledged States as its component political entities The tension between the self conscious Member States and their constitutional relationship within the EU is especially pronounced in the foreign policy field where they remain determined to assert their status as full subjects of the international order This book explores how foreign policy fits within the constitutional structure of the EU characterized by the division of external relations competences between the EU and the Member States the vertical axis and between the pillars of which the Union is composed in particular the division between the Community competences of the first pillar and the common foreign and security competences of the second pillar the horizontal axis This is a study of the extent to which foreign policy is legally sui generis within the sui generis constitutional order of the EU and of how the common foreign and security policy is in turn sui generis within the foreign policy structure of the Union It provides both an exploration of the constitutional reality of EU foreign policy and theoretical analysis which suggests possibilities for reform *The Evolving Nature of EU External Relations Law* W. Th. Douma, C. Eckes, P. Van Elsuwege, E. Kassoti, A. Ott, R. A. Wessel, 2021-01-21 This book originates from the proceedings of the 10th anniversary conference of the Centre for the Law of EU External Relations CLEER in which renowned experts in the field took stock of recent evolutions in the law and practice of the EU's external relations In particular the book addresses the question of how the evolving legal and political framework affects the nature of EU external relations law The contributions discuss the actions and reactions of the EU through external action instruments in a number of substantive areas such as migration trade neighbouring policies security and defence By shedding light on the most significant developments of the past decade this edited volume attests to the ever evolving nature of the field of EU External Relations Law Thus this book is essential reading for academics practitioners and policy makers at the EU level interested in the field of EU External Relations Law Dr W Th Douma is an Independent legal expert at the European Environmental Law Consultancy and EU Legal Centre for European and International Law both based in The Netherlands voluntary researcher at Ghent University in Belgium and Senior Legal Adviser at the Dutch Ministry of Social Affairs and Employment Prof Dr C Eckes is Professor of European Law at the University of Amsterdam and director of the Amsterdam

Centre for European Law and Governance The Netherlands Prof Dr P Van Elsuwege is Professor of European Union Law at Ghent University and co director of the Ghent European Law Institute Belgium Dr E Kassoti is Senior researcher in EU and International Law at the Asser Institute and academic co ordinator of the Centre for the Law of EU External Relations CLEER The Netherlands Prof Dr A Ott is Professor of EU External Relations Law and Jean Monnet professor in EU Law at Maastricht University The Netherlands Prof Dr R A Wessel is Professor of European Law and Head of the European and Economic Law Department at the University of Groningen The Netherlands

Beyond Foreign Economic Policy Brian Hocking, Michael Smith, 1997-01-01 Investigates the ways in which the US responded to the European Community's Single Market Program launched in the 1980s arguing that foreign economic policy is the product of interests and actions expressed by a wide range of groups and at many different levels Analyzes changes faced by the US in the world political economy of the 1990s and details the process by which Congress state governments and US executives and firms responded to the Single Market Program looking especially at issues of public procurement and standards testing and certification Distributed by Books International Annotation copyrighted by Book News Inc Portland OR

EU External Relations Law Ramses A Wessel, Joris Larik, 2020-04-02 The first edition of this seminal textbook made a significant impact on the teaching of EU external relations law This new edition retains the hallmarks of that success while providing a fully revised and updated account of this burgeoning field It offers a dual perspective looking at questions from both the EU constitutional law perspective the principles underpinning EU external action the EU's powers and the role of the Court of Justice of the EU and the international law perspective the effect of international law in the EU legal order and the position of the EU in international organisations such as the WTO A number of key substantive policy areas are explored including trade security and defence police and judicial cooperation the environment human rights and development cooperation Taking a text cases and materials approach it allows students to gain a thorough understanding of milestones in the evolution of EU law in this area their judicial interpretation and scholarly appraisal Linking these pieces together through the authors commentary and analysis ensures that students are given the necessary guidance to properly position and digest these materials Lastly each chapter concludes with a section entitled The Big Picture of EU External Relations Law which weaves together the diverse and complex materials into a coherent whole and stimulates critical discussion of the topics covered

The EU in Association Agreement Negotiations Daniel Schade, 2019-10-21 Through its focus on EU Association Agreement negotiations this book goes beyond the study of traditional EU trade negotiations and puts the spotlight on the increasing number of negotiations where trade relations are discussed alongside political ones This setting makes both the negotiations themselves and the definition of the EU's positions more complicated raising the question as to what ultimately determines the EU's behaviour in such complex negotiations spanning multiple of the EU's policy areas Offering a generalizable analytical model to study such complex EU international negotiations the book illuminates the preferences and interactions

between individual parts of the EU's foreign affairs bureaucracy and those between the lead actors the Directorate General for Trade and the European External Action Service EEAS in particular. In doing so it demonstrates the utility of adapting the concept of bureaucratic politics from Foreign Policy Analysis FPA to the EU's foreign policy decision making apparatus across different stages of EU international negotiations. It also discusses how the institutional changes of the Treaty of Lisbon have altered the institutional set up of the EU's foreign affairs bureaucracy and thereby changed the foundations of the EU's bureaucratic politics. Finally the book finds that the EU's behaviour in these negotiations is ultimately shaped on the one hand by the presence of diverging positions between its institutional actors and the difficulty to bridge them through policy coordination mechanisms on the other. Empirically it explores these dynamics by considering the EU's Association Agreement negotiations on the Latin American continent over the last twenty years before demonstrating the analytical model's utility in the context of the EU's negotiations with Ukraine and Japan. This book will be of key interest to scholars, students and practitioners in EU foreign affairs, external relations, EU public administration and public policy, EU trade policy and more broadly to Foreign Policy Analysis and International Relations.

Foreign Ministries in the European Union B.

Hocking, D. Spence, 2016-07-02. What role if any does the foreign ministry perform in contemporary world politics? Is the argument that it is in a state of terminal decline accurate or rooted in only partial understandings of its changing character? *Foreign Ministries in the European Union* explores this theme in the context of the EU where foreign ministry has played a key role in the development of integration but where its role is increasingly questioned. The contributors examine the foreign ministry in thirteen member states and draw conclusions that challenge some conventional wisdoms.

The European Union and its Eastern Neighbours Elena Korosteleva,2012-05-15 This book explores the EU s relations with its eastern neighbours Based on extensive original research including surveys focus groups a study of school essays and in depth interviews with key people in Belarus Ukraine Moldova Russia and in Brussels it assesses why the EU s initiatives have received limited legitimacy in the neighbourhood The European Neighbourhood Policy of 2004 and the subsequent Eastern Partnership of 2009 heralded a new form of relations with the EU s neighbours partnership based on joint ownership and shared values which would complement if not entirely replace the EU s traditional governance framework used for enlargement These initiatives have however received a mixed response from the EU s eastern neighbours The book shows how the key elements of partnership have been forged mainly by the EU rather than jointly and examines the idea and application of external governance and how this has been over prescriptive and confusing EU Global Actorness in a

World of Contested Leadership Maria Raquel Freire,Paula Duarte Lopes,Daniela Nascimento,Licinia Simão,2022-03-01 This book contributes to the literature on the EU s role in the international system by engaging with the debates on global actorness and mapping new conceptual and theoretical avenues to better understand how agency and power are exerted at the global and regional levels in a context of increased contestation of the international liberal order Organised around three main lines the book first looks at how the EU positions itself internationally in different policy areas providing a multi dimensional reading of EU policies instruments and practices secondly it engages with the EU s own perspective toward its regional contexts and with the perspectives of regional actors on the EU and thirdly it explores non European perspectives on EU actorness as the way the EU is perceived by others in this system of contested leadership is central to how it is understood in terms of policies instruments and overall capability to lead and act as a global power **EU and US Foreign**

Economic Policy Responses to China Joachim Schild,Dirk Schmidt,2023-12-19 This book examines EU and US bilateral trade and investment relations with China their attempts to level the economic playing field and to narrow the reciprocity gap in market openness It explores the extent of EU and US policy change the underlying factors accounting for this change and compares EU and US foreign economic policy answers to an adversary increasingly perceived as an unfair economic competitor and as a systemic rival The book covers a broad range of policy areas from trade wars trade defense instruments their reform and use investment screening and export control to industrial policies It makes eclectic use of different strands of International Relations International Political Economy and Policy Analysis theorizing to account for the extent of and

differences in the EU and US responses The People's Republic of China's stellar economic and political rise combined with the resilience of its unfair trade practices its reinforced authoritarian repression at home and its ever more assertive foreign economic policy has triggered a shift in perceptions of China followed by equally profound policy change in the European Union and the US This book expertly charts and explains this significant shift in stance This book will be of key interest to scholars students and practitioners in the fields of EU trade policymaking US foreign foreign economic policy EU China US economic relations European political economy and more broadly to European studies Asian studies International Relations International Political Economy and transatlantic relations

Catalonia: A New Independent State in Europe? Xavier Cuadras Morató, 2016-04-20 Catalonia A New Independent State in Europe examines the main issues of the political process which is taking place in Catalonia today The political confrontation between the Spanish and Catalan institutions has now reached the international arena especially the debates concerning international recognition of a new Catalan state and its membership of the European Union EU and other international institutions There are no precedents for the secession of a region from an EU member country that could be applied to the case of Catalonia Therefore it is not surprising that the world has many unanswered questions about the process This volume aims to provide answers to many of these questions in a systematic and rigorous way Why has the political scenario in Catalonia changed so radically and so rapidly Is this new situation only temporary and support for independence is likely to vanish very soon What role has the deep economic crisis in Catalonia and in Spain played in the process Is a potential new Catalan state economically viable Which are the main legal controversies about self determination and independence between the Spanish and Catalan institutions Would an independent Catalonia be a member of the EU This book will be of great use to academics and students in the field of politics and international relations particularly those interested in European economic and political studies It will also interest a wide segment of general readers interested in contemporary political issues

Great Powers and Strategic Stability in the 21st Century Graeme P. Herd, 2010-02-25 This book addresses the issue of grand strategic stability in the 21st century and examines the role of the key centres of global power US EU Russia China and India in managing contemporary strategic threats This edited volume examines the cooperative and conflictual capacity of Great Powers to manage increasingly interconnected strategic threats not least terrorism and political extremism WMD proliferation fragile states regional crises and conflict and the energy climate nexus in the 21st century The contributors question whether global order will increasingly be characterised by a predictable interdependent one world system as strategic threats create interest based incentives and functional benefits The work moves on to argue that the operational concept of world order is a Concert of Great Powers directing a new institutional order norms and regimes whose combination is strategic threat specific regionally sensitive loosely organised and inclusive of major states not least Brazil Turkey South Africa and Indonesia Leadership can be singular collective or coalition based and this will characterise the nature of strategic stability and world order in the 21st

century This book will be of much interest to students of international security grand strategy foreign policy and IR Graeme P Herd is Co Director of the International Training Course in Security Policy at the Geneva Centre for Security Policy GCSP He is co author of several books and co editor of *The Ideological War on Terror World Wide Strategies for Counter Terrorism* 2007 *Soft Security Threats and European Security* 2005 *Security Dynamics of the former Soviet Bloc* 2003 and *Russia and the Regions Strength through Weakness* 2003 The Foreign Policy of the European Union Federiga Bindi,Irina

Angelescu,2012-06-13 In a relatively short time the EU has become one of the most important actors on the world stage This updated second edition of *The Foreign Policy of the European Union* explores the goals and effectiveness of the EU s external actions after adoption of the Lisbon Treaty The book brings together prominent scholars and policymakers who provide an up to date view of the EU s foreign policy merits and challenges The role and place of the European Union in the world has been a constant question for all of the actors involved This book reminds us well of the importance of this question and offers a particularly welcome general overview during these times of doubt and pessimism Pierre Vimont from the foreword

Between Compliance and Particularism Marton Varju,2019-02-08 The book examines how the interests of the member states which provide the primary driving force for developments in European integration are internalised and addressed by the law of the European Union In this context member state interests are taken to mean the policy considerations economic calculations local socio cultural factors and the raw expressions of political will which shape EU policies and determine member state responses to the obligations arising from those policies The book primarily explores the junctions and disjunctions between member state interests defined in such a manner and EU law where the latter expresses either an obligation for the member states to comply with common policies or an acceptance of member state particularism under the common EU framework *Palestine in EU and Russian Foreign Policy* Malath Alagha,2016-10-04 The establishment of a

Palestinian state has long been a strategic objective of EU and Russian foreign policy in the Middle East However over a decade after the creation of the road map the establishment of an independent Palestinian state has still not been achieved *Palestine in EU and Russian Foreign Policy* uses the school of constructivism to provide a new understanding of EU and Russian foreign policy It explores the failure of these global actors to speed up the process of establishing a Palestinian state despite this being a strategic objective and top priority of their involvement in the Middle East peace process The book then analyses the role of identity and self other perception in the making of EU and Russian foreign policy towards the Middle East peace process It is argued that Palestinian statehood provides a telling empirical example of how and to what extent the search for global actorness as a matter of international identity informs foreign policy making by global actors The book then proceeds to discuss why the EU and Russia are so eager to be involved in initiating a peace settlement Offering a new understanding of foreign policy making by global players in Middle Eastern politics this book will appeal to students scholars and policymakers working in International Relations and European Russian and Middle Eastern studies **America and a**
