“The sexual revolution was just up and running. Girls were wearing no bras, then all of a sudden they were wearing no tops. It was absolutely outrageous.”

Living in the 70s

Being young in Australia in
an extraordinary decade

“I had an all-in-one hot-pants suit, a jumpsuit. It was red, with yellow round the cuffs of the pants and the wrists and round the waist, and it had a zip right down to the fly. I thought I was fantastic.”

Wonder Confronts Certainty Gary Saul

Morson, 2023-05-16 A noted literary scholar traverses the Russian canon exploring how realists idealists and revolutionaries debated good and evil moral responsibility and freedom Since the age of Tolstoy Dostoevsky and Chekhov Russian literature has posed questions about good and evil moral responsibility and human freedom with a clarity and intensity found nowhere else In this wide ranging meditation Gary Saul Morson delineates intellectual debates that have coursed through two centuries of Russian writing as the greatest thinkers of the empire and then the Soviet Union enchanted readers with their idealism philosophical insight and revolutionary fervor Morson describes the Russian literary tradition as an argument between a radical intelligentsia that uncompromisingly followed ideology down the paths of revolution and violence and writers who probed ever more deeply into the human condition The debate concerned what Russians called the accursed questions If there is no God are good and evil merely human constructs Should we look for life's essence in ordinary or extreme conditions Are individual minds best understood in terms of an overarching theory or as Tolstoy thought by tracing the tiny alternations of consciousness Exploring apologia for bloodshed Morson adapts Mikhail Bakhtin's concept of the non alibi the idea that one cannot escape or displace responsibility for one's actions And throughout Morson isolates a characteristic theme of Russian culture how the aspiration to relieve profound suffering can lead to either heartfelt empathy or bloodthirsty tyranny What emerges is a contest between unyielding dogmatism and open minded dialogue between heady certainty and a humble sense of wonder at the world's elusive complexity a thought provoking journey into inescapable questions

The Extraordinary Decade Pavel Vasil'evich Annenkov, *The Russian Revolutionary Emigres, 1825-1870*

Martin A. Miller, 2019-12-01 Originally published in 1986 Martin A Miller author of the definitive biography of the exiled revolutionary Peter Kropotkin traces the history of the first generations of Russians who went to Western Europe to devote their lives to anti tsarist politics Refusing to assimilate abroad and unable to return home the migr's political orientations were influenced by intellectual and social currents in both Russia and Europe Miller undertakes a major reassessment of the migr contribution to the Russian revolutionary movement Starting with Nikolai Turgenev who in 1825 was declared the first migr by a special act of the Russian government the exiles formed a unique social and political group Miller takes a biographical approach in tracing the progression from a disparate community of intellectuals unable to act together to promote their own program for change to a more cohesive second migr generation that provided the foundation for collective action and the development of a revolutionary ideology The creation of the Russian migr press Miller argues gave identity and momentum to the migr's and helped promote their program of revolution and a new social order *The Russian Revolutionary Emigres 1825 1870* concludes with the death in 1870 of the leading migr figure Alexander Herzen and with an analysis of the impact upon the migr's of the emergence of the populist revolutionary movement within Russia The migr's

overcame the loss of their homeland through their version of a future Russia one transformed into a new society where their ideals could be realized When two generations later Lenin returned to Russia after decades in Europe and made this vision a reality his actions built on the foundation laid by his nineteenth century predecessors

Turgenev and Russian Culture ,2008-01-01 The present volume has as its central aim a reassessment of the works of Ivan Turgenev for the twenty first century Against the background of a decline in interest in nineteenth century literature the articles gathered here seek to argue that the period in general and his work in particular still have much to offer the modern sensibility The volume also offers a great variety of approaches Some of the contributors tackle major works by Turgenev including Rudin and Smoke while others address key themes that run through all his creative work Yet others address his influence as well as his broader relationship with Russian and other cultures A final group of articles examines other key figures in Russian literary culture including Belinskii Herzen and Tolstoi The work will therefore be of interest to students postgraduates and specialists in the field of Russian literary culture At the same time they will stand as a tribute to the life and work of Professor Richard Peace a long standing specialist in nineteenth century Russian literature in whose honour the volume has been compiled

Revolutionary Pairs Larry Ceplair,2020-07-21 A political historian

examines five of the twentieth century's most significant revolutions and the partnerships that led the way. Successful revolution requires two triggering elements: a crisis or conjuncture and revolutionary actors who are organized in a dedicated revolutionary party armed with a radical ideology and poised to act. While previous revolutions were ignited by small collectives, many in the twentieth century relied on strategic relationships between two exceptional leaders: Marx and Engels, Communism; Lenin and Trotsky, Russia; Gandhi and Nehru, India; Mao and Zhou, China; and Castro and Guevara, Cuba. These partnerships changed the world. In *Revolutionary Pairs*, Larry Ceplair tells the stories of five revolutionary struggles through the lens of famous duos. While each relationship was unique, Castro and Guevara bonded like brothers, Mao and Zhou like enemies. In every case, these leaders seized the opportunity for revolution and recognized they could not succeed without the other. The first cross-cultural exploration of revolutionary pairs, this book reveals the undeniable role of personality in modern political change.

The Sinner and the Saint Kevin Birmingham, 2021-11-16. A New York Times Book Review Editors' Choice. One of The East Hampton Star's 10 Best Books of the Year. From the New York Times bestselling author of *The Most Dangerous Book*, the true story behind the creation of another masterpiece of world literature: Fyodor Dostoevsky's *Crime and Punishment*. *The Sinner and the Saint* is the deeply researched and immersive tale of how Dostoevsky came to write this great murder story and why it changed the world. As a young man, Dostoevsky was a celebrated writer, but his involvement with the radical politics of his day condemned him to a long Siberian exile. There he spent years studying the criminals that were his companions. Upon his return to St. Petersburg in the 1860s, he fought his way through gambling addiction, debilitating debt, epilepsy, the deaths of those closest to him, and literary banishment to craft an enduring classic. The germ of *Crime and Punishment* came from the sensational story of Pierre-François Lacenaire, a notorious murderer who charmed and outraged Paris in the 1830s. Lacenaire was a glamorous egoist who embodied the instincts that lie beneath nihilism, a Western-influenced philosophy inspiring a new generation of Russian revolutionaries. Dostoevsky began creating a Russian incarnation of Lacenaire, a character who could demonstrate the errors of radical politics and ideas. His name would be Raskolnikov. Lacenaire shaped Raskolnikov in profound ways, but the deeper insight, as Birmingham shows, is that Raskolnikov began to merge with Dostoevsky. Dostoevsky was determined to tell a murder story from the murderer's perspective, but his character couldn't be a monster. No, the murderer would be chilling because he wants so desperately to be good. The writing consumed Dostoevsky. As his debts and the predatory terms of his contract caught up with him, he hired a stenographer to dictate the final chapters. In time, Anna Grigorievna became Dostoevsky's first reader and chief critic and changed the way he wrote forever. By the time Dostoevsky finished his great novel, he had fallen in love. Dostoevsky's great subject was self-consciousness. *Crime and Punishment* advanced a revolution in artistic thinking and began the greatest phase of Dostoevsky's career. *The Sinner and the Saint* now gives us the thrilling and definitive story of that triumph.

Max Stirner and Nihilism Tim Dowdall, Timothy Dowdall, 2024 A reassessment of the controversial long marginalized yet still influential nineteenth century German philosopher that explores the contentious issue of whether he was as his critics frequently claim a nihilist Max Stirner 1806 1856 is often regarded as an enfant terrible of nineteenth century German philosophy but he has continued to exert an influence despite his marginalization as a nihilist This study is the first to tackle head on the question of whether Stirner can indeed reasonably be described as a nihilist Although he is not known ever to have used the word nihilism or any of its derivatives he was first accused of being a nihilist immediately after the publication of his magnum opus *Der Einzige und sein Eigentum* translated in most English editions as *The Ego and His Own* in 1844 Since then the allegation has been repeated by well over a hundred writers and critics with the result that it has become something of a truism The book aims first to establish a clear understanding of the multifarious meanings of the term nihilism second to examine the accusations leveled at Stirner in the light of those meanings and third to assess not only the fairness and accuracy of the imputation of nihilism but also its usefulness in understanding Stirner as a thinker It thus provides new insights into Stirner's thought challenges the orthodox view of him as a philosophical pariah reassesses his ideas and their place in the history of philosophy and addresses the recurrent issue of his contemporary relevance

Guizhou Paul Hattaway, 2025-01-14 Guizhou which means Precious State is home to more than 80 distinct tribes among the province's 35 million people. God has powerfully reached several of these groups but others still wait to hear of the Saviour of the world. Guizhou includes many vivid brief biographies of the extraordinary people who have been part of this remarkable story along with dozens of unique photographs painstakingly collected by the author over many years. This is the second volume in The China Chronicles which tells the modern history of the Church in China. Each history starts with the arrival of the first Evangelical missionaries in a province and continues to the present day. Partly because of its explosive growth in recent decades there is no accurate readable account of what has happened to the Chinese Church. This series is designed to inform the wider world of the astonishing work of the Spirit in China. The China Chronicles also aim to provide Chinese believers and members of the immense Chinese diaspora with some sense of their own roots. **Applied Ethics**

S.D. Chamola, 2017-01-10 Applied ethics is a field of ethics that deals with ethical questions specific to a professional disciplinary or practical field. There is ample literature available on ethics but there is scarcity of literature as how to apply the principles of ethics in solving the problems of contemporary world. The main objective of the book is how to apply principles and theories of ethics in day to day life in our ordinary business of life. There are numerous dimensions of ethics but it is not possible to discuss all of them. Some important subsets of applied ethics are discussed in the book. First what are the principles of ethics and how ethics is associated with religion, law, science and technology. Second the present world is facing grave issues such as climate change, population explosion, Corruption and violence, globalisation problems etc. How these issues can be resolved ethically. Third all the countries of the world are engaged in rapid economic development of their economies. How this can be done ethically. The main aim behind this book is that the Individuals, Societies, Corporations, Countries and the entire world should be run on ethical lines. This alone will endure happiness and well being of all. **US**

Public Opinion since the 1930s Richard Seltzer, 2022-01-25 This is both a history book and a book on public opinion. George Gallup who pioneered survey sampling methods and whose name in fact became synonymous with public opinion polls conducted his first survey in 1936. The main part of this book starts there as well. Dedicating a chapter to each decade from the 1930s to the present, Seltzer discusses historical events of the period and what the U.S. public thought of those events according to Gallup polls and other public opinion surveys. Each chapter is divided into the following categories: world events, U.S. politics, race, sex and gender, the economy, science, technology and the environment, and popular trends. Within each chapter approximately 40 survey questions were chosen for more extended analysis, breaking down the results by race, age, gender, education, region, and political party. *Report of the Iowa Weather Service for the Year, 1889*
