Aliens and Man Jerome A. Kroth,2010 When it comes to extraterrestrials UFOs crop circles and ancient astronaut literature most intelligent readers are repulsed by New Age hype turned off by Erik Van Daniken flustered by blatant pseudo science and deeply chagrined at how even the History Channel got dragged into the tabloid and sensational Yet many intelligent open minded readers harbor secret interests in the Great Pyramid and how it was built in mythic tales of sky gods coming and going from Ezekiel to the Rig Veda They are awed by the intricate fractals in crop circles and they more than take notice when a NASA astronaut says he was trailed in space by UFOs That questioning readership however swims in a vast sea of agnosticism curious but not convinced And there just aren t any books for them None they can trust None that reaches them None that transcends tabloid fantasies to authentically treat issues with enough dispassion and scholarly erudition not to insult their intelligence Here Dr Kroth gives the run down on a wide range of evidence and ponders how reliable any of it may be Readers are left with all the elements to form their own equation **Weekly World News**

Fike,2013-10-08 The One Mind C G Jung and the Future of Literary Criticism

explores the implications of C G Jung s unus mundus by applying his writings on the metaphysical the paranormal and the quantum to literature As Jung knew everything is connected because of its participation in universal consciousness which encompasses all that is including the collective unconscious Matthew A Fike argues that this principle of unity enables an approach in which psychic functioning is both a subject and a means of discovery psi phenomena evoke the connections among the physical world the psyche and the spiritual realm Applying the tools of Jungian literary criticism in new ways by expanding their scope and methodology Fike discusses the works of Hawthorne Milton Shakespeare Wordsworth and lesser known writers in terms of issues from psychology parapsychology and physics Topics include the case for monism over materialism altered states of consciousness types of psychic functioning UFOs synchronicity and space time relativity The One Mind examines Goodman Brown s dream Adam s vision in Paradise Lost the dream sequence in The Wanderer the role of metaphor in Robert A Monroe s metaphysical trilogy Orfeo Angelucci s work on UFOs and the stolen boat episode in Wordsworth s The Prelude The book concludes with case studies on Robert Jordan and William Blake Considered together these readings bring us a significant step closer to a unity of psychology science and spirituality The One Mind illustrates how Jung s writings contain the seeds of the future of literary criticism Reaching beyond archetypal criticism and postmodern theoretical approaches to Jung Fike proposes a new school of Jungian literary criticism based on the unitary world that underpins the collective unconscious This book will appeal to scholars of C G Jung as well as students and readers

life on our planet and with the very landscape of Earth itself Will Hart refines the theory of directed panspermia that life was intentionally seeded on Earth by extraterrestrials to reveal that the same ET agency also created humans and generated civilization He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far for example the major rivers on Earth are precisely aligned through geo engineering with the Great Pyramid of Giza Revealing the Great Pyramid as an alien message in stone the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids massive stone blocks methods later rediscovered by Nikola Tesla and the builder of Coral Castle Edward Leedskalnin He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today the author examines the strongest modern UFO accounts including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts He shows that this advanced ET civilization is not an alien race in the way we normally think of aliens they are our ancestors and as human as we are
