Extraterrestrial Friends And Foes:

Extra-Terrestrial Friends and Foes George C. Andrews, 1993 **Extraterrestrial Altruism** Douglas A.

Vakoch, 2013-09-14 Extraterrestrial Altruism examines a basic assumption of the Search for Extraterrestrial Intelligence SETI that extraterrestrials will be transmitting messages to us for our benefit This question of whether extraterrestrials will be altruistic has become increasingly important in recent years as SETI scientists have begun contemplating transmissions from Earth to make contact Technological civilizations that transmit signals for the benefit of others but with no immediate gain for themselves certainly seem to be altruistic But does this make biological sense Should we expect altruism to evolve throughout the cosmos or is this only wishful thinking Is it dangerous to send messages to other worlds as Stephen Hawking has suggested or might humankind benefit from an exchange with intelligence elsewhere in the galaxy Would extraterrestrial societies be based on different ethical principles or would we see commonalities with Earthly notions of morality

Extraterrestrial Altruism explores these and related questions about the motivations of civilizations beyond Earth providing new insights that are critical for SETI Chapters are authored by leading scholars from diverse disciplines anthropology astronomy biology chemistry computer science cosmology engineering history of science law philosophy psychology public policy and sociology The book is carefully edited by Douglas Vakoch Director of Interstellar Message Composition at the SETI Institute and professor of clinical psychology at the California Institute of Integral Studies The Foreword is by Frank Drake This interdisciplinary book will benefit everybody trying to understand whether evolution and ethics are unique to Earth or whether they are built into the fabric of the universe Alien Intrusion Gary Bates, 2004 Most people at one time or another
