Curiosities of the Sky Garrett Putman Serviss,1909 What Froude says of history is true also of astronomy it is the most impressive where it transcends explanation It is not the mathematics of astronomy but the wonder and the mystery that seize upon the imagination The calculation of an eclipse owes all its prestige to the sublimity of its data the operation in itself requires no more mental effort than the preparation of a railway time table The dominion which astronomy has always held over the minds of men is akin to that of poetry when the former becomes merely instructive and the latter purely didactic both lose their power over the imagination Astronomy is known as the oldest of the sciences and it will be the longest lived because it will always have arcana that have not been penetrated

Turning to Stone Marcia Bjornerud,2024-08-13 Winner of the 2025 John Burroughs Medal for Natural History Writing A beautiful book at once intimate and sweeping informative and moving Elizabeth Kolbert author of Under a White Sky Earth is vibrantly alive and full of wisdom for those who learn to listen Earth has been reinventing itself for more than four billion years keeping a record of its experiments in the form of rocks Yet most of us live our lives on the planet with no idea of its extraordinary history unable to interpret the language of the rocks that surround us Geologist Marcia Bjornerud believes that our lives can be enriched by understanding our heritage on this old and creative planet Contrary to their reputation rocks have eventful lives and they intersect with our own in surprising ways In Turning to Stone Bjornerud reveals how rocks are the hidden infrastructure that keep the planet functioning from sandstone aquifers purifying the water we drink to basalt formations slowly regulating global climate Bjornerud s life as a geologist has coincided with an extraordinary period of discovery in the geosciences From an insular girlhood in rural Wisconsin she found her way to an unlikely career studying mountains in remote parts of the world and witnessed the emergence of a new understanding of the Earth as an animate system of rock air water and life We are all most fundamentally Earthlings and we can find existential meaning and enduring wisdom in stone
