## **Fabulous Orientals Fictions Of The East In England 1662 1785:**

**Fabulous Orientals** Rosalind Ballaster, 2005 *Fabulous Orientals* is an original work of criticism which illustrates the centrality of narratives of and from the eastern territories of Turkey Persia China and India in the novel and constructions of western identity in a culture on the threshold of empire

**Fabulous Orientals** Ros Ballaster, 2005-10-20 Narrative moves Stories migrate from one culture to another over vast distances sometimes but their path is often difficult to trace and obscured by time *Fabulous Orientals* looks at the traffic of narrative between Orient and Occident in the eighteenth century and challenges the assumption that has dominated since the publication of Edward Said's *Orientalism* 1978 that such traffic is always one way Eighteenth century readers in the West came to draw their mental maps of oriental territories and distinctions between them from their experience of reading tales from the Orient In this proto colonial period the English encounter with the East was largely mediated through the consumption of material goods such as silks indigo muslin spices or jewels imported from the East together with the more moral traffic of narratives about the East both imaginary and ethnographic Through analyses of fictional representations including travellers accounts letter narratives such as *Letters Writ by a Turkish Spy* and popular sequences of tales such as the *Arabian Nights* Entertainments of four oriental territories Persia Turkey China and India Ros Ballaster demonstrates the ways in which the East came to be understood as a source of story a territory of fable and narrative *Fabulous Orientals* is structured according to territory rather than genre Each section opens by re narrating an oriental story in which a feminine character serves to figure western desire for the territory she represents the courtesan queen of the Ottoman seraglio Roxolana the riddling Chinese princess Turandote and the illusory sati of India Canzade The book goes on to explore the range of fabulous writings relating to each territory in order to illustrate how certain narrative tropes can come to dominate its representation the conflict between the male look and female speech staged in the seraglio in the case of Turkey and Persia the inauthenticity and or dullness associated with China and its products such as porcelain and the illusory dreams that are woven in the space of India and associated with its textile industries This is the first book length study of the oriental tale to appear for almost a century Informed by recent historiographical and literary re assessments of western constructions of the East it develops an original argument about the use of narrative as a form of sympathetic and imaginative engagement with otherness a disinvestment of the self rather than a confident expression of colonial or imperial ambition

**Eastward of Good Hope** Dane A. Morrison,2021-11-30 How did news from the East carried in ship logs and mariners reports journals and correspondence shape early Americans understanding of the world as a map of dangerous and incoherent sites Winner of the John Lyman Book Award by the North American Society for Oceanic History Freed from restrictions of British mercantilism in the years following the War of Independence Yankee merchants embarked on numerous voyages of commerce and discovery into distant seas Through the news from the East carried in mariners reports ship logs journals and correspondence Americans at home imagined the world as a map of dangerous and deranged places This was a world that was profoundly disordered hobbled by tyranny and oppression or steeped in chaos and anarchy often deadly always uncertain unpredictable and unstable yet amenable to American influence Focusing on four representative arenas the Ottoman Empire China India and the Great South Sea collectively the East Indies Oceania and the American continent s Northwest coast Eastward of Good Hope recasts the relationship between America and the world by examining the early years of the republic when its national character was particularly pliable and its foundational posture in the world was forming Drawing on recent scholarship in global ethnohistory Dane A Morrison recounts how reports of cannibal

encounters shipboard massacres shipwrecks tropical fever and other tragedies in distant seas led Americans to imagine each region as a distinct set of threats to their republic He also demonstrates how the concept of justification through self doubt allowed for aggressive expansionism and for the foundations of imperialism to develop Morrison reconsiders American ideas about the world through three questions How did British Americans imagine the world before independence allowed them to travel Eastward of Good Hope What were the signal encounters that filled the public sphere in their early years of global encounter And finally how did Americans contacts with other peoples inflect their ideas about the world and their place in it Written in a lively engaging style *Eastward of Good Hope* will appeal to scholars and the general public alike *The History of British Women's Writing, 1690 - 1750* R. Ballaster,2010-09-10 This volume charts the most significant changes for a literary history of women in a period that saw the beginnings of a discourse of enlightened feminism It reveals that women engaged in forms old and new seeking to shape and transform the culture of letters rather than simply reflect or respond to the work of their male contemporaries *Performing China* Chi-ming Yang,2011-11-01 China in the seventeenth and eighteenth centuries was a model of economic and political strength viewed by many as the greatest empire in the world While the importance of China to eighteenth century English consumer culture is well documented less so is its influence on English values Through a careful study of the literature drama philosophy and material culture of the period this book articulates how Chinese culture influenced English ideas about virtue Discourses of virtue were significantly shaped by the intensified trade with the East Indies Chi ming Yang focuses on key forms of virtue heroism sincerity piety moderation sensibility and patriotism whose meanings and social importance developed in the changing economic climate of the period She highlights the ways in which English understandings of Eastern values transformed these morals The book is organized by type of performance theatrical ethnographic and literary and by performances of gender identity fraud and religious conversion In her analysis of these works Yang brings to light surprising connections between figures as disparate as Confucius and a Chinese Amazon and between cultural norms as far removed as Hindu reincarnation and London coffeehouse culture Part of a new wave of cross disciplinary scholarship where Chinese studies meets the British eighteenth century this novel work will appeal to scholars in a number of fields including performance studies East Asian studies British literature cultural history gender studies and postcolonial studies *Novel Cleopatras* Nicole Horejsi,2019-03-20 Advocating a revised history of the eighteenth century novel *Novel Cleopatras* showcases the novel s origins in ancient mythology its relation to epic narrative and its connection to neoclassical print culture *Novel Cleopatras* also rewrites the essential role of women writers in history who were typically underestimated as active participants of neoclassical culture often excluded from the same schools that taught their brothers Greek and Latin However as author Nicole Horejsi reveals a number of exceptional middle class women were actually serious students of the classics In order to dismiss the idea that women were completely marginalized as neoclassical writers Horejsi takes up the character of Dido from ancient Greek mythology and her

real life counterpart Cleopatra the queen of Egypt Together the legendary Dido and historical Cleopatra serve as figures for the conflation of myth and history Horejsi contends that turning to the doomed queens who haunted the Roman imagination enabled eighteenth century novelists to seize the productive overlap among the categories of history romance the novel and even the epic

**Neoclassical Satire and the Romantic School 1780-1830** Rolf P. Lessenich, 2012 Romanticism was not only heterogeneous and disunited It also had to face the hostile counter movement of the Enlightenment and Augustan Neoclassicism still going strong at the time of and in the decades following the French Revolution due to support from the ruling Establishment the ancien regime of the Crown and Church of England Neoclassicists regarded Romanticism as a heteretical amalgam of dissenting new schools which threatened the monopoly of the Classical Tradition The acrimonious debates in aesthetics and politics were conducted with the traditional strategies of the classical *ars disputandi* on both sides Under the duress of the heaviest satirical attacks Romanticism began gradually to see itself as one movement giving rise to the problematic opposition of Classical and Romantic The construction of this rough divide however was indispensable for the clarification of different positions in the hubbub of conflicting voices and has also proved critical in literary and cultural studies which cannot do without such subsumptions The Classical Tradition encompassing Christianity emerges as an ongoing event from Greek and Latin antiquity running through to our time

**The Ottoman Turks in English Heroic Plays** Işıl Şahin Güler, 2019-12-02 Contesting the argument that Restoration period drama referred almost exclusively to domestic social and political issues this text interrogates the extent to which seventeenth century heroic plays justify and perpetuate stereotypical representations of the Ottoman Turks in Western discourse It provides a comprehensive account of representation of the Other based on difference Joining historical discussions ranging from the Ottoman Empire's rise as a world power to the development of British imperial ideology the book asserts that dramatic texts and production provide a rich and unexamined archive in which the issues of representation difference and cultural stereotyping are attendant on the emergence of imperial figure largely This account not only deciphers representation of the Ottoman Turks based on simplification and stereotyping in dramatic representations but also throws light on the most pressing political issues of seventeenth century England including revolution regicide and restoration dramatized in the guise of the Ottoman Turks and Ottoman history The book's attention to the Ottoman related themes of a number of plays decisively redraws the map of Restoration drama
