femininity and fashion and its place in twentieth century social history Using a rich variety of sources from women s magazines and film to social surveys and life histories Carol Dyhouse examines with wit and insight the history and meaning of costume cosmetics perfume and fur Dyhouse disentangles some of the arguments surrounding femininity appearance and power directly addressing feminist concerns The book explores historical contexts in which glamour served as an expression of desire in women and an assertion of entitlement to the pleasures of affluence finally arguing that glamour can t simply be dismissed as oppressive or as male fantasy but can carry celebratory meanings for women
