William Leap, Tom Boellstorff

El Hombre Sexual The Sexual Man:

Hermaphroditism, Medical Science and Sexual Identity in Spain, 1850-1960 Richard Cleminson, Francisco Vázquez García, 2009-10-31 This is the first book in English to analyse the medical category of hermaphroditism in Spain over the period 1850-1960. It attempts to show how the relationship between the male and female body, biological sex, gender and sexuality constantly changed in the light of emerging medical, legal and social influences. Tracing the evolution of the hermaphrodite from its association with the marvellous to the association with intersexuality and transexuality, this book emphasizes how the frameworks employed by scientists and doctors reflected not only changing international paradigms with respect to hermaphrodite science but also social anxieties about shifting gender roles, the evolving discourse on sexuality and in particular the increased visibility of the sexual deviancies such as homosexuality and changing legislation on marriage and divorce. Finally, we hope to open a space whereby the voice of hermaphrodites and intersexuals themselves could be heard in the past as agents in the construction of their own destiny as figures deemed in between by medicine and society. [Sex and Society in Early Twentieth-century Spain](#) Alison Sinclair, 2007 Examines issues of sex and society in early twentieth century Spain using a specific case history, namely that of Hildegart Rodríguez, 1914-1933, who came to be one of the central players in the Spanish chapter of the World League for Sexual Reform (WLSR) and made famous by her dramatic demise when murdered by her mother.

Hombres Y Machos Alfredo Mirande, 2018-02-12 Although patriarchy, machismo and excessive masculine displays are assumed to be prevalent among Latinos in general and Mexicans in particular, little is known about Latino men or macho masculinity. *Hombres y Machos: Masculinity and Latino Culture* fills an important void by providing an integrated view of Latino men, masculinity and fatherhood in the process of refuting many common myths and misconceptions. Examining how Latino men view themselves, Alfredo Miranda argues that prevailing conceptions of men, masculinity and gender are inadequate because they are based not on universal norms but on limited and culturally specific conceptions. Findings are presented from in-depth personal interviews with Latino men, specifically fathers with at least one child between the ages of four and eighteen, living at home from four geographical regions and from a broad cross section of the Latino population, working and middle class, foreign born and native born. Topics range from views on machos and machismo to beliefs regarding masculinity and fatherhood. In addition to reporting research findings and placing them within a historical context, Miranda draws important insights from his own life. *Hombres y Machos* calls for the development of Chicano/Latino men's studies and will be a significant and provocative addition to the growing literature on gender, masculinity and race. It will appeal to the general reader and is bound to be an important supplementary text for courses in ethnic studies, women's studies, men's studies, family studies, sociology, psychology, social work and law.

If You Seduce a Straight Person, Can You Make Them Gay? John Dececco, PhD, John Patrick Elia, 2014-05-01 The debate on whether or not people are born homosexual biological essentialist theory or become homosexual during the course of their lives social constructionist theory continues as each side claims to prove the truth through research and clinical findings This breakthrough book shows the fissures in concepts of the gay and lesbian identity and the one sidedness of both biological essentialist and social constructionist versions of both sexual and gender identity The editors present an alternative view sexual and gender expression is a product of complementary biological personal and cultural influences in *If You Seduce a Straight Person Can You Make Them Gay* Through theoretical analysis ethnographic and empirical data and case studies the editors show how the one sidedness of both biological essentialist and social constructionist versions of sexual and gender identity make it difficult if not impossible to conceptually determine the origin of an individual's sexual expression This thought provoking book covers many topics that are sure to cause readers to re evaluate their thinking about the origins of gay and lesbian identity Among the topics examined with this fresh perspective are Childhood Cross Gender Behavior and Adult Homosexuality Gay and Lesbian Teachers and Coming Out Homosexuality Marriage Fidelity and the Gay Community Case of Gay Husbands Can Seduction Make Straight Men Gay Gay and Lesbian Identities in Non industrialized Societies Surinam Dutch New Guinea Turkey Nicaragua and Argentina Political Economic Construction of Gay Male Identities Readers will clearly see that the controversy over the being born gay or becoming gay debate is far from resolved From the beginning the book explores how human beings are less constrained by biology than many would like to believe Social circumstances and economics cause some determination of identity but not exclusively Theoretical introductions to each chapter attempt to synthesize elements on both sides of this most contemporary debate

Masculinity and Queer Desire in Spanish Enlightenment Literature Mehl Allan Penrose, 2016-05-06 In *Masculinity and Queer Desire in Spanish Enlightenment Literature* Mehl Allan Penrose examines three distinct male figures each of which was represented as the Other in eighteenth and early nineteenth century Spanish literature The most common configuration of non normative men was the petimetre an effeminate Francophile male who figured a failed masculinity a dubious sexuality and an invasive French cultural presence Also inscribed within cultural discourse were the bujarr n or sodomite who participates in sexual relations with men and the Arcadian shepherd who expresses his desire for other males and who takes on agency as the voice of homoerotica Analyzing journalistic essays poetry and drama Penrose shows that Spanish authors employed queer images of men to engage debates about how males should appear speak and behave and whom they should love in order to be considered real Spaniards Penrose interrogates works by a wide range of writers including Luis Ca uelo Ram n de la Cruz and F lix Mar a de Samaniego arguing that the tropes created by these authors solidified the gender and sexual binary and defined and described what a queer man was in the Spanish collective imaginary *Masculinity and Queer Desire* engages with current cultural historical and theoretical scholarship to propose the notion that the idea of queerness in gender and sexuality based on identifiable criteria started in Spain long before the medical concept of the homosexual was created around 1870
