La ciencia y los científicos Rubén Ardila Ardila, 2005 Psicología de la fantasía I. M. Rozet, 1981-04-03. La autora trata de determinar en esta obra el conjunto de fenómenos que constituyen la base de la fantasía entendiendo que este término se refiere a cualquier actividad mental productiva con independencia de cuál sea la esfera de su aplicación de los fines que persiga el sujeto que realiza esta actividad o del material que utilice. Constituye por tanto este libro un material de primera clase para los docentes de cualquier rama ya que en él se analizan también aspectos referidos a la técnica o las relaciones humanas.

New World Literacy Carlos Alberto González Sánchez, 2011-04-07. This book on the role of written and iconographic communication in the Atlantic World combines a broad outlook geographically and chronologically with the precise treatment of specific evidence extracted from the sources. The author argues that diatribes against chivalric fiction and the Index of Prohibited Books did not prevent proscribed literature from circulating freely on both sides of the Atlantic. On the contrary, he notes such prohibitions may have increased the lure of certain books. A description of the process of registering and inspecting ships in Seville and upon reaching their destinations highlights opportunities for contraband smuggling, fraud and the corruption of officials entrusted with regulating the trade. Within the prominent spiritual genre the author documents a shift from Erasmian to Tridentine thinking. The registers analyzed also suggest the growing popularity of literary works by Cervantes, Mateo Alemán and Lope de Vega. It opens a fascinating window onto the book trade in the Americas. Different forms of participation in this culture included the use of books as fetishes and the possession of printed devotional images. The analysis of books as well as printed images supports larger contentions about their role as agents of evangelization and westernization. This book certainly opens up new worlds on the impact of books and images in the Atlantic World.
