### **From New Day To New Deal American Farm Policy From Hoover To Roosevelt 1928 1933:**

**From New Day to New Deal** David E. Hamilton, 1991 Hamilton examines the farm problem of the 1920s and 1930s focusing on how the Hoover administration and the early New Deal responded to the farm crisis of the Great Depression and to the debate over a long range farm policy He argues that Hoover s farm plan failed because of the inherent flaws and limitations of Hoover s associational prescriptions and his simplistic conceptions about agriculture Originally published 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

**From New Day to New Deal** David E. Hamilton, 1991 Hamilton history U of Kentucky argues that the farm policies of both Hoover and Roosevelt in the 1920 s and 1930 s were attempting to create cooperative self governing and planning institutions for agriculture that Hoover s was defeated by the depression and his own simplistic misconceptions and that Roosevelt s came closer but still failed Annotation copyrighted by Book News Inc Portland OR

**The FDR Years** William D. Pederson, 2009 Born in 1882 in New York Franklin Delano Roosevelt entered public service through the encouragement of the Democratic Party and won the election to the New York Senate in 1910 This book details his administration at the height of the Great Depression as he valiantly led the nation with the phrase The only thing we have to fear is fear itself

*The Fruits of Natural Advantage* Steven Stoll, 1998-11-01 The once arid valleys and isolated coastal plains of California are today the center of fruit production in the United States Steven Stoll explains how a class of capitalist farmers made California the nation s leading producer of fruit and created the first industrial countryside in America This brilliant portrayal of California from 1880 to 1930 traces the origins evolution and implications of the fruit industry while providing a window through which to view the entire history of California Stoll shows how California growers assembled chemicals corporations and political influence to bring the most perishable products from the most distant state to the great urban markets of North America But what began as a compromise between a beneficent environment and intensive cultivation ultimately became threatening to the soil and exploitative of the people who worked it Invoking history economics sociology agriculture and environmental studies Stoll traces the often tragic repercussions of fruit farming and shows how central this story is to the development of the industrial countryside in the twentieth century

**Delta Empire** Jeannie Whayne, 2011-12-05 In Delta Empire Lee Wilson and the Transformation of Agriculture in the New South Jeannie Whayne employs the fascinating history of a powerful plantation owner in the Arkansas delta to recount the evolution of southern agriculture from the late nineteenth century through World War II After his father s death in 1870 Robert E Lee Wilson inherited 400 acres of land in Mississippi County Arkansas Over his lifetime he transformed that inheritance into a 50 000 acre lumber operation and cotton plantation Early on Wilson saw an opportunity in the swampy local terrain which sold for as little as fifty cents an acre to satisfy an

expanding national market for Arkansas forest reserves He also led the fundamental transformation of the landscape involving the drainage of tens of thousands of acres of land in order to create the vast agricultural empire he envisioned A consummate manager Wilson employed the tenancy and sharecropping system to his advantage while earning a reputation for fair treatment of laborers a reputation Wayne suggests not entirely deserved He cultivated a cadre of relatives and employees from whom he expected absolute devotion Leveraging every asset during his life and often deeply in debt Wilson saved his company from bankruptcy several times leaving it to the next generation to successfully steer the business through the challenges of the 1930s and World War II Delta Empire traces the transition from the labor intensive sharecropping and tenancy system to the capital intensive neo plantations of the post World War II era to the portfolio plantation model Through Wilson s story Wayne provides a compelling case study of strategic innovation and the changing economy of the South in the late nineteenth century

*The Politics of Food Supply* Bill Winders,2009-05-26 This book deals with an important and timely issue the political and economic forces that have shaped agricultural policies in the United States during the past eighty years It explores the complex interactions of class market and state as they have affected the formulation and application of agricultural policy decisions since the New Deal showing how divisions and coalitions within Southern Corn Belt and Wheat Belt agriculture were central to the ebb and flow of price supports and production controls In addition the book highlights the roles played by the world economy the civil rights movement and existing national policy to provide an invaluable analysis of past and recent trends in supply management policy

*Empowering the West* Jay L. Brigham,1998 Westerners were at the forefront of the debate over electric power development even before the construction of large federally owned dams in the 1930s At the heart of this debate was a conflict between public power advocates and the private utility industry over control of the environment a struggle that was played out in the political arena In this book Jay Brigham describes that rivalry in the West in the years before the New Deal Focusing on the conservative city of Los Angeles and its liberal counterpart Seattle as well as on several small towns in the Midwest Brigham shows how fierce battles broke out as private and public systems competed for customers and how despite the differences between these two cities public power ultimately triumphed in each

**The Technological Fix** Lisa Rosner, 2013-02-01. The term technological fix should mean a fix provided by technology, a solution for all of our problems, from medicine and food production to the environment and business. Instead, technological fix has come to mean a cheap, quick fix using inappropriate technology that usually creates more problems than it solves. This collection sets out the distinction between a technological fix and a true technological solution. Bringing together scholars from a variety of disciplines, the essays trace the technological fix as it has appeared throughout the twentieth century. Addressing such fixes as artificial hearts, industrial agriculture, and climate engineering, these essays examine our need to turn to technology for solutions to all of our problems.

**Interpreting Science at Museums and Historic Sites** Debra A. Reid, Karen-Beth G. Scholthof, David D. Vail, 2023-09-11. Ask not what science can do for you, but what public history can do for science. Interpreting Science in Museums and Historic Sites stresses the untapped potential of historical artifacts to inform our understanding of scientific topics. It argues that science gains ground when contextualized in museums and historic sites. Engaging audiences in conversations about hot topics such as health and medical sciences or climate change, and responses to it mediated by a history museum, can emphasize scientific rigor and the time lag between discovery and confirmation of societal benefit. Interpreting Science emphasizes the urgency of this work, provides a toolkit to start and sustain the work, shares case studies that model best practice, and resources useful to facilitate and sustain a science-infused public history.

**The Dead Pledge** Judge Earl Glock, 2021-04-06. The American government today supports a financial system based on mortgage lending, and it often bails out the financial institutions making these mortgages. The Dead Pledge reveals the surprising origins of American mortgages and American bailouts in policies dating back to the early twentieth century. Judge Glock shows that the federal government began subsidizing mortgages in order to help lagging sectors of the economy, such as farming and construction. In order to encourage mortgage lending, the government also extended unprecedented assistance to banks. During the Great Depression, the federal government made new mortgage lending and bank bailouts the centerpiece of its recovery program. Both the Herbert Hoover and Franklin Roosevelt administrations created semipublic financial institutions, such as Fannie Mae, to provide cheap, tradable mortgages, and they extended guarantees to more banks and financiers. Ultimately, Glock argues, the desire to protect the financial system took

precedence over the desire to help lagging parts of the economy and the government became ever more tied into the financial world The Dead Pledge recasts twentieth century economic financial and political history and demonstrates why the greatest safety net created in this era was the one supporting finance      **Hoover, Conservation, and Consumerism** Kendrick A. Clements,2000 To some extent Hoover s policies anticipated directions that would be pursued by modern environmentalists The National Conference on Outdoor Recreation brought together wilderness advocates and urban planners and passage of the first federal law to limit oil pollution in navigable waters marked the beginning of an ongoing effort to control the effects of industrialization on the environment Hoover s advocacy of pleasant affordable housing introduced the idea that our everyday environment is the starting point for environmental concerns BOOK JACKET

Regulation and the Revolution in United States Farm Productivity Sally H. Clarke,2002-07-25 This book explains how US government activity in the 1930s led to gains in farm productivity      **The Rise of the Public Authority** Gail Radford,2024-05-31 In the late nineteenth century public officials throughout the United States began to experiment with new methods of managing their local economies and meeting the infrastructure needs of a newly urban industrial nation Stymied by legal and financial barriers they created a new class of quasi public agencies called public authorities Today these entities operate at all levels of government and range from tiny operations like the Springfield Parking Authority in Massachusetts which runs thirteen parking lots and garages to mammoth enterprises like the Tennessee Valley Authority with nearly twelve billion dollars in revenues each year In The Rise of the Public Authority Gail Radford recounts the history of these inscrutable agencies examining how and why they were established the varied forms they have taken and how these pervasive but elusive mechanisms have molded our economy and politics over the past hundred years
