Hart, 2019-01-14 Fourteen essays examining the dynamics of trust and mistrust in Jewish history from biblical times to today What if anything does religion have to do with how reliable we perceive one another to be When and how did religious difference matter in the past when it came to trusting the word of another In today's world we take for granted that being Jewish should not matter when it comes to acting or engaging in the public realm but this was not always the case The essays in this volume look at how and when Jews were recognized as reliable and trustworthy in the areas of jurisprudence medicine politics academia culture business and finance As they explore issues of trust and mistrust the authors reveal how caricatures of Jews move through religious political and legal systems While the volume is framed as an

exploration of Jewish and Christian relations it grapples with perceptions of Jews and Jewishness from the biblical period to today from the Middle East to North America and in Ashkenazi and Sephardi traditions Taken together these essays reflect on the mechanics of trust and sometimes mistrust in everyday interactions involving Jews Highly readable and compelling this volume marks a broadly significant contribution to Jewish studies through the underexplored dynamic of trust Rebekah Klein Pej ov author of *Mapping Jewish Loyalties in Interwar Slovakia* An exemplary compendium on how to engage with a major concept trust while providing load of gripping new information new theorization of otherwise well covered material and meticulous attention to textual and sociological sources Gil Anidjar author of *Blood A Critique of Christianity* *The Accidental Sales Manager* Suzanne Paling,2010-10-01 Do you tackle several different roles including sales manager Does managing the sales team feel awkward Do you want to achieve better sales results If you answered YES then you face the same struggle as many other small business owners you can successfully manage the rest of the company but when it comes to the sales team you feel like your efforts are coming up short Suzanne Paling sales management consultant urges you to stop struggling and teaches you what you need to know to start succeeding **Roads Taken** Hasia R. Diner,2015-01-01 Between the late 1700s and the 1920s nearly one third of the world s Jews emigrated to new lands Crossing borders and often oceans they followed paths paved by intrepid peddlers who preceded them This book is the first to tell the remarkable story of the Jewish men who put packs on their backs and traveled forth house to house farm to farm mining camp to mining camp to sell their goods to peoples across the world Persistent and resourceful these peddlers propelled a mass migration of Jewish families out of central and eastern Europe north Africa and the Ottoman Empire to destinations as far flung as the United States Great Britain South Africa and Latin America Hasia Diner tells the story of millions of discontented young Jewish men who sought opportunity abroad leaving parents wives and sweethearts behind Wherever they went they learned unfamiliar languages and customs endured loneliness battled the elements and proffered goods from the metropolis to people of the hinterlands In the Irish Midlands the Adirondacks of New York the mining camps of New South Wales and so many other places these traveling men brought change to themselves and the families who later followed to the women whose homes and communities they entered and ultimately to the geography of Jewish history Fables Of Abundance Jackson Lears,1995-11-03 Fables of Abundance ranges from the traveling peddlers of early modern Europe to the twentieth century American corporation exploring the ways that advertising collaborated with other cultural institutions to produce the dominant aspirations and anxieties in the modern United States **Advertising Progress** Pamela Walker Laird,2020-01-15 Selected by Choice Magazine as an Outstanding Academic Title Originally published in 1998 Drawing on both documentary and pictorial evidence Pamela Walker Laird explores the modernization of American advertising to 1920 She links its rise and transformation to changes that affected American society and business alike including the rise of professional specialization and the communications revolution that new technologies made possible Laird finds a fundamental shift in the kinds of

people who created advertisements and their relationships to the firms that advertised Advertising evolved from the work of informing customers telling people what manufacturers had to sell to creating consumers persuading people that they needed to buy Through this story Laird shows how and why in the intense competitions for both markets and cultural authority the creators of advertisements laid claim to progress and used it to legitimate their places in American business and culture *100 Years on the Road* Timothy B. Mama Learned Us to Work Lu Ann Jones, 2003-10-16 Farm women of the twentieth century South have been portrayed as oppressed worn out and isolated Lu Ann Jones tells quite a different story in *Mama Learned Us to Work* Building upon evocative oral histories she encourages us to understand these women as consumers producers and agents of economic and cultural change As consumers farm women bargained with peddlers at their backdoors A key business for many farm women was the butter and egg trade small scale dairying and raising chickens Their earnings provided a crucial margin of economic safety for many families during the 1920s and 1930s and offered women some independence from their men folks These innovative women showed that poultry production paid off and laid the foundation for the agribusiness poultry industry that emerged after World War II Jones also examines the relationships between farm women and home demonstration agents and the effect of government sponsored rural reform She discusses the professional culture that developed among white agents as they reconciled new and old ideas about women's roles and shows that black agents despite prejudice linked their clients to valuable government resources and gave new meanings to traditions of self help mutual aid and racial uplift

Zboray, Mary Saracino Zboray, 2013-10-08 Prior to the Civil War publishing in America underwent a transformation from a genteel artisan trade supported by civic patronage and religious groups to a thriving cut throat national industry propelled by profit *Literary Dollars and Social Sense* represents an important chapter in the historical experience of print culture it illuminates the phenomenon of amateur writing and delineates the access points of the emerging mass market for print for distributors consumers and writers It challenges the conventional assumptions that the literary public had little trouble embracing the new literary marketing that emerged at mid century The book uncover the tensions that author's faced between literature's role in the traditional moral economy and the lure of literary dollars for personal gain and fame This book marks an important example in how scholars understand and conduct research in American literature

Virtualism James G. Carrier, Daniel Miller, 2020-08-25 We live in a time of economic virtualism whereby our lives are made to conform to the virtual reality of economic thought Globalization transnational capitalism structural adjustment programmes and the decay of welfare are all signs of the growing power of economics one of the most potent forces of recent decades In the last thirty years economics has ceased to be just an academic discipline concerned with the study of economy and has come to be the only legitimate way to think about all aspects of society and how we order our lives Economic models are no longer measured against the world they seek to describe but instead the world is measured against them found wanting and made to conform This profound and dangerous change in the power of abstract economics to shape the lives of people in rich and poor countries alike is the subject of this interdisciplinary study Contributors show how economics has come to portray a virtual reality a world that seems real but is

merely a reflection of a neo classical model and how governments the World Bank and the IMF combine to stamp the world with a virtual image that condemns as irrational our local social and cultural arrangements Further it is argued that virtualism represents the worrying emergence of new forms of abstraction in the political economy of which economics is just one example *Fires, Floods, Explosions, and Bloodshed* Andrew Braunberg,2025-09-17 When Americans settled Texas in the 1830s they brought their booze with them and found some made by the locals when they got here Before long the Lone Star State had a thriving distillery business more than a century ahead of modern craft distillers that are changing the face of the spirits industry today This is a fascinating history filled all too frequently with floods fires explosions and lots of bad luck Had the development of Texas happened a little differently the state might have well become a major whiskey producer intertwined with barbed wire refrigeration cattle railways oil and cooperage all coming into play Texas distilling is older than both the American and Texan Republics but the history of transforming grains into whiskey in Texas goes back to at least the early 1840s No spirit is more associated with the state s frontier history than American whiskey But even during its wildest days there was a vocal prohibitionist element in Texas that was working to outlaw distilleries and more importantly close the saloons Texas distillers also made liquor for the Confederate war effort and operations in Tyler and near present day Denison played an often overlooked role in supporting the troops in the field with medicinal whiskey After the war home grown Texas whiskey found a market and seemed destined to takes its place among the great American spirits of its day **White Collar Workers in America, 1890-1940** Jürgen Kocka,1980 **For Shade and for Comfort** Cheryl Lyon-Jenness,2004 Between 1850 and 1880 Americans of all ranks and circumstances planted shade trees cultivated flower gardens and established lawns with a new found enthusiasm that both astonished and delighted horticultural advocates For Shade and For Comfort explores this unprecedented burst of horticultural interest and documents its influence on Midwestern domestic landscapes Drawing upon a wide range of largely unexplored resources including lithographic images of farm village and city homes agricultural society records nursery and seed catalogues and the diaries and letters of local residents this innovative study examines how advocates encouraged ornamental plant interest and then considers the significance of trees and flowers for their mid nineteenth century promoters and for the people who planted and nurtured them From these diverse perspectives ornamental plants emerge as densely layered cultural symbols offering not only a very real touch of shade or beauty but for many a sense of security and comfort amidst a rapidly changing American society With its careful portrayal of actual ornamental plant use its examination of nineteenth century horticultural advice literature and the nursery and seed trades and its insightful analysis of the meanings attached to shade trees and flower gardens For Shade and For Comfort will appeal to rural cultural and environmental historians historians of the Midwest historic preservationists and those who simply love horticulture and gardening
