FROM SITE TO SIGHT, 1986 **From Site to Sight** Melissa Banta, Curtis M. Hinsley, Joan Kathryn O'Donnell, 2017

From Site to Sight is a foundational text for scholars and students of visual anthropology illustrating the history uses and misuses of photographic imagery in anthropology and archaeology Long out of print this classic publication is now available in an enhanced thirtieth anniversary edition with a new introductory essay by Ira Jacknis **From Site to Sight** Melissa Banta, Curtis M. Hinsley, Joan Kathryn O'Donnell, Peabody Museum of Archaeology and Ethnology, 1986 *Picturing a Colonial Past* Isaac Schapera, 2007-06-30 Publisher Description **Colonialist Photography** Eleanor M. Hight, Gary D. Sampson, 2013-06-17 Colonialist Photography is an absorbing collection of essays and photographs exploring the relationship between photography and European and American colonialism The book is packed with well over a hundred captivating images ranging from the first experiments with photography as a documentary medium up to the decolonization of many regions after World War II Reinforcing a broad range of Western assumptions and prejudices Eleanor M Hight and Gary D Sampson argue that such images often assisted in the construction of a colonial culture [Anthropological Resources](#) Lee S. Dutton, 2013-05-13 This work provides access to information on the rich and often little known legacy of anthropological scholarship preserved in a diversity of archives libraries and museums Selected anthropological manuscripts papers fieldnotes site reports photographs and sound recordings in more than 150 repositories are described Coverage of resources in North American repositories is extensive while Great Britain France the Netherlands Australia and certain other countries are more selectively represented Entries are arranged by repository location and most contributors draw upon a special knowledge of the resources described Contributors include James R Glenn National Anthropological Archives Elizabeth Edwards and Veronica Lawrence Pitt Rivers Museum University of Oxford Francisco Demetrio S J Museum and Archives Xavier University Philippines and many others The guide covers selected documentation in social and cultural anthropology physical anthropology archaeology and folklore Some major area studies collections such as the Asia Collections Cornell University Libraries and the Melanesian Archive at the University of California San Diego are also represented Web URLs have been cited when available and personal and ethnic name indexes are provided **Viewpoints** Mary Strong, Laena Wilder, 2013-05-01 Early in its history anthropology was a visual as well as verbal discipline But as time passed visually oriented professionals became a minority among their colleagues and most anthropologists used written words rather than audiovisual modes as their professional means of communication Today however contemporary electronic and interactive media once more place visual anthropologists and anthropologically oriented artists within the mainstream Digital media small sized and easy to use equipment and the Internet with its interactive and public forum websites democratize roles once relegated to highly trained professionals alone However having access to a good set of tools does not guarantee accurate and reliable work Visual anthropology involves much more than media alone This book presents visual anthropology as a work in

progress open to the myriad innovations that the new audiovisual communications technologies bring to the field It is intended to aid in contextualizing explaining and humanizing the storehouse of visual knowledge that university students and general readers now encounter and to help inform them about how these new media tools can be used for intellectually and socially beneficial purposes Concentrating on documentary photography and ethnographic film as well as lesser known areas of study and presentation including dance painting architecture archaeology and primate research the book s fifteen contributors feature populations living on all of the world s continents as well as within the United States The final chapter gives readers practical advice about how to use the most current digital and interactive technologies to present research findings

Presenting America's World Tamar Y. Rothenberg,2016-12-05 National Geographic magazine is probably the most visible and popular expression of geography in the USA Presenting America s World presents a critical analysis of the world portrayed by National Geographic from its formative years in the nineteenth century through to 1945 It situates the National Geographic Society s development within the context of a new American overseas expansionism interrogates the magazine as America s ubiquitous source of wholesome exotica and erotica examines the ways in which it framed the world for its millions of readers and questions its participation in the cultural work of US global hegemony The book argues that National Geographic successfully employed strategies of innocence a contradictory stance of representation which simultaneously asserts innocence either the innocence of just watching or the innocence of altruistic behaviour while naturalizing Western hegemony Presenting America s World not only considers the world that National Geographic presented to its readers but also examines the magazine s own institutional world of writers photographers and editors Particular attention is paid to Gilbert H Grosvenor the magazine s editor for over 50 years Maynard Owen Williams a writer and photographer who worked on nearly 100 articles from 1919 to 1960 and Harriet Chalmers Adams a freelancer explorer and Pan American activist who contributed 21 articles

Displacing Caravaggio Francesco Zucconi,2018-10-17 This book takes its start from a series of attempts to use Caravaggio s works for contemporary humanitarian communications How did his Sleeping Cupid 1608 end up on the island of Lampedusa at the heart of the Mediterranean migrant crisis And why was his painting The Seven Works of Mercy 1607 requested for display at a number of humanitarian public events After critical reflection on these significant transfers of Caravaggio s work Francesco Zucconi takes Baroque art as a point of departure to guide readers through some of the most haunting and compelling images of our time Each chapter analyzes a different form of media and explores a problem that ties together art history and humanitarian communications from Caravaggio s attempt to represent life itself as a subject of painting to the way bodies and emotions are presented in NGO campaigns What emerges from this probing inquiry at the intersection of art theory media studies and political philosophy is an original critical path in humanitarian visual culture

The Fragmentary City Andrew M. Gardner,2024-05-15 As Andrew M Gardner explains in The Fragmentary City in Qatar and elsewhere on the Arabian Peninsula nearly nine out of every ten residents are foreign noncitizens Many of these foreigners reside in the cities that have arisen in Qatar and neighboring states The book provides an overview of the gulf migration system with its diverse migrant experiences Gardner focuses on the ways that demography and global mobility have shaped the city of Doha and the urban characteristics of the Arabian Peninsula in general Building on those migrant experiences the book turns to the spatial politics of the modern Arabian city exploring who is placed where in the city and how this social landscape came into historical existence The author reflects on what we might learn from these cities and the societies that inhabit them In The Fragmentary City Andrew M Gardner frames the contemporary cities of the Arabian Peninsula not as poor imitations of Western urban modernity but instead as cities on the frontiers of a global neoliberal and increasingly urban future

Mennonites in Texas Laura L. Camden,Susan Gaetz Duarte,2006-09-22 With their distinctive head coverings plain dress and quiet unassuming demeanor the Mennonites are a distinctive presence within the often flamboyant and proud people of Texas If you have seen them at a gas station in a grocery store or even at the Dallas Fort Worth airport you have probably taken note and wondered how they came to be there In this photographic tour of two Texas Mennonite communities separated by almost 450 miles Laura L Camden and Susan Gaetz Duarte introduce you to the Beachy Amish Mennonites of Lott a small community of approximately 160 people in Central Texas and the very different Mennonites of Seminole a West Texas farming community of more than five thousand residents and five separate congregations several of which still speak the Mennonite Low German Spending more than a year getting to know the families participating in day to day activities and photographing the unique culture of the communities Camden and Gaetz Duarte developed deep insight into not just the religious beliefs but the family relationships role expectations and daily routines of these people Through their camera lenses they offer others a touchingly intimate view of a unique lifestyle seldom experienced by outsiders In a foreword former governor Ann Richards identifies the book as part of both the long photographic tradition in Texas and the tradition of cultural and religious diversity in the state Mark L Loudens introduction provides the historical backgrounds of Mennonites in Europe their core beliefs and their development into branches in North America Dennis Carlyle Darling offers insightful comments on the photography that allows an intimate respectful view of the people their lifestyle and their culture

In the Forest Vishvajit Pandya,2009-04-16 There are always at least two histories of encounter or contact as each party would tell the story differently but where and when is it really the first contact and for whom This book deploys an analytical framework developed from Semiotics to have both sides of the story address each other It is ethnography of dialogue emerging from textual representation by outsiders and its relationship to visual response and presentations by the Andaman

Islanders that this book aims to present as the critical ethnography of history The section on Visuality looks at how the Other is incorporated into an organized knowledge system including Ongee myths and songs about outsiders and the early photographs of tribal people by British settlers and ethnographers The section on Materiality concerns the investment in things made to influence natural processes or to distinguish the human body and discusses how they are transacted between cultures that come into contact The concluding section on history addresses encounters and developments in which the experiences of both tribal and settler are implicated more thoroughly than in the transaction of objects Thus juxtaposing alternative perspectives on change indicates areas of experience unaccounted for in the dominant discourse and shows the provisionality of images
