

Publishers' Note

This is the authentic Report of the Kargil Review Committee with minor deletions made by the Government in the interest of national security and as tabled in Parliament. The Annexures and Appendices, cited in the Report, are not included here for the same reason.

The Publishers have not edited the Report and the original one has been retained as it is. The Publishers have added an index for the facility of the reader though the same was not a part of the original report. The front and back covers of the book have also been redesigned by the Publishers. The book cloth is taken largely from Chapter I of the Report.

From Surprise To Reckoning Kargil Review Committee, 2000-07-27 This important document is the only authentic account of the Kargil War Against the backdrop of the prolonged and heated public debate on different facets of the conflict the Union Cabinet constituted a committee to look into this episode The Committee s mandate was not to conduct an inquiry but to examine the sequence of events and make recommendations for the future This report will interest any serious reader as also those working in the fields of international relations strategic and defence studies and history *The Absent Dialogue* Anit Mukherjee, 2020 In *The Absent Dialogue* Anit Mukherjee examines the relations between politicians bureaucrats and the military in India and argues that the pattern of civil military relations in India hampers the effectiveness of the Indian military Informed by more than a hundred and fifty interviews with high ranking officials as well as archival material this book sheds new light on both India s political and military history as well as democratic civilian control and military effectiveness more generally

Internal Security in India Amit Ahuja, Devesh Kapur, 2023-01-20 In *Internal Security in India* Amit Ahuja Devesh Kapur and a cast of leading scholars on the subject focus on India s security and the threats it faces including insurgencies terrorist attacks caste and communal violence riots and electoral violence As the contributors in this volume analyze how the Indian State has managed the core concern of internal security over time they address these questions How well has India controlled violence and preserved order How have the approaches and capacity of the State evolved to attain these twin objectives And what implications do the State s approach towards internal security have for civil liberties and the quality of democracy

In Hard Times Manoj Joshi, Nishtha Gautam, Praveen Swami, 2022-11-28 Since the mid 1990s Indian thinking on national security has been based on the assumption that the country would progress on a growth trajectory sufficient to modernise its defence capacities and thereby enable some form of parity with a rising China The reality has been otherwise China s spectacular growth and accompanying military modernisation has hugely outpaced that of India while the Indian military modernisation has moved fitfully In the past several years budgets have committed less than 2 per cent of GDP the lowest levels since the war of 1962 for the military Even if spending were to rise to 3 per cent little funding would be available for modernisation after allowing for rising pensions salaries and other components of the budget Put simply the authors state India needs a national security strategy for hard times It would be a strategy grounded in reality India s priority has to be the

raising of vast numbers of its people out of abject poverty even if the strategies of countries like China and the United States economically more developed can aim at being global powers

In Hard Times is an important collection that highlights the major challenges India confronts and the ways they can be tackled especially in the light of the upheavals caused by the COVID 19 pandemic Its contributors include former military officers including Admiral Arun Prakash and Lt Gen D S Hooda whose views have helped shape discussions on strategy as well as commentators such as Dr Sanjaya Baru Experience tells us that in war it is often the smarter side that wins not the stronger one These essays point us in that direction

The Making of India's Foreign Policy Jayantanuja Bandyopadhyaya, 2003

The Kashmir Question Sumit Ganguly, 2004-03-01 India which had been created as a civic polity initially sought to hold on to this Muslim majority state to demonstrate its secular credentials Pakistan in turn had laid claim to Kashmir because it had been created as the homeland for the Muslims of South Asia After the break up of Pakistan in 1971 the Pakistani irredentist claim to Kashmir lost substantial ground If Pakistan could not cohere on the basis of religion alone it had few moral claims on its co religionists in Kashmir Similarly in the 1980s as the practice of Indian secularism was eroded India's claim to Kashmir on the grounds of secularism largely came apart Today their respective claims to Kashmir are mostly on the basis of statecraft This title provides a comprehensive assessment of a number of different facets of the on going dispute over Kashmir between India and Pakistan Among other matters it examines the respective endgames of both states the evolution of American policy toward the dispute the dangers of nuclear escalation in the region and the state of the insurgency in the Indian controlled portion of the disputed state

The Making of Indian Diplomacy Deep K. Datta-Ray, 2015-05-21 Breaks from the argument that for Indians the moment of colonial liberation was a false one as the colonized had internalized European practices

Seeking the Bomb Vipin Narang, 2022-01-11 The first systematic look at the different strategies that states employ in their pursuit of nuclear weapons Much of the work on nuclear proliferation has focused on why states pursue nuclear weapons The question of how states pursue nuclear weapons has received little attention *Seeking the Bomb* is the first book to analyze this topic by examining which strategies of nuclear proliferation are available to aspirants why aspirants select one strategy over another and how this matters to international politics Looking at a wide range of nations from India and Japan to the Soviet Union and North Korea to Iraq and Iran Vipin Narang develops an original typology of proliferation strategies hedging sprinting sheltered pursuit and hiding Each strategy of proliferation provides different opportunities for the development of nuclear weapons while at the same time presenting distinct vulnerabilities that can be exploited to prevent states from doing so Narang delves into the crucial implications these strategies have for nuclear proliferation and international security Hiders for example are especially disruptive since either they successfully attain nuclear weapons irrevocably altering the global power structure or they are discovered potentially triggering serious crises or war as external powers try to halt or reverse a previously clandestine nuclear weapons program As the international community confronts the next generation of potential nuclear

proliferators Seeking the Bomb explores how global conflict and stability are shaped by the ruthlessly pragmatic ways states choose strategies of proliferation Psychological Warfare and India Dr Arunkumar Bhatt,2015-03-16 Wars are born in human mind Great military leaders belonging to all times and cultures have always tried to influence the minds of their foes and friends alike to facilitate their own victories by making their enemies hesitant The minds concerned could be influenced with a variety of overt and covert actions that send right signals to the target audiences In the words of Allied Supreme Commander of the World War II Gen Dwight Eisenhower these actions are anything from the singing of a beautiful anthem to the most extraordinary kind of physical sabotage This is Psychological Warfare and the most preferred action is communication Dr Arunkumar Bhatt who being a defence journalist knows nuances of communication and unfolds here this soft kill strategy and its tactics He traces the history of the psychological warfare to establish how steadily its importance has grown It became a war winning factor in the Great War and its role further expanded in the World War II The Psywar as it has come to be known among many names has not looked back since then The advances in science and technology revolution in communication and information technologies have greatly enhanced the range and effectiveness of the psychological warfare in terms of both time and space The Revolution in Military Affairs has been further sharpening the Psywar weapons Dedicated Psywar units and even commands backed by elements in formation staff are in the vogue The Psychological Warfare has now found a place among war by other means It is recognised as a command function and is factored in planning at all levels It is so important that the decision to deploy the psy weapons is taken at the top echelon of the high command and this is done much ahead of the breaking out of hostilities Where does India that has a poor strategic culture and still poorer awareness about its security stand vis vis Psywar Indian culture has instances of the Psywar It was being practised in the ancient period Kautilya recommends it strongly Different invaders used it The British practised it in an institutionalised fashion to rule India India did counter the British psywar but in a rather irregular way India used it successfully in some of the post independence wars but the country needs to do much more to protect itself against Psywar attacks and to use it effectively to enhance its own security in the present day multi threat scenario This is an attempt to table a calling attention motion before the nation *Indian Defence Review* Bharat Verma,2009-07-19 Indian Defence Review IDR is India s best known defense journal Over the year the journal has attained the most quoted status by defense and security analysts worldwide The journal offers an incisive analysis of defense and politico security affairs focused on Asia In addition to defense and security analyses each issue includes regular feature sections on aerospace trends naval affairs and army force developments including the latest arms transfers and news Indian Defence Review a quarterly journal is read by almost all leading policy makers at senior bureaucratic political and military levels Time and again the incisive analyses in the Indian Defence Review have helped form opinions and shape strategic responses on the subcontinent **Security, Strategy and Military Change in the 21st Century** Jo Inge Bekkevold,Ian Bowers,Michael Raska,2015-05-22 This edited

volume explores and analyses strategic thinking military reform and adaptation in an era of Asian growth European austerity and US rebalancing A significant shift in policy strategy and military affairs is underway in both Asia and Europe with the former gaining increasing prominence in the domain of global security At the same time the world s powers are now faced with an array of diverse challenges The resurgence of great power politics in both Europe and Asia along with the long term threats of terrorism piracy and sustained geopolitical instability has placed great strain on militaries and security institutions operating with constrained budgets and wary public support The volume covers a wide range of case studies including the transformation of China s military in the 21st century the internal and external challenges facing India Russia s military modernization program and the USA s reassessment of its strategic interests In doing so the book provides the reader with the opportunity to conceptualize how strategic thinking military reform operational adaptation and technological integration have interacted with the challenges outlined above With contributions by leading scholars and practitioners from Europe and Asia this book provides a valuable contribution to the understanding of strategic and operational thinking and adjustment across the world This book will be of much interest to students of military and strategic studies security studies defence studies Asian politics Russian politics US foreign policy and IR in general **South Asia's Cold War** Rajesh M. Basrur,2008-04-28 This book is a groundbreaking analysis of the India Pakistan nuclear confrontation as a form of cold war that is a hostile relationship between nuclear rivals Drawing on nuclear rivalries between similar pairs the work examines the rise process and potential end of the Cold War between India and Pakistan **National Security Secrecy** Sudha Setty,2017-07-13 This book considers how excessive national security secrecy undercuts democracy and the rule of law necessitating comparative and critical analysis toward potential reforms **Domestic Political Change and Grand Strategy** National Bureau of Asian Research (U.S.),2007 Based upon work supported by the Department of Energy National Nuclear Security Administration under Award Number DE FG52 03SF22724 **Wars, Proxy-wars and Terrorism** Peter Wilson Prabhakar,2003 The Objective Of This Volume Is To Highlight India S Relations With Her Neighbouring Countries Such As Pakistan China And Bangladesh And To Show How Through Different Wars India Survives As A Strong Nation And To Demonstrate How Competently The Country S Leadership Had Been Handling The Various Challenges In The Last Quarter Of The Twentieth Century **Global Air Power** John Andreas Olsen,2011 What influences have shaped air power since human flight became a reality more than a hundred years ago Global Air Power provides insight into the evolution of air power theory and practice by examining the experience of six of the world s largest air forces those of the United Kingdom the United States Israel Russia India and China and of representative smaller air forces in Pacific Asia Latin America and continental Europe The chapters written by highly regarded scholars and military leaders explore how various nations have integrated air power into their armed forces and how they have applied air power in both regular and irregular warfare and in peacetime operations They cover the organizational professional and doctrinal issues that air forces confronted in the past

the lessons learned from victory and defeat and emerging challenges and opportunities Further Global Air Power supplements the traditional military perspective with examinations of the ideological economic and cultural factors that give air forces their distinctive characters Chapters show how the interplay among these internal factors together with external challenges determines the structure role and effectiveness of air forces Together these chapters illuminate universal trends as well as similarities and differences among the world s air forces Its combination of military history and sociopolitical analysis makes Global Air Power especially valuable to a broad range of historians air power specialists and general readers interested in national defense and international relations Pakistan C. Christine Fair,Keith Crane,Christopher S.

Chivvis,Samir Puri,Michael Spirtas,2010-04-13 The authors exposit likely developments in Pakistan s internal and external security environment over the coming decade assess Pakistan s national will and capacity to solve its problems especially those relating to security describe U S interests in Pakistan and suggest policies for the U S government to pursue in order to secure those interests Fighting to the End C. Christine Fair,2014 Pakistan s army has dominated the state for most of its 66 years It has locked the country in an enduring rivalry with India to revise the maps in Kashmir and to resist India s slow but inevitable rise To prosecute these dangerous policies the army employs non state actors under the security of its ever expanding nuclear umbrella The Pakistan army started three wars with India over Kashmir in 1947 1965 and 1999 and failed to win any of them It has sustained a proxy war in Kashmir since 1989 using Islamist militants some of whom have now turned their guns against the Pakistani state The Pakistan army has supported non Islamist insurgencies throughout India as well as a country wide Islamist terror campaign that have brought the two countries to the brink of war on several occasions Despite Pakistan s efforts to coerce India it has only achieved modest successes Even though India vivisected Pakistan in 1971 Pakistan continues to see itself as India s equal and demands the world do the same The tools that the army prefers to use non state actors under a nuclear umbrella has brought international opprobrium upon the country and the army In recent years erstwhile proxies have turned their gun on the Pakistani state itself and its peoples Why does the army persist in pursuing these revisionist policies that have come to imperil the very viability of the state itself from which the army feeds This volume argues that the answer lies at least partially in the strategic culture of the army From the army s distorted view of history the army is victorious as long as can resist India s purported hegemony and the territorial status quo To acquiesce is defeat Because the army is unlikely to abandon these preferences the world must prepare for an ever more dangerous future Pakistan
