The Definitive Journals of Lewis & Clark: Through the Rockies to the Cascades Meriwether Lewis, Gary E. Moulton, 2002-01-01 Since the time of Columbus explorers dreamed of a water passage across the North American continent President Thomas Jefferson shared this dream He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean Meriwether Lewis and William Clark led this expedition of 1804 6 Along the way they filled hundreds of notebook pages with observations of the geography Indian tribes and natural history of the trans Mississippi West The late summer and fall months of 1805 were the most difficult period of Lewis and Clark s journey This volume documents their travels from the Three Forks of the Missouri River in present day Montana to the Cascades of the Columbia River on today s Washington Oregon border including the expedition s progress over the rugged Bitterroot Mountains along the nearly impenetrable Lolo Trail Along the way the

explorers encounter Shoshones Flatheads Nez Perces and other Indian tribes some of whom had never before met white people

**Bitterroot** Patricia Tyson Stroud, 2018-02-23 In America's early national period Meriwether Lewis was a towering figure. Selected by Thomas Jefferson to lead the expedition to explore the Louisiana Purchase, he was later rewarded by Jefferson with the governorship of the entire Louisiana Territory. Yet within three years, plagued by controversy over administrative expenses, Lewis found his reputation and career in tatters. En route to Washington to clear his name, he died mysteriously in a crude cabin on the Natchez Trace in Tennessee. Was he a suicide felled by his own alcoholism and mental instability? Most historians have agreed. Patricia Tyson Stroud reads the evidence to posit another, even darker ending for Lewis. Stroud uses Lewis's find of the bitterroot flower with its nauseously pungent root as a symbol for his reputation as a purported suicide. It was this reputation that Thomas Jefferson promulgated in the memoir he wrote prefacing the short account of Lewis's historic expedition, published five years after his death. Without investigation of any kind, Jefferson, Lewis's mentor from boyhood, reiterated undocumented assertions of Lewis's serious depression and alcoholism. That Lewis was the courageous leader of the first expedition to explore the continent from the Mississippi River to the Pacific Ocean has been overshadowed by presuppositions about the nature of his death. Stroud peels away the layers of misinformation and gossip that have obscured Lewis's rightful reputation. Through a retelling of his life from his resourceful youth to the brilliance of his leadership and accomplishments as a man, *Bitterroot* shows that Jefferson's mystifying assertion about the death of his protégé is the long-held bitter root of the Meriwether Lewis story.

**The Definitive Journals of Lewis and Clark** Meriwether Lewis, William Clark, Gary E. Moulton, 2002-01-01 Lively and curious, possessing a keen eye for detail and a knack for skin dressing, Private Joseph Whitehouse produced an account that stands as the only surviving record by any army private in the Corps of Discovery expedition. In simple and well-paced sentences, he painted full portraits of the unusual group of men he accompanied on one of the greatest adventures in American history. Whitehouse's journal is published here in full for the first time, including entries from a second copy of his journal that extend the narrative for five months beyond previous editions. Although Whitehouse's career after the expedition was checkered and he disappeared after 1817, his vivid eyewitness account will long be remembered. Whitehouse's journal joins the celebrated Nebraska edition of the complete journals of the Lewis and Clark expedition, which feature a wide range of new scholarship dealing with all aspects of the expedition, from geography to Indian cultures and languages to plants and animals.

**The Definitive Journals of Lewis and Clark** John Ordway, 2003-01-01 The dependable and matter-of-fact John Ordway was one of the mainstays of the Corps of Discovery, promoted early on to sergeant and serving as an able leader during the captain's absence. Fascinated by the peoples and places he encountered, Ordway became the most faithful journalist on the expedition, recording information not found elsewhere and making an entry for every day during the expedition. Ordway later married and became a prosperous owner of two plantations in Missouri. His honest and informative account, which remained undiscovered for a century, offers an

unforgettable glimpse of an enlisted man's experiences and observations as he and the Corps of Discovery embarked on the journey of a lifetime. In contrast to Ordway's extensive chronicle stands the far too brief but intriguingly detailed eyewitness account of Sergeant Charles Floyd, the only member to die on the expedition. The journals of John Ordway and Charles Floyd are part of the celebrated Nebraska edition of the complete journals of the Lewis and Clark expedition, which feature a wide range of new scholarship on all aspects of the expedition, from geography to Indian cultures and languages to plants and animals.

**The Definitive Journals of Lewis & Clark: From the Ohio to the Vermillion** William Clark, Gary E. Moulton, Thomas W. Dunlay, 2002-01-01. Since the time of Columbus, explorers dreamed of a water passage across the North American continent. President Thomas Jefferson shared this dream. He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean. Meriwether Lewis and William Clark led this expedition of 1804-6. Along the way they filled hundreds of notebook pages with observations of the geography, Indian tribes, and natural history of the trans-Mississippi West. This volume includes Lewis's and Clark's journals beginning in August 1803 when Lewis left Pittsburgh to join Clark farther down the Ohio River. The two men and several recruits camped near the mouth of the Missouri River for five months of training, acquiring supplies and equipment, and gathering information from travelers about the trip upriver. They started up the Missouri in May 1804. This volume ends in August when the Corps of Discovery camped near the Vermillion River in present-day South Dakota. *Lewis and Clark Road Trips: Exploring the Trail Across America* Kira Gale, 2006. [The Definitive Journals of Lewis and Clark](#) Gary E.

Moulton, 2004-01-01. This landmark volume contains the most complete listing and presentation of the plant specimens collected by the Lewis and Clark expedition. All but one of the plants were collected by Meriwether Lewis, the expedition's botanist. The collection, however, was nearly lost over the years when it was scattered among various botanists who intended to catalog the expedition's scientific discoveries. Fortunately, for many years the specimens have been in the care of major institutions, principally the Academy of Natural Sciences in Philadelphia. The 239 extant items are brought together in one book for the first time. This indispensable volume will assist researchers and enthusiasts hoping to identify each plant's date and place of collection and other information such as plant habitat and ethnobotanical use. *The Definitive Journals of Lewis & Clark: Down the Columbia to Fort Clatsop* Gary E.
